Elsharabasy,2014-11-18 International Conference on Engineering Education and Research **The Schenley Experiment**
 Jake Oresick,2017-04-14 The Schenley Experiment is the story of Pittsburgh's first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace's reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America's oldest public schools **Validating Technological Innovation**
 David Coniam,Peter Falvey,2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations Given that Hong Kong leads the way in OSM innovation this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong The authors discuss their experience of the validation process demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders *Stockbroker Series 7 Exam General Securities Registered Representative Examination Practice Exams and Study Guide* Philip Martin

 Carl Bistany,Stephanie Gruner Buckley,2015-11-05 In the mid nineties the Alfred Glickman School was just another failing school in one of America's most violent cities Then SABIS a private for profit education provider took over Twenty years later the school is a six time silver medalist in U S News World Report's annual America's Best High Schools listing and every single graduate of the school has been offered a college place With success of this magnitude you would think that for profit

managed charter schools like SABIS would be in high demand On the contrary they are fought at every turn Why is the idea of employing for profit companies to help rescue failing public schools treated with fear and hostility Stranger still why does a nation built on free enterprise refuse to embrace a free market strategy when so many students and schools would clearly benefit and with so much at stake Last Bell is a book about politics money and power It examines the charge that for profits running charter schools are in it for the money not the kids and reveals the real motives of those spreading these ideas and why they fight private sector involvement in public schools Last Bell is a reasonable voice in a polarized debate It does not call for an end to public schools but rather imagines a future in which private companies help create a competitive market for public education to boost performance turn derelict schools into centers of excellence and give parents even in the worst neighborhoods real choice and their children a future

Beyond McDonaldization Dennis Hayes, 2017-04-19 *Beyond McDonaldization* provides new concepts of higher education for the twenty first century in a unique manner challenging much that is written in mainstream texts This book undertakes a reassessment of the growth of McDonaldization in higher education by exploring how the application of Ritzer s four features efficiency predictability calculability and control has become commonplace This wide ranging text discusses arguments surrounding the industrialisation of higher education with case studies and contributions from a wide range of international authors Written in an accessible style *Beyond McDonaldization* examines questions such as Can we regain academic freedom whilst challenging the McDonaldization of thought and ideas Is a McDonaldization of every aspect of academic life inevitable Will the new focus on student experience damage young people Why is a McDonaldized education living on borrowed time Is it possible to recreate the university of the past or must we start anew Does this industrialisation meet the educational needs of developing economies This book brings international discussions on the changing world of higher education and the theory of McDonaldization together seeking to provide a positive future vision of higher education Analysing and situating the discussion of higher education within a wider social political and cultural context this ground breaking text will have a popular appeal with students academics and educationalists
