Adkins, Frank Logue, 2011-04-22 Day hikes in all fourteen states the Appalachian Trail passes through are described in brief followed by a point by point description of the hike and trailhead directions Hikes range in length from less than a mile to eleven miles *Frederic Church* John K. Howat, Frederic Edwin Church, 2005-01-01 One of Thomas Cole's illustrious pupils at an early age Church became a key figure associated with the Hudson River School His adventurous international travels and the paintings that resulted from his expeditions brought him far reaching attention and his pictures often commanded record breaking sums Church's friendships and interests religion history literature music architecture agriculture and science as well as his skills as a crafty entrepreneur are explored Beautiful reproductions of Church's extraordinary home Olana which one can visit today in eastern New York are also featured **BOOK JACKET** *Baxter State Park and Katahdin* John W. Neff, Howard R. Whitcomb, 2012 The character of Baxter State Park and the great mountain at its heart can be powerfully conveyed through two words forever wild The mountain was known as Ktaadn or the greatest mountain to native peoples who first frequented Maine's interior northern forest They were followed by colonial adventurers who explored its cirques and massive granite walls by those who studied its geology and flora and fauna and later by loggers who came to extract the virgin timber from nearby valleys Finally recreational climbing and camping led to an effort to protect the rugged beauty of these mountains lakes and valleys When calls for preservation went unheeded former governor Percival P. Baxter beginning in the 1930s purchased some 201 000 acres over a period of 30 years and gifted them to the state Today Baxter State Park is the guardian of this vast wilderness area for all to enjoy Baxter State Park and Katahdin draws on rich collections of archival images dating back to the 19th century **The Wildest Country** J. Parker Huber, 1981 *Henry David Thoreau* Michael Berger, 2025-08-01 Thoreau is well known as a lyrical nature writer environmental prophet rebel against stifling convention and theorist of strategic intervention to protest injustice He was also a part time surveyor and pencil maker student of Native America abolitionist philosopher and shrewd Transcendentalist Whether living at Walden Pond or comfortably on Main Street in central Concord Thoreau made deep inquiries into life and gave all to his craft Drawing on the work of outstanding scholars and critics this companion provides information on the full body of Thoreau's work his life and his world connecting the factors that affected Thoreau's thought and writing and highlighting his impact in his own time and since This study brings these various aspects of Thoreau's life and writings into focus in over one hundred interconnected essays Rethinking Wilderness and the Wild Robyn Bartel, Marty Branagan, Fiona Utley, Stephen Harris, 2020-10-29 Rethinking Wilderness and the Wild Conflict Conservation and Co existence examines the complexities surrounding the concept of wilderness Contemporary wilderness scholarship has tended to fall into two categories the so called fortress conservation and co existence schools of thought This book contending that this polarisation has led to a

silencing and concealment of alternative perspectives and lines of enquiry extends beyond these confines and in particular steers away from the dilemmas of paradise or paradox in order to advance an intellectual and policy agenda of plurality and diversity rather than of prescription and definition Drawing on case studies from Australia Aotearoa New Zealand the United States and Iceland and explorations of embodied experience creative practice philosophy and First Nations land management approaches the assembled chapters examine wilderness ideals conflicts and human nature dualities afresh and examine co existence and conservation in the Anthropocene in diverse ontological and multidisciplinary ways By demonstrating a strong commitment to respecting the knowledge and perspectives of Indigenous peoples this work delivers a more nuanced ethical and decolonising approach to issues arising from relationships with wilderness Such a collection is immediately appropriate given the political challenges and social complexities of our time and the mounting threats to life across the globe The abiding and uniting logic of the book is to offer a unique and innovative contribution to engender transformations of wilderness scholarship activism and conservation policy This text refutes the inherent privileging and exclusionary tactics of dominant modes of enquiry that too often serve to silence non human and contrary positions It reveals a multi faceted and contingent wilderness alive with agency diversity and possibility This book will be of great interest to students and scholars of conservation environmental and natural resource management Indigenous studies and environmental policy and planning It will also be of interest to practitioners policymakers and NGOs involved in conservation protected environments and environmental governance
