TOMASZEWSKI, 2024-08-28 The spiritual direction supervision process was adapted from supervision in the psychological community It helps a spiritual director uncover personal agendas self protective motives or psychological and spiritual impediments to freedom in the spiritual director Supervision is vital for every spiritual director new or experienced It provides an opportunity for a spiritual director some say companion to perform a personal inventory to prayerfully explore personality traits or issues that might interfere with direction as well as moments of grace and then use that information to

grow and develop into a better person and in the process become a better spiritual director It is important to note that supervision deals with the inner movements of the director not the directed During the process the director and supervisor s contemplatively listen together to God and what has been going on inside the director his or her affect while he she is listening to another Both the supervised spiritual director and supervisors explore together where they noticed God in the direction session Effective supervision opens the director to self and his or her feelings responses or reactions which might include almost any emotion including boredom anger fear anxiety distraction as well as enthusiasm joy peace and hope Supervision provides many benefits including Opens the heart and soul more fully to God Increases inner freedom transparency and humility Aligns human hearts with the work of the Holy Spirit Helps a person hone the ability to be a spiritual director Develops close relationships trust and respect among supervision group members This book will help you begin or improve your spiritual direction through group supervision It provides formats for recording direction sessions supervision presentations verbatim and a supervision meeting agenda And hopefully it will help you grow toward Christ and Discerning the Will of God Timothy M.
