Danias, 2008-04-06 Cardiac Magnetic Resonance CMR is a rapidly

evolving imaging technology and is now increasingly utilized in patient care Its advantages are noninvasiveness superb image resolutions and body tissue characterization CMR is now an essential part of both cardiology and radiology training and has become part of the examination for Board certification This book provides a condensed but comprehensive and reader friendly educational tool for cardiology fellows and radiology residents It contains multiple choice questions similar to board examinations with concise comment and explanation about the correct answer The Art and Science of Cardiac Physical Examination Narasimhan Ranganathan, Vahe Sivaciyan, Franklin B. Saksena, 2007-11-10 It has been our experience that instruction in physical examination of the heart in medical schools has been deteriorating since the advent of such

modern diagnostic tools as two dimensional echocardiography and nuclear imaging At best the teaching has been sketchy and too superficial for the student to appreciate the pathophysiological correlates Both invasive and the noninvasive modern technologies have contributed substantially to our knowledge and understanding of cardiac physical signs and their pathophysiological correlates However both students and teachers alike appear to be mesmerized by technological advances to the neglect of the age old art as well as the substantial body of science of cardiac physical examination It is also sad to see reputed journals give low priority to articles related to the clinical examination Our experience is substantiated by a nationwide survey of internal medicine and cardiology training programs which concluded that the teaching and practice of cardiac auscultation received low emphasis and perhaps other bedside diagnostic skills as well 1 The state of the problem is well reflected in the concerns expressed in previous publications 2 4 including the 2001 editorial in the American Journal of Medicine Vol 110 pp 233 235 entitled Cardiac auscultation and teaching rounds how can cardiac auscultation be resuscitated as well as in the rebuttal Selections from current literature Horton hears a Who but no murmurs does it matter 5
