Losing the Signal Jacquie McNish, Sean Silcoff, 2015-05-26 A breathtaking inside account of one of the most dramatic business triumphs and flameouts in recent history

Losing The Signal Jacquie McNish, Sean Silcoff, 2015-05-26 It was a classic modern business story two Canadian entrepreneurs build an iconic brand that would forever change the way we communicate From its humble beginnings in an office above a bagel store in Waterloo Ontario BlackBerry outsmarted the global giants with an addictive smartphone that generated billions of dollars Its devices were so ubiquitous that even President Barack Obama favoured them above all others But just as it was emerging as the dominant global player BlackBerry took a dramatic turn Losing the Signal is the riveting never before told story of one of the most spectacular technological upsets of the 21st century Unlike Enron which was undone by its executives illegal activities or Lehman Brothers which collapsed as part of a larger global banking crisis BlackBerry's rise and fall is a modern day tale of the unrelenting speed of success and failure It is a thrilling account of how two mismatched CEOs outsmarted more powerful competitors with a combination of innovation and sharp elbowed tactics and how once on top of the world they lost their way The company responded too slowly to competitors innovations and when it finally made its move it stumbled with delayed poorly designed and unpopular smartphones A little more than a decade after Research In Motion introduced the BlackBerry it is now struggling to survive Its share of the US phone market fell from 50 per cent in 2009 to about one percent in 2013 showing just how aggressive fast and unforgiving today's global business market can be

Losing The Signal Jacquie McNish, Sean Silcoff, 2016-04-05 1 National Bestseller Losing the Signal is the riveting untold story of how BlackBerry engineered one of the most spectacular technological upsets of the twenty first century before it lost its way in the fog of smartphone wars management indecision and the breakdown of one of the most successful partnerships in the history of Canadian business Its rise and fall is a cautionary tale of the unrelenting speed of modern success and failure At the heart of the story are two mismatched co CEOs Mike Lazaridis a bookish innovator and Jim Balsillie an aggressive entrepreneur who grew their company from humble beginnings above a bagel store in Waterloo Ontario Harnessing innovation and sharp elbowed tactics BlackBerry's bosses outsmarted powerful international competitors and built a global business in a little more than a decade with an addictive phone that changed the way we communicated BlackBerry's devices were so ubiquitous that even President Barack Obama favoured them above all others Just as BlackBerry was emerging as the dominant global player internal fault lines hobbled the company at the very moment its smartphone crown was challenged by stronger competitors Apple Google and Samsung When the Canadian company finally made its move it stumbled with delayed poorly designed and unpopular handheld devices that took it out of the race Only fifteen years after the BlackBerry was launched the company is struggling to survive Its share of the U S phone market fell from fifty per cent in 2009 to less than one percent by the end of 2014 Written by veteran journalists Jacquie McNish and Sean Silcoff Losing the Signal is an
