*Own Your Power* Alice Jones, 2018-05-18 By changing our thoughts we can change our lives By changing our lives we can change the world The power to accomplish these things is within us it is love Love is what created us and what we return to Love is the real power of the universe *Own Your Power Day by Day* is a guidebook to spiritual transformation It teaches valuable spiritual truths and skills learning to listen to our higher selves rather than our ego selves accessing the part of us that is connected to unconditional love rather than fear accepting the importance of forgiveness and understanding the importance of the invisible energy field that surrounds us There is an energy in words that can either crush us or heal and elevate us particularly those words that appear in our own thoughts Everything we need to succeed and become what we yearn to be is inside of us Discover a way to access the part of yourself that never left God and that is larger than all the restrictions limitations fears and doubts that society heaps on you This guide seeks to help you remove spiritual mental and emotional blockages heal your body mind and spirit and move into peace harmony and joy *The Mysteries of Consciousness* Ingrid Fredriksson, 2015-10-09 For hundreds of years the Western world has believed that humans indeed all living things consist of more than pure biology Not mere physical bodies humans possess something else that helps to define them In this collection of new essays scientists psychologists theoretical physicists and other experts in the mind body connection explore the nature of consciousness and its future as a new paradigm in science With contributions covering near death experiences the concept of free will conscious spacetime DNA consciousness the role of consciousness in the evolution of life quantum theory and the non local universe the scientific basis of love and the principles and applications of self hypnosis this volume clarifies the meaning of consciousness and establishes a model for further exploration into a burgeoning realm of scientific study *Love Thyself* Masaru Emoto, 2011-01-23 The common language that the people of the world have been seeking is found in water crystals Water speaks for what is in our mind Water awakens the subconscious memory in each person I now know why water is indispensable to the phenomenon of life and why alternative therapies exist and why they are effective Water helped me understand religion and prayer and gave me a clue to understanding the nature of energy It helped me understand the relationship between humanity and the cosmos It gave me a clue to help me understand what dimensionality is I could come one step closer to understanding the eternal theme of humanity that asks where we come from why we are here and what happens when we die Thus for the release of this the third volume in my series of *The Message from Water* I decided to choose what the world most urgently needs at present as a theme That is of course the need to eliminate war and terrorism throughout the world The theme I have chosen is prayer When I thought about it more deeply I realized that prayer is most effectively sent when each person in the world raises their energy of love by imagining a scene where the peoples of the world are living in peace I've been taught this through the process of asking water many questions For this reason the title of this book is *Love Thyself* First you must shine with positive high spirited vibrations and be full of

love In order to do that I think it s important to love thank and respect yourself If that s the case then each of those vibrations will be sent out into the world and the cosmos and the great symphony of that harmonic vibration will wrap our planet in waves of love that serve to cherish our Heaven granted lives This is the message from water **Be Positive** Rich Wood,2010-12-01 Be Positive is a unique journey of personal empowerment one that seamlessly blends the author s first hand healing experiences with quantum physics philosophy and spiritual wisdom In this book Rich Wood provides indisputable scientific facts that validate the existence of a universal energy that instantaneously connects us all and clearly explains the science behind the Law of Attraction Be Positive explores the convergence of ancient Eastern wisdom with those of modern physicists and presents us with undeniable proof of our ability to impact our lives and the lives of those around us through our positive thoughts and intentions Be Positive and watch how effortlessly you can change the direction of your life experience greater happiness and fulfillment starting right now Love Thyself Masaru Emoto,2006 Mind body spirit
