Grant Development for Large and Small Libraries Lynette Korenic, Clayton Kirking, 1990 This fully revised new edition re-establishes Paul Griffiths's survey as the definitive study of music since the Second World War The disruptions of the war and the struggles of the ensuing peace were reflected in the music of the time in Pierre Boulez's radical reforming of compositional technique and in John Cage's move into zen music in Milton Babbitt's settling of the serial system and in Dmitry Shostakovich's unsettling symphonies in Karlheinz Stockhausen's development of electronic music and in Luigi Nono's pursuit of the universally human in Iannis Xenakis's view of music as sounding mathematics and in Luciano Berio's

consideration of it as language The initiatives of these composers and their contemporaries opened prospects that have continued to unfold This constant expansion of musical thinking since 1945 has left us with no single history of music Paul Griffiths's study accordingly follows several different paths showing how and why they converge and diverge In addition to the composers mentioned above others whose music is discussed include Steve Reich Jean Barraque Elliott Carter Olivier Messiaen Gyorgy Kurtag Harrison Birtwistle and Gyorgy Ligeti Publication and recording details are given for the works of all these composers and many others
