## **Great Bear Wild Dispatches From A Northern Rainforest:**

**Great Bear Wild** Professor of Political Science Ian McAllister, 2021-02 The Great Bear Rainforest is the fabled region that stretches up the rugged Pacific coast from the top of Vancouver Island to southern Alaska A longtime resident of the area award winning photographer and conservationist Ian McAllister takes us on a deeply personal journey from the headwaters of the Great Bear Rainforest's unexplored river valleys down to where the ocean meets the rainforest and finally to the hidden depths of the offshore world Along the way we meet the spectacular wildlife that inhabits the Great Bear Rainforest in a not so unusual week McAllister quietly observes twenty seven bears fishing for salmon three of which are the famed pure white grizzlies Kermodes McAllister introduces us to the First Nations people who have lived there for millennia and have become his close friends and allies and to the scientists conducting groundbreaking research and racing against time to protect the rainforest from massive energy projects

*In the Valleys of the Noble Beyond* John Zada, 2019-07-02 A journalist travels through British Columbia exploring one of the world's most baffling mysteries the existence of the Sasquatch On the central and north coast of British Columbia the Great Bear Rainforest is the largest intact temperate rainforest in the world containing more organic matter than any other terrestrial ecosystem on the planet The area plays host to a wide range of species from thousand year old western cedars to humpback whales to iconic white Spirit bears According to local residents another giant is said to live in these woods For centuries people have reported encounters with the Sasquatch a species of hairy bipedal man apes said to inhabit the deepest recesses of this pristine wilderness Driven by his own childhood obsession with the creatures John Zada decides to seek out the diverse inhabitants of this rugged and far flung coast where nearly everyone has a story to tell from a scientist who dedicated his life to researching the Sasquatch to members of the area's First Nations to a former grizzly bear hunter turned nature tour guide With each tale Zada discovers that his search for the Sasquatch is a quest for something infinitely more complex cutting across questions of human perception scientific inquiry indigenous traditions the environment and the power and desire of the human imagination to believe in or reject something largely unseen Teeming with gorgeous nature writing and a driving narrative that takes us through the forests and into the valleys of a remote and seldom visited region *In the Valleys of the Noble Beyond* sheds light on what our decades long pursuit of the Sasquatch can tell us about ourselves and invites us to welcome wonder for the unknown back into our lives Praise for *In the Valleys of the Noble Beyond* Books on supernatural phenomena typically steer one of two courses tabloid gullibility or mean spirited debunkery Zada deftly tightropes between the two *In the Valleys of the Noble Beyond* is not really about sasquatch It is about how we see what we want to see and don't see what we're not prepared to see A quirky and oddly captivating tale Eric Weiner Washington Post An adventure story in the tradition of Paul Theroux and in parts Jon Krakauer Zada is a latter day Henry David Thoreau or John Muir Searching for an elusive ape Zada has a knack for meeting unforgettable humans Peter Kuitenbrouwer Globe and Mail If people can believe in God why not

Sasquatch Zada takes us through the temperate rainforest of British Columbia looking for both the hairy bipedal and the mythology and landscape surrounding it Terrific nature writing with a furry twist Kerri Arsenault Orion **Inside** Susan Marie Conrad,2016-05-15 The Ocean is calling me This is my Journey With these words in the spring of 2010 Susan Marie Conrad scaled her world down to an 18 foot sea kayak and launched a solo journey that took her north to Alaska With no sense of where she belonged in space and unreconciled feelings of a painful childhood following her she decided that instead of running away she would run toward her dreams Her adventure took her along the western coast of North America through the Inside Passage a 1 200 mile ribbon of water in a journey of the sea and soul The expedition took her deep within herself humbling her healing her helping her to discover the depths of her own strength and courage On her way from Anacortes Washington to Juneau Alaska she grappled with fear and exhaustion forged friendships with quirky people in the strangest places endured perilous weather and angry seas and pretended not to be intimidated by 700 pound grizzly bears and 40 ton whales She lived her dream **Object-Based Learning and Well-Being** Thomas Kador,Helen Chatterjee,2020-11-26 Object Based Learning and Well Being provides the first explicit analysis of the combined learning and well being benefits of working with material culture and curated collections Following on from the widely acclaimed Engaging the Senses this volume explicitly explores the connection between the value of material culture for both learning and well being Bringing together experts and practitioners from eight countries on four continents the book analyses the significance of curated collections for structured cultural interventions that may bring both educational and well being benefits Topics covered include the role of material culture in relation to mental health sensory impairments and general student and teacher well being Contributors also consider how collections can be employed to positively address questions of identity and belonging relating to marginalisation colonialism and forced displacement Object Based Learning and Well Being should be a key first point of reference for academics and students who are engaged in the study of object based learning museums heritage health and well being The book will be of particular interest to practitioners working in higher education or those working in the cultural heritage museums and health sectors Drone Chase Pam Withers,2021-01-26 Ray will need every ounce of his drone skills and outdoor smarts to recover his missing bear cub before poachers get to it first When his orphan bear cub goes missing sixteen year old drone enthusiast Ray McLellan decides to use his airborne spying skills to find it Little does he know that an evil bear poaching gang operating in the surrounding forest has drones too and a cold welcome for those who would attempt to take them down As a New York City kid recently forced to move to the Great Bear Rainforest by his parents Ray doesn t have a lifetime of outdoor instincts or familiarity with the valley and its wildlife That makes him very different from his grumpy grandfather who like his new school friends berates his city kid uselessness at every opportunity Can Ray use his drones and smarts to prove himself find his cub and expose what s going on in the woods **The Great Bear Rainforest** Karen McAllister,Cameron Young,1997 Along the coast between Vancouver Island and Alaska lies 250 miles of forested

island and inlets Ian and Karen McAllister spent seven years photographing and mapping this forgotten wild ecosystem Their informative text and remarkable photographs including some of the most extraordinary images of wild bears ever published present a complete picture of this unique area 150 color photos Great Bear Rainforest Ian McAllister,Alex Van Tol,2019 A companion to Ian McAllister s film for IMAX and giant screen theaters Great Bear Rainforest **In the Great Bear**
