Green Count Savoy Transalpine Fourteenth Century:

The Green Count of Savoy Eugene L. Cox, 2015-12-08 The fourteenth century is usually portrayed as a period of retrogression and disaster in European history but for the transalpine state of Savoy it was a period of glory During this time almost the entire region between Lombardy and Burgundy was brought under the control of Savoyard rulers The buffer state created between France and Italy hindered French expansion for many centuries and helped preserve the independence of Italy Drawing upon much unpublished material Professor Cox traces the social and political evolution of the principality He discusses how the Savoyard state was governed financed and defended He also provides a fascinating biography of the Green Count Originally published in 1967 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Green Count of Savoy: Amedeus VI and Transalpine Savoy in the Fourteenth-Century Eugene L. The Gattilusio Lordships and the Aegean World 1355-1462 Christopher Wright, 2014-01-09 In *The Gattilusio Lordships and the Aegean World 1355 1462* Christopher Wright offers a window into the culturally and politically diverse late medieval Aegean The overlapping influences of the contrasting networks of power at work in the region are explored through the history of one of many small and distinctive political units that flourished in this fragmented environment the lordships of the Gattilusio family centred on Lesbos Though Genoese in origin they owed their position to Byzantine authority Though active in crusading they cultivated congenial relations with the Ottomans Though Catholic they afforded exceptional freedom to the Orthodox Church Their regime is shown to represent both a unique fusion of influences and a revealing microcosm of its times

Poisoned Wells Tzafrir Barzilay, 2022-03-22 Between 1348 and 1350 Jews throughout Europe were accused of having caused the spread of the Black Death by poisoning the wells from which the entire population drank Hundreds if not thousands were executed from Aragon and southern France into the eastern regions of the German speaking lands But if the well poisoning accusations against the Jews during these plague years are the most frequently cited of such cases they were not unique The first major wave of accusations came in France and Aragon in 1321 and it was lepers not Jews who were the initial targets Local authorities and especially municipal councils promoted these charges so as to be able to seize the property of the leprosaria Tzafrir Barzilay contends The allegations eventually expanded to describe an international conspiracy organized by Muslims and only then after months of persecution of the lepers did some nobles of central France implicate the Jews convincing the king to expel them from the realm In *Poisoned Wells* Barzilay explores the origins of these charges of well poisoning asks how the fear took root and moved across Europe which groups it targeted why it held in certain areas and not others and why it waned in the fifteenth century He argues that many of the social political and environmental factors that fed the rise of the mass poisoning accusations had already appeared during the thirteenth century a period of increased urbanization of criminal poisoning charges and of the proliferation of medical texts on toxins In studying the narratives that were presented to convince officials that certain groups committed well poisoning and the legal and bureaucratic mechanisms that moved rumors into officially accepted and prosecutable crimes Barzilay has written a crucial chapter in the long history of the persecution of European minorities

Plagues, poisons and potions William G. Naphy, 2021-02-02 *Plagues poisons and potions* highlights one of the most fascinating aspects of the history of early modern plague In the sixteenth and seventeenth centuries outbreaks of plague in and around the ancient Duchy of Savoy led to the arrests of many people who were accused of conspiring to spread the disease Those implicated in the conspiracies were usually poor female migrants working in the plague hospitals under the direction of educated professional male barber surgeons These conspirators were subsequently tried for spreading plague among leading and wealthy people from urban

areas so that they could rob them while the afflicted homeowners were confined to their beds In order to understand how this phenomenon developed and was regarded at the time this study examines the courts the judiciary and the part played by torture in the trials which frequently concluded with the spectacular and gruesome execution of the suspects The author goes on to consider the socio economic conditions of the workers and in doing so highlights an early modern form of class warfare However what makes this phenomenon especially interesting is that in an age dominated by superstition religious strife and witch hunts the conspiracies were always given a more rational explanation and motivation profit Both teachers and students of early modern history will be fascinated by this enlightening study into the fears of European society the spread of the disease and the judicial procedures of the time
