South of the Sahara SSA can be transformed if the right public support is provided at the initial stage and it can sustain itself
once the enabling environment is put in place Successes are also specific to the location of projects In Ghana interesting
insights are obtained from the successful Kpong Irrigation Project KIP contrasted with other major irrigation projects in the
country Through an exploratory review we describe how a productive system evolved in KIP and how public support for

credit processing mechanization of harvesting and other institutional voids that typically have constrained agricultural

summarizing those questions and some testable hypotheses for future research Diesel & Gas Turbine Catalog ,1990
