**Instruction Giving in Online Language Lessons** Müge Satar, Ciara R. Wigham, 2023-04-20. This concise volume calls attention to the instruction-giving practices of language teachers in online environments, in particular videoconferencing, employing a Multimodal Interaction Analysis approach to explore the challenges, affordances and pedagogical implications of teaching in these settings. The book examines the unique competences necessary for language teachers in multimodal synchronous online environments which require mediating a mix of modes including spoken language, gaze, gesture, posture and textual elements. Satar and Wigham's innovative approach draws on Sigrid Norris's work on Multimodal Interaction Analysis to examine variance in practices, combining in-depth micro-analytic analysis of mediation with a consideration of the modal density and complexity in the act of giving instructions. The volume shows how studying instruction-giving can offer a better understanding of how online teachers mediate learning multimodally in electronic environments but also research-informed guidance for practical implementation in the classroom. This book is a valuable resource for scholars in applied linguistics, language education and language learning and teaching as well as practicing online language teachers. Full-size versions of all Figures, Extracts and Tables are available in colour at <https://doi.org/10.25405/data.ncl.20315142>. Chapter 6 of this book is available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com). **Language, Corpus and Empowerment** Luke Collins, 2015-02-20. Language, Corpus and Empowerment applies a novel corpus-driven approach to the exploration of the concept of empowerment in healthcare. The book proposes an innovative corpus-based methodology for finding evidence of empowerment in language use using data from a video intervention delivered to families of deaf children as well as assessing the effects of the intervention on the family. Language, Corpus and Empowerment provides a working definition of empowerment which incorporates concepts from linguistics and learning theory, uses corpus analysis to provide evidence of how video interventions can transform people's perspectives, examines this new methodology as a potential tool for analysing conversational data.

longitudinally and at a case by case level demonstrates how a corpus based methodological approach can be applied in conjunction with other language based approaches such as discourse analysis and conversation analysis to explore the ways in which complex social processes occur in interaction makes a valuable development in the assessment of the impact of healthcare interventions and the language of empowerment Insightful and ground breaking Language Corpus and Empowerment is essential reading for anyone undertaking research within corpus linguistics
