

“I need to respond to some harmful content. What should I do?”

Insights and strategies from Kelsey Suter, [Drive Agency](#)

What is counter-messaging?

A message that disrupts harmful content by offering a more proactive, truthful message to address the core fear or falsehood being spread. For example:

THEY SAY...	THEY MEAN...	WE SAY...
"She's radical."	<i>She doesn't care about you.</i>	She's spent her career helping those in need.
"She'll do anything for political power."	<i>She didn't earn her place.</i>	She has a proven track record.
"She's not 'really' Black."	<i>Her nomination isn't historic or meaningful.</i>	She's the next part of a generational legacy of civil rights leaders.

Before responding: three factors to consider

1 REACH

To what extent has a new claim or piece of content broken out of its original echo chamber? Is it reaching the people we care about?

2 IMPACT

To what extent do we care if it has broken out of its echo chamber? Is it going to change the offline situation at all? **Who does it impact?**

3 RESPONSE

What's the best plan for **responding** to impacted audiences? How do we mitigate the threat of amplification?

The detailed mechanisms of focal anesthetic action are still being investigated and Chapter 2 of this volume provides a current overview of that subject
