Hard Pressed In The Heartland Hard Pressed In The Heartland:

Hard-pressed in the Heartland Peter J. Rachleff, 1993 *Hard Pressed in the Heartland* tells the heartbreaking but empowering story of a spirited local union trying to resist management's drive for concessions while fending off a conservative national union leadership unwilling to support its own members. Going beyond academic history it offers useful perspectives for rebuilding a democratic militant community based unionism that can succeed where today's bureaucratic unionism cannot.

The Assault on Labor Sandra L. Albrecht, 2016-12-20 *The Assault on Labor* details the 1986 Independent Federation of Flight Attendants (IFFA) strike against Trans World Airlines (TWA) one of the most dramatic instances of the heightened labor conflict in the 1980s. Using extensive court union and company documents *The Assault on Labor* shows how the expanded use of permanent replacements in labor disputes has fundamentally altered workers' legal right to strike. Set within one of the biggest corporate raids of the time it was a strike of a predominantly female labor force that garnered respect throughout the labor movement for its solidarity and determination. Faced with the permanent replacement of over 5000 strikers IFFA waged a three year struggle to return all workers to the line mobilizing political, economic and legal actions to secure their jobs and survive as a union. Despite critical successes in the courts in the aftermath of the strike the Supreme Court would render a decision that further strengthened permanent replacements. Since the 1980s labor's major form of protest the right to strike has all but disappeared.

Strike for the Common Good Rebecca Kolins Givan, Amy Schrager Lang, 2020-10-08 In February 2018 35 000 public school educators and staff walked off the job in West Virginia. More than 100 000 teachers in other states both right to work states like West Virginia and those with a unionized workforce followed them over the next year. From Arizona, Kentucky and Oklahoma to Colorado and California teachers announced to state legislators that not only their abysmal wages but the deplorable conditions of their work and the increasingly straitened circumstances of public education were unacceptable. These recent teacher walkouts affirm public education as a crucial public benefit and understand the rampant disinvestment in public education not simply as a local issue affecting teacher paychecks but also as a danger to communities and to democracy. *Strike for the Common Good* gathers together original essays written by teachers involved in strikes nationwide by students and parents who have supported them by journalists who have covered these strikes in depth and by outside analysts academic and otherwise. Together the essays consider the place of these strikes in the broader landscape of recent labor organizing and battles over public education and attend to the largely female workforce and often largely non white student population of America's schools.

Left Turn Stanley Aronowitz, 2015-12-03 Building a new platform for change prominent social critic Stanley Aronowitz diagnoses America's crisis of democracy and the dangers of the new authoritarianism. Aronowitz draws on his vast knowledge of history and political theory and from currents of political change around the globe from the traditions of the European left to the newest political trends in Latin America that have challenged the death of socialism. Demonstrating why Democrats lose when they

clinging to centrism and compromise their core values this book shows us what a new left party in America would look like in an era of globalization terrorism and a crisis of public confidence in government

Cyber-Marx Nick Dyer-Witheford, 1999 In this highly readable and thought provoking work Nick Dyer Witheford assesses the relevance of Marxism in our time and demonstrates how the information age far from transcending the historic conflict between capital and its laboring subjects constitutes the latest battleground in their encounter Dyer Witheford maps the dynamics of modern capitalism showing how capital depends for its operations not just on exploitation in the immediate workplace but on the continuous integration of a whole series of social sites and activities from public health and maternity to natural resource allocation and the geographical reorganization of labor power He also shows how these sites and activities may become focal points of subversion and insurgency as new means of communication vital for the smooth flow of capital also permit otherwise isolated and dispersed points of resistance to connect and combine with one another Cutting through the smokescreen of high tech propaganda Dyer Witheford predicts the advent of a reinvented autonomist Marxism that will rediscover the possibility of a collective communist transformation

The Fighting Sullivans Bruce Kuklick, 2016-11-07 In November of 1942 the five Sullivan brothers from Waterloo Iowa were killed when a Japanese torpedo sank their ship during the most ferocious naval engagement fought in the South Pacific The family's loss the most extraordinary for the United States in its military history was immortalized and valorized in the 1944 film *The Fighting Sullivans* This book tells the story of how calamity with the help of Hollywood and the wartime publicity machine transformed a family of marginal and disreputable young men intensely disliked in their hometown into heroes The Sullivan boys joined the armed forces after Pearl Harbor and the US Navy accepted that they would all serve on one ship the light cruiser USS Juneau The five brothers gave the navy great publicity but when the ship went down and survivors were not rescued the service faced a serious problem *The Fighting Sullivans* examines the campaign that followed as the navy and its partners in Hollywood turned a tragedy of errors into a public relations victory Bruce Kuklick shows how the myth of the Sullivan family was created using bits and pieces of real events but with twists that turned the boys into superhumans and their beleaguered parents into self-sacrificing patriots He explores the close relationship between Hollywood studios and the military which aimed to boost morale and support for the war A study in mythmaking *The Fighting Sullivans* offers a behind-the-scenes look at the manufacture of heroes in twentieth-century wartime America

Capitalism in the Web of Life Jason W. Moore, 2015-08-24 Finance Climate Food Work How are the crises of the twenty-first century connected In *Capitalism in the Web of Life* Jason W Moore argues that the sources of today's global turbulence have a common cause capitalism as a way of organizing nature including human nature Drawing on environmentalist feminist and Marxist thought Moore offers a groundbreaking new synthesis capitalism as a world ecology of wealth power and nature Capitalism's greatest strength and the source of its problems is its capacity to create Cheap Nature's labor food energy and raw materials That capacity is now in question Rethinking capitalism through

the pulsing and renewing dialectic of humanity in nature Moore takes readers on a journey from the rise of capitalism to the modern mosaic of crisis Capitalism in the Web of Life shows how the critique of capitalism in nature rather than capitalism and nature is key to understanding our predicament and to pursuing the politics of liberation in the century ahead
