Making the Case Heidi Grasswick, Nancy Arden McHugh, 2021-04-01 Making the Case brings together established and emerging philosophers who use case studies to address a variety of contemporary social justice causes The contributors show both the depth and breadth of work in this area and highlight the distinctive approaches that feminist and critical race theorists in particular have pursued For these theorists the choice of the kinds of cases analyzed matters not only pushing philosophy as a field to foreground the challenges facing marginalized groups but also affecting the kind of philosophy that results This ensures that their theories do not reproduce the conceptual frameworks of dominant groups By using thickly described cases as opposed to the thinly described or hypothetical situations that have been the historic mainstay of philosophy the contributors strive to create philosophy that never strays too far from the complexities of people s lives on the ground The book provides philosophers with a host of methodologies theories and practical examples for use in social justice case work with topics ranging from census design and gender bias in science to incarceration and the spate of recent police killings of black men and women
