About the Author

THEODORE S. RAPPAPORT holds the William and Bertha Moore Chair in Electrical Engineering at the University of Texas, Austin and is the James T. Jones Professor of Telecommunications Engineering and Emerging Technologies, Texas, in 2002. He founded the Mobile & Portable Radio Research Group at Virginia Tech, one of the first university research and educational programs focused on wireless communications. Rappaport has developed dozens of commercial products over the last twenty years and, more recently, the first IEEE standard for fundamental research and teaching materials used in university short courses and in university classrooms around the globe. His current research focuses on new methods for protecting and distributing wireless broadband and portable Internet access by integrating frequency reuse, and on low bandwidth, modeling, and practical use of 3-D ultra-wideband propagation techniques for future wireless networks.
