Jos van Oosten, 2008-04-24. SqEME is an open standard for developing a process centred architecture of an enterprise. It may be reproduced freely by any organization wishing to use it to develop a governance structure on the quality of their business processes. SqEME Process Management is a method that facilitates discussion of the design of the organization in a subtle but unambiguous way. Processes have to hold a prominent place in observing organizations how are the different parts of the organization tuned to each other and how does adequate communication take place. SqEME as a methodology views processes from four different perspectives. SqEME calls these windows by means of which one seeks for the Constitution, Chemistry, Correspondence and Construction of the enterprise. SqEME is the result of more than twenty years experience with the management of business processes within various organizations. SqEME has been applied successfully in industry, chemistry, automotive, construction, paper in the business sector, IT, service, healthcare in the non profit sector and in public companies such as the Prosecution, Counsel, County Councils and local authorities. This book is particularly aimed at professionals who are involved in the change process within process driven organizations. Anyone wishing to familiarize themselves with process centred thinking will be pleased to find that this book adopts an innovative yet practice proven approach. The SqEME Foundation is a platform for discussing the method and its application where insights into the basic assumptions and backgrounds are shared. www.sqeme.org ITIL® 4 Foundation Matériel de Cours -
