Handful Dust David Campany:

A Handful of Dust: Images David Campany, 2017 A Handful of Dust is David Campany's speculative history of the last century and a visual journey through some of its unlikeliest imagery Let's suppose the modern era begins in October of 1922 A little French avant garde journal publishes a photograph of a sheet of glass covered in dust The photographer is Man Ray the glass is by Marcel Duchamp At first they call it a view from an aeroplane Then they call it Dust Breeding It's abstract it's realist It's an artwork it's a document It's revolting and compelling The very same month a little English journal publishes TS Eliot s poem The Waste Land I will show you fear in a handful of dust And what if dust is really the key to the ensuing decades Why do we dislike it Is it cosmic We are stardust after all Is it domestic Inevitable and unruly dust is the enemy of the modern order its repressed other its nemesis But it has a story to tell from the other side The connections range far and wide from aerial reconnaisance and the American dustbowl to Mussolini's final car journey and the wars in Iraq A Handful of Dust features works by Man Ray John Divola Sophie Ristelhueber Mona Kuhn Xavier Ribas Nick Waplington Edward Ruscha Jeff Wall and many others alongside anonymous press photos postcards magazine spreads and movies Gallery website Handful of Dust David Campany, 2017 A Handful of Dust is David Campany's speculative history of the last century and a visual journey through some of its unlikeliest imagery Let's suppose the modern era begins in October of 1922 A little French avant garde journal publishes a photograph of a sheet of glass covered in dust The photographer is Man Ray the glass is by Marcel Duchamp At first they call it a view from an aeroplane Then they call it Dust Breeding It's abstract it's realist It's an artwork it s a document It's revolting and compelling The very same month a little English journal publishes TS Eliot's poem The Waste Land I will show you fear in a handful of dust And what if dust is really the key to the ensuing decades Why do we dislike it Is it cosmic We are stardust after all Is it domestic Inevitable and unruly dust is the enemy of the modern order its repressed other its nemesis But it has a story to tell from the other side The connections range far and wide from aerial reconnaisance and the American dustbowl to Mussolini s final car journey and the wars in Iraq A Handful of Dust features works by Man Ray John Divola Sophie Ristelhueber Mona Kuhn Xavier Ribas Nick Waplington Edward Ruscha Jeff Wall and many others alongside anonymous press photos postcards magazine spreads and movies Gallery website Visual Culture and the Forensic David Houston Jones, 2022-03-10 David Houston Jones builds a bridge between practices conventionally understood as forensic such as crime scene investigation and the broader field of activity which the forensic now designates for example in performance and installation art as well as photography Contemporary work in these areas responds both to forensic evidence including crime scene photography and to some of the assumptions underpinning its consumption It asks how we look and in whose name foregrounding and scrutinising the enduring presence of voyeurism in visual media and instituting new forms of ethical engagement Such work responds to the object oriented culture associated with the forensic and offers a reassessment of the relationship of human voice and material evidence It displays an enduring debt to the

discursive model of testimony which has so far been insufficiently recognised and which forms the basis for a new ethical understanding of the forensic Jones s analysis brings this methodology to bear upon a strand of contemporary visual activity that has the power to significantly redefine our understandings of the production analysis and deployment of evidence Artists examined include Forensic Architecture Simon Norfolk Melanie Pullen Angela Strassheim John Gerrard Julian Charri re Trevor Paglen Laura Poitras and Sophie Ristelhueber The book will be of interest to scholars working in art history visual culture literary studies modern languages photography and critical theory The New Public Art Mara Polgovsky Ezcurra, 2023-09-12 Essays on the rise of community focused art projects and anti monuments in Mexico since the 1980s Mexico has long been lauded and studied for its post revolutionary public art but recent artistic practices have raised questions about how public art is created and for whom it is intended In The New Public Art Mara Polgovsky Ezcurra together with a number of scholars artists and activists looks at the rise of community focused art projects from collective cinema to off stage dance and theatre and the creation of anti monuments that have redefined what public art is and how people have engaged with it across the country since the 1980s The New Public Art investigates the reemergence of collective practices in response to privatization individualism and alienating violence Focusing on the intersection of art politics and notions of public participation and belonging contributors argue that a new non state led understanding of the public came into being in Mexico between the mid 1980s and the late 2010s During this period community based public art bore witness to the human costs of abuses of state and economic power while proposing alternative forms of artistic creation **Jeff Wall** David Campany, 2011-05-27 Examining a work that marked the emergence activism and cultural organization of photography as an art made for the gallery wall instead of the printed page Jeff Wall's Picture for Women 1979 marks the transition of photography as an art form from the printed page to the gallery wall Before this photographs from the orthodox photographic work of Walker Evans to the Conceptual photography of Dan Graham seemed intended for the page even when hung in a gallery In Picture for Women a woman looks outward as if at the viewer a camera occupies the center of the photograph the photographer stands on the right Modeled on Manet's famous painting Un bar aux Folies Berg re in which a barmaid seems to look directly out of the painting observed by a man on the right Picture for Women establishes its own art historical genealogy claiming its rightful position within the canon Wall's photograph is an ambitious attempt to relate the artistic and spectatorial demands of the late 1970s to a modernist pictorial art that had been too hastily rejected by Conceptualism In this illustrated study David Campany offers an account of Wall's move from a Conceptual approach to a reengagement with the idea of a singular as opposed to serial picture He shows that Wall's decision to present his work as a large scale back lit transparency together with his commitment to a singular image amounted to a radical departure He contrasts Wall's idea of the photograph as a tableau or picture inherited from the history of painting with the works of the Pictures Generation including Richard Prince Cindy Sherman and Jack Goldstein and argues that Picture for Women is

inseparable from the modern fate of the picture in general Голые мозги, кафельный прилавок Андрей Левкин,2020-04-12 XXI Bauhaus The Anthology of Babel Ed Simon, 2020-01-21 Why should there only be literary scholarship about authors who actually lived and texts which exist Where are the articles on Enoch Campion Linus Withold Redondo Panza Darshan Singh or Heidi B Morton That none of these are real authors should be no impediment to interpreting their invented writings In the first collection of its kind The Anthology of Babel publishes academic articles by scholars on authors books and movements that are completely invented Blurring the lines between scholarship and creative writing The Anthology of Babel inaugurates a completely new literary genre perfectly attuned to the era we live in a project evocative of Jorge Louis Borges Umberto Eco and Italo Calvino Photography, Trace, and Trauma Margaret Iversen, 2017-02-27 Photography is often associated with the psychic effects of trauma the automatic nature of the process wide open camera lens and light sensitive film record chance details unnoticed by the photographer similar to what happens when a traumatic event bypasses consciousness and lodges deeply in the unconscious mind Photography Trace and Trauma takes a groundbreaking look at photographic art and works in other media that explore this important analogy Examining photography and film molds rubbings and more Margaret Iversen considers how these artistic processes can be understood as presenting or simulating a residue trace or index of a traumatic event These approaches which involve close physical contact or the short circuiting of artistic agency are favored by artists who wish to convey the disorienting effect and elusive character of trauma Informing the work of a number of contemporary artists including Tacita Dean Jasper Johns Mary Kelly Gabriel Orozco and Gerhard Richter the concept of the trace is shown to be vital for any account of the aesthetics of trauma it has left an indelible mark on the history of photography and art as a whole Photography and Collaboration Daniel Palmer, 2020-09-14 Photography and Collaboration offers a fresh perspective on existing debates in art photography and on the act of photography in general Unlike conventional accounts that celebrate individual photographers and their personal visions this book investigates the idea that authorship in photography is often more complex and multiple than we imagine involving not only various forms of partnership between photographers but also an astonishing array of relationships with photographed subjects and viewers Thematic chapters explore the increasing prevalence of collaborative approaches to photography among a broad range of international artists from conceptual practices in the 1960s to the most recent digital manifestations Positioning contemporary work in a broader historical and theoretical context the book reveals that collaboration is an overlooked but essential dimension of the medium s development and potential Crime Scenery in Postwar Film and Photography Henrik Gustafsson, 2019-05-24 This book offers a rare and innovative consideration of an enduring tendency in postwar art to explore places devoid of human agents in the wake of violent encounters To see the scenery together with the crime elicits a double interrogation not merely of a physical site but also of its formation as an aesthetic artefact and ultimately of our own acts of looking and imagining Closely engaging with a vast array of works made

by artists filmmakers and photographers each who has forged a distinct vantage point on the aftermath of crime and conflict the study selectively maps the afterlife of landscape in search of the political and ethical agency of the image By way of a thoroughly interdisciplinary approach Crime Scenery in Postwar Film and Photography brings landscape studies into close dialogue with contemporary theory by paying sustained attention to how the gesture of retracing past events facilitates new configurations of the present and future Cinemas Dark and Slow in Digital India Lalitha Gopalan, 2021-02-12 This book provides a sustained engagement with contemporary Indian feature films from outside the mainstream including Aaranaya Kaandam I D Kaul Chauthi Koot Cosmic Sex and Gaali Beeja to undercut the dominance of Bollywood focused film studies Gopalan assembles films from Bangalore Chennai Delhi Kolkata and Trivandrum in addition to independent productions in Bombay cinema as a way of privileging understudied works that deserve critical attention The book uses close readings of films and a deep investigation of film style to draw attention to the advent of digital technologies while remaining fully cognizant of the digital as a cryptic formulation for considering the sea change in the global circulation of film and finance This dual focus on both the techno material conditions of Indian cinema and the film narrative offers a fulsome picture of changing narratives and shifting genres and styles Photography and the Contemporary Cultural Condition Peter D. Osborne, 2018-06-28 In this book Osborne demonstrates why and how photography as photography has survived and flourished since the rise of digital processes when many anticipated its dissolution into a generalised system of audio visual representations or its collapse under the relentless overload of digital imagery He examines how photography embodies contributes to and even in effect critiques how the contemporary social world is now imagined how it is made present and how the concept and the experience of the Present itself is produced Osborne bases his discussions primarily in cultural studies and visual cultural studies Through an analysis of different kinds of photographic work in distinct contexts he demonstrates how aspects of photography that once appeared to make it vulnerable to redundancy turn out to be the basis of its survival and have been utilised by much important photographic work of the last three decades **Unorthodox Wavs to Think the City** Teresa Stoppani, 2018-12-07 This book argues that architecture and the city and their processes can be better understood by drawing categories from disciplines that exceed the architectural and urban cultural context It performs an open intellectual reading that traverses architecture and architectural theory but also art theory and history cartography philosophy literature and cultural studies to unfold a series of figures that are ambiguously placed between the representation and the construction of space in architecture and the city The paradigm and philosophy the island and the city the map and representation the model and making and the questioning of form performed by dust are explored beyond their definition as processes that differently make space between architecture and the city and are proposed as unorthodox analytic techniques to decipher contemporary spatial complexity The book analyses how these figures have been employed at different times and in different creative disciplines beyond architecture and in relation to changing notions of space and

traces the role that they have played in the shift towards the dynamic that has taken place in contemporary theory and design research What emerges is the idea of an architecture of the city that is not only physical but is largely defined by the way in which its physical spaces are regulated lived and perceived but also imagined and projected Law's Documents Katherine Biber, Trish Luker, Priya Vaughan, 2021-12-29 Illuminating their breadth and diversity this book presents a comprehensive and multidisciplinary view of legal documents and their manifold forms uses materialities and meanings In 1951 Suzanne Briet a librarian at the Bibliotheque Nationale in Paris famously said that an antelope in a zoo could be a document thereby radically changing the way documents were analysed and understood In the fifty years since this pronouncement the digital age has introduced a potentially limitless range of digital and technological forms for the capture and storage of information In their multiplicity and their ubiquity documents pervade our everyday life However the material intellectual aesthetic and political dimensions and effects of documents remain difficult to pin down Taking a multidisciplinary and international approach this collection tackles the question what is a legal document in order to explore the material aesthetic and intellectual attributes of legal documentation the political and colonial orders reflected and embedded in documents and the legal archival and social systems which order and utilise information As well as scholars in law documentary theory history Indigenous studies art history and design theory and practice this book will also appeal to those working in libraries archives galleries and museums for whom the ongoing challenges of documentation in the digital age are urgent and timely questions **A Handful of Dust** Le BAL (Paris),2017 So Present, So Invisible David Campany, 2018 Photography is the easiest thing to talk about and for that reason it can be the most difficult **Partenheimer** David Campany, 2021-01-01 Wir leben nicht nur in Zeiten rasenden aufregenden Wandels wir leben auch mitten in den Zeiten des Anthropoz n Umwelt und Klima ver ndern sich im Zuge des vom Menschen betriebenen Turbokapitalismus Der enge Zusammenhang und das zunehmende Ungleichgewicht zwischen Mensch und Erde wird in Benedikt Partenheimers Werken sinnlich wie inhaltlich nachvollziehbar Fotografien von faszinierender wie bedr ckender Eleganz zeigen kologische und kulturelle Transformationsprozesse Was diese Aufnahmen so bestechend erscheinen l sst ist die menschliche Einflussgr e malerischer Dunst von Luftverschmutzung ber Stadtpanoramen Berge spiegeln sich ambivalent in geschmolzenem Gletscherwasser Der Preis der Sch nheit ist jedem Bild eingeschrieben Das macht Partenheimers Werk sthetisch spannend aber vor allem auch existenziell wichtig und politisch brisant **The Open Road** David Campany, 2014 After the end of World War II the American road trip began appearing prominently in literature music movies and photography Many photographers embarked on trips across the U S in order to create work including Robert Frank whose seminal 1955 road trip resulted in The Americans However he was preceded by Edward Weston who traveled across the country taking pictures to illustrate Walt Whitman's Leaves of Grass Henri Cartier Bresson whose 1947 trip through the American South and into the West was published in the early 1950s in Harper's Bazaar and Ed Ruscha whose road trips
