Sticking Points Haydn Shaw, 2013-07-22 This is the first time in American history that we have had four different generations working side by side in the workplace: the Traditionalists born before 1945, the Baby Boomers born 1945-1964, Gen X born 1965-1980, and the Millennials born 1981-2001. Haydn Shaw, popular

business speaker and generational expert has identified 12 places where the 4 generations typically come apart in the workplace and in life as well These sticking points revolve around differing attitudes toward managing one's own time, texting, social media, organizational structure and of course clothing preferences If we don't learn to work together and stick together around these 12 sticking points then we'll be wasting a lot of time fighting each other instead of enjoying a friendly and productive team Sticking Points is a must read book that will help you understand the generational differences you encounter while teaching how we can learn to speak one another's language and get better results together **Franchise**

Re-organising Service Work Karen A. Shire, Ursula Holtgrewe, Christian Kerst, 2017-09-29 This title was first published in 2002 Call centres are a type of service work that stand at the interface between corporations and consumers They exemplify more general tendencies present within service work They also have a particular public image being associated in the public mind with low skilled and regimented work This volume presents contributions from British and German management academics and industrial sociologists based on primary research on call centres in both countries The contributions cover the genesis and development of call centres as a new form of organization or indeed a new industry the rationalization and control strategies of organizations that establish call centres and the nature of service work and service interactions The findings of this volume challenge the common public image of call centres and finds that call centre employment is in fact very diverse So for example skilled advising and consulting services are often performed over the phone Along with the sometimes skilled nature of call centre work work organization and working conditions vary as well The text also seeks to contrast the British and German experience of call centre work and employment In Germany clerical work has traditionally been embedded in the specific traditions of co-operative industrial relations that define the German model Call centres present a strategic challenge to this model and the expansion of call centres has been at the forefront of changes aimed at making employment more flexible in Germany This work offers a choice of country cases which permit a comparison of service employment within both a liberal capitalist and a socially embedded economy Who's who Among Students in American Universities and Colleges Henry Pettus Randall, 1982 **Identity at Work** John Chandler, 2016-09-13 This insightful book draws on a range of contemporary and classic studies to explore the connection between the personal

50 percent now enter higher education at some time in their lives Higher education is therefore very important to national economies both as a significant industry in its own right and as a source of trained and educated personnel for the rest of the economy It follows that there are enormous stakes involved for a particular country even though the payoff of serious reforms may take decades and thus be counterproductive to the political forces responsible for designing and implementing such reforms since their horizons tend to be very short This new book tackles important issues in this dynamic field
