La Europa Cosmopolita La Europa Cosmopolita:

La Europa cosmopolita Ulrich Beck, Edgar Grande, 2006 Ni la euforia ni el escepticismo en relación con una nueva Europa ampliada pueden hacernos olvidar que Europa todavía no ha sido verdaderamente comprendida entendida Esta forma históricamente rica y singular de crear una comunidad de sociedades y Estados distintos se sustrae a todas las categorías y conceptos al uso El ejemplo de Europa muestra con especial claridad hasta qué punto nuestros conceptos políticos y el instrumental teórico de las ciencias sociales se han vuelto inapropiados y ajenos a la realidad hasta qué punto siguen encerrados en el marco teórico de un nacionalismo metodológico Este libro se integra en un proyecto más amplio de Ulrich Beck siendo la última parte de una trilogía sobre el realismo cosmopolita En el primer libro de la trilogía Poder y contrapoder en la era global Ulrich Beck se interroga sobre la legitimidad del poder en la situación de interdependencia global El segundo libro La mirada cosmopolita o la guerra es la paz establece los fundamentos de una ilustración cosmopolita La Europa cosmopolita este tercer y último libro escrito junto con Edgar Grande arroja luz sobre la Europa desconocida en la que vivimos Del prólogo de los autores **Los mediterráneos** Abdul Filali Ansari, Los que se van Juan Carlos Chebez, Claudio Bertonatti, 1994 **El continente vacío** Eduardo Subirats, 1994-01-01 Un joven filósofo español aborda sin prejuicios nacionales apologeticos el vasto acontecimiento de la conquista y colonización en América Con un bagaje bibliográfico impresionante tanto de la época de los cronistas como de los ensayistas e historiadores contemporáneos Subirats inicia de hecho una nueva historiografía española sobre América *Central and Eastern Europe After Transition* Wojciech Sadurski, 2016-04-08 How have national identities changed developed and reacted in the wake of transition from communism to democracy in Central and Eastern Europe Central and Eastern Europe After Transition defines and examines new autonomous differences adopted at the state and the supranational level in the post transitional phase of the post Communist area and considers their impact on constitutions democracy and legal culture With representative contributions from older and newer EU members the book provides a broad set of cultural points for reference Its comparative and interdisciplinary approach includes a useful selection of bibliographical resources specifically devoted to the Central Eastern European countries transitions **Estudios de Derecho español y europeo** VV.AA., 2009 Para conmemorar los veinticinco años de la creación de la Facultad de Derecho se reunieron los docentes que en ella han impartido clase para elaborar esta obra colectiva no sólo referente doctrinal sino un auténtico símbolo del trabajo universitario desde las distintas perspectivas que el Derecho ofrece **La lucidez confrontada** Jorge Brioso, Jesús M. Díaz Álvarez, 2024-04-11 Jos Ferrater Mora sostiene que la filosofía de Ortega y Gasset era una alta y robusta cordillera que el pensamiento hecho en español no podía eludir Frente a ella cabían variadas posibilidades cruzarla en diversas direcciones aproximarse más o menos e incluso alejarse completamente Lo que resultaba poco recomendable era ignorarla porque el precio a pagar sería el extravío en el propio paisaje cultural Teniendo presente tal consejo los autores de este libro hemos querido abordar la filosofía política del

pensador español de un modo peculiar a saber espigando no solo lo que entendemos como sus tesis fundamentales sino leyéndola en contrapunto con otros autores teorías y problemas que permiten mostrar su relevancia en el mundo actual Quien se adentre en estas páginas atravesará las complicadas relaciones del intelectual y la política la visión orteguiana de la guerra sus críticas al pacifismo la comprensión del fenómeno totalitario que entiende por libertad o los claroscuros del liberalismo entre otros También asistir a debates reales e imaginarios de Ortega con Edmund Husserl Max Scheler Carl Schmitt Julián Marías José Gaos Antonio Rodríguez Huascar Richard Rorty Isaiah Berlin John Gray o Giorgio Agamben

The European Union and Supranational Political Economy Riccardo Fiorentini, Guido Montani, 2014-12-05 The financial crisis originated in 2008 in the United States had a dramatic impact on the world economy The European Union was immediately involved but its reaction to the crisis was clearly inadequate The misgovernment of the European economy not only put at risk the European Monetary Union but it also caused further hindrances to the recovery of the global economy The global financial turmoil shook deep rooted beliefs The doctrine of international neo liberalism is more and more criticized Nevertheless the critics of neo liberalism focus their attention on the relationship between the state and the market as if the nation states with their international organisations have enough power for an effective global governance of the world economy The model of European supranational integration though seriously imperfect can suggest some new way out from the crisis even at the world level based on a new relationship between the supranational government of the Union and the market In this book several academic disciplines are involved international economics international political economy international law international relations political theory and democratic theory Adopting such a multidisciplinary theoretical perspective the volume tries to answer the following question Is a more supranational Europe able to provide a better government of the EMU Does this reform involve more European democracy

Crime: belief and reality Juarez Tavares, 2022-06-09 The crime not rarely is presented as the epicenter of society Correlated to the decline of the democratic and republican values and principles we witness a sort of institutional immersion in the criminal matters everything is criminalized from politics to insignificant facts The criminalization processes are also used to control the undesirable on the eyes of those that detain the political and economic power The fear is manipulated the feeling of insecurity increases and the criminal law is transformed in magical answers to social problems In the last decades the majority of the society has become hostage of the narratives about the crime The result was the increase of repression severe criminal legislations and punitive judges Juarez Tavares one of the most important Brazilian intellectuals presents in this book a precise diagnosis of the criminal matter revealing the damages caused by the official speeches At the same time he indicates an emancipatory perspective in the opposite direction of the criminal populism and of the blind faith on punishment Through a transdisciplinary approach Tavares reminds that crime is merely a juridical concept an instrument at service of the power and that nothing justifies the defense of foolishness under the pretense of combating crimes Against the common sense and the odes to the punishment Crime belief and reality

presents a necessary analysis of the requirements that nurture the taste for punishment and the naturalization of the criminalization processes It is a bold invite to rethink the place of the crime in the contemporary world Varieties of Liberalism Jan Harald Alnes, Manuel Toscano, 2014-06-12 The contemporary world is complex and is characterized by new normative challenges with regards to living conditions and political organization both within the borders of sovereign states and globally Such challenges require interdisciplinary analyses of a number of intertwined subjects Varieties of Liberalism Contemporary Challenges presents an important contribution to this pressing task Relying on the cooperation of UiT The Arctic University of Norway research group Pluralism Democracy and Justice and the Civic Constellation project from Spain s National Research Fund the book is the outgrowth of the conference Themes in Contemporary Ethics and Political Philosophy held in Troms in August 2012 An international array of scholars from universities in Brazil France Norway and Spain are brought together here and combine normative reflections conceptual analysis case studies and historical accounts Philosophical liberalism provides the dominant perspective in contemporary political and social philosophy and the majority of the authors take one version or another as their starting point bringing together various different critical perspectives Since it is crucial to sort out what an embracing of liberalism means and what a criticism of liberalism is directed at the introduction of the book situates the chapters in relation to the disparate uses of liberalism The sixteen chapters are distributed into three parts namely Free Speech and Deliberation Citizenship and Democracy and Justice Borders and International Law Of interest to a wide interdisciplinary readership Varieties of Liberalism responds to questions such as Do contemporary democracies live up to their own ideals How do these democracies cope with the issues of free speech religious diversity migration indigenous communities and the scientific and technological development How ought civic education to be regulated in pluralist democracies Who are the rightful owners of common goods As is evident from this representative list the book addresses both the intellectual and the practical challenges of contemporary liberalism

Genealogía del monoteísmo Abdennur Prado, 2020-07-20 La religión no es un universal sino una clave en la conceptualización del mundo por parte de la intelectualidad occidental la cual se ha otorgado a sí misma el derecho de definir a los otros según categorías que favorezcan la dominación proyectando sobre el mundo las fracturas propias de la episteme moderna Modernidad tradición progreso atraso religión secularismo A partir de esta constatación el presente ensayo se centra en los usos del monoteísmo ejercidos por importantes pensadores europeos desde Hume hasta Sloterdijk mismos que han llevado a consolidar como obvia la presentación del islam dentro de las religiones semitas y como si fuese un monoteísmo estricto Una vez realizado el trabajo de deconstrucción se plantea la necesidad de considerar al islam desde sus propios presupuestos ideas fuerza y metáforas fundamentales Es así como el autor desarrolla una crítica genealógica a la disciplina

académica de la ciencia de las religiones y a sus categorías fundamentales mostrando sus conexiones con el proyecto colonial. Nos encontramos ante un texto que revela la pervivencia de la dimensión humanista humanitaria del colonialismo y su conexión con el cristocentrismo la misión evangelizadora de todos los pueblos de la Tierra presente hoy bajo la máscara del secularismo.

Pensar el siglo XX Tony Judt, 2012-12-30 La obra postuma de Tony Judt un recorrido impecable por la historia intelectual del siglo pasado. El siglo XX se erige como la edad de las ideas un tiempo en el que para bien o para mal el pensamiento de unos pocos se impuso sobre las vidas de muchos. De una claridad y lucidez sin precedentes el último libro de Tony Judt uno de los más incisivos historiadores contemporáneos está destinado a convertirse en un clásico del pensamiento moderno. Pensar el siglo XX es a la vez un libro de historia una biografía y un tratado de ética. Es una historia de las ideas políticas modernas en Occidente. Pero es también la biografía intelectual de Judt nacido en Londres justo después del cataclismo que supusieron la Segunda Guerra Mundial y el Holocausto cuando el comunismo afianzaba su poder en Europa del Este. La excepcional naturaleza de esta obra se revela en su propia estructura una serie de conversaciones íntimas con su amigo el historiador Timothy Snyder en las que Judt con asombrosa elocuencia y erudición rescata a los pensadores que han dado forma al mundo en que vivimos presentando sus triunfos y fracasos. Es por último una reflexión sobre la necesidad de la perspectiva histórica y de las consideraciones morales en la transformación de nuestra sociedad. Al recuperar lo mejor de la vida intelectual del siglo XX abre el camino a una moral para el siglo XXI. Este es un libro sobre el pasado pero es también un libro sobre la clase de futuro al que deberíamos aspirar. La crítica ha dicho. El último libro de Tony Judt es una admirable valoración de los intelectuales y de la política del siglo pasado. De una elocuencia brillante y aparentemente recordando cada uno de los libros que han leído los dos historiadores encuentran siempre algo destacado y original que decir sobre casi todo. The Guardian. En parte autobiografía en parte cascada de ideas en parte crítica de nuestra actual manera de vivir aprender y trabajar. Pensar el siglo XX causa un tremendo impacto. Si su inteligencia formidable su erudición obtuvo el doctorado en historia social a los 24 y su cosmopolitismo además de su nativo inglés sabía francés hebreo alemán y checo son extraordinarios como se puede describir el valor y el ingenio que le permitieron mientras sufría una devastadora esclerosis amiotrófica componer un libro de memorias. El refugio de la memoria una apasionada defensa de valores. Algo va mal y este libro que ahora recomendamos The Globe and Mail. Una obra sin duda interesante pero además necesaria en estos tiempos en los que si algo necesita el lector el ciudadano inquieto es reflexión interpretación y respuestas. Judt consigue estimular al lector la capacidad de seguir el hilo de la Historia. Resulta estimulante seguir a Judt y Snyder en este viaje un esclarecedor mosaico que ofrece distancia la distancia necesaria para comprender El Mundo. Gracias a esta iniciativa que partió de Snyder Judt nos deja un libro postumo que no sólo puede considerarse un magnífico epílogo a su obra por su lucidez y originalidad está destinado a convertirse en referente del pensamiento sobre la pasada centuria. El libro aporta una visión amena y original del siglo pasado. ABC Cultural. Si uno quisiera recomendar un libro que resumiera y analizara críticamente las principales ideas políticas del

siglo XX y que fuera al mismo tiempo una apasionante biografía de un intelectual formado a ambos lados del Atlántico la elección caerá sin duda sobre el titulado Pensar el siglo XX obra postuma del británico Tony Judt Faro de Vigo *Legitimidad y acción política* Norbert Bilbeny, 2018-09-26 El siglo XXI ha abierto escenarios en los que la cuestión de lo legítimo y su encaje en la ley han vuelto a plantearse con insospechada fuerza La legitimidad se enfrenta hoy a la legalidad y a los rdenes establecidos suscitando un intenso debate en torno a sus frentes de acción desde la lucha por el reconocimiento y la titularidad del poder hasta la aparición de nuevos sujetos políticos la gobernanza y las relaciones transnacionales En todos estos frentes la legitimidad nos transporta a un plano radical de manera que la pregunta por lo legítimo en la esfera pública exige una respuesta contundente y comprometida sin medias tintas En la presente obra diferentes especialistas de la teoría social y política abordan la complejidad de este principio de la vida pública cada vez más recurrente y activo en un mundo necesitado de análisis riguroso y opinión con acento crítico La disolución de la soberanía en el ámbito estatal Manuel Fondevila Marón, 2018-04-09 El libro se divide en dos partes En la primera se ofrece una exégesis histórica de los conceptos de soberanía y legitimidad política en el marco en el que hasta ahora se han venido desarrollando el Estado El objetivo es sentar las bases para aplicar estos conceptos clásicos del constitucionalismo democrático y social en una crítica de la Unión Europea actualmente existente Las tesis fundamentales que mantenemos es que la esencia de la soberanía popular está en preservar en última instancia el derecho del Pueblo a la revolución para garantizar así que pueda vivir de acuerdo a su espíritu general Montesquieu y que aunque es jurídicamente legítimo y políticamente incluso recomendable ceder a instancias supranacionales el ejercicio de competencias estatales porque además estas surgieron precisamente para garantizar el ejercicio efectivo de la soberanía estatal pues a veces los Estados aislados resultaban demasiado pequeños para ello la deriva que ha tomado la globalización especialmente por lo que respecta a la reducción de los espacios políticos que supone el alejamiento de los ciudadanos de la toma de decisiones cada vez más importantes para su vida cotidiana supone una quiebra del principio democrático En la segunda parte se diserta acerca del modo y manera en que la Unión Europea garantiza el ejercicio de la soberanía popular y por lo tanto qué legitimidad política puede arrogarse Desde planteamientos postmodernos y kelsenianos la soberanía popular no se garantiza correctamente porque de hecho se rechaza la idea de soberanía o lo que es lo mismo se le niega su fundamento esencial de indivisibilidad y se propone sustituirla por el de competencia de la competencia de manera que el Pueblo como sujeto soberano que tiene siempre el derecho a decidir los modos y formas en las que quiere ser gobernado queda difuminado Por lo que respecta a la legitimidad desde la distinción clásica entre legitimidad democrática de origen y legitimidad por eficacia de ejercicio la idea principal es que la Unión Europea ha llegado al límite de las posibilidades de crecimiento desde parámetros funcionalistas por lo que la disyuntiva para que el déficit democrático que arrastra de origen no afecte también a la legitimidad por ejercicio de la que hasta ahora gozaba pasa por o bien racionalizar y limitar sus competencias y campo de acción a lo que es propio de una unión de Estados de Derecho Internacional o bien

resulta necesario mediante la apertura a nivel europeo de un proceso constituyente dotarla de una Constitución verdaderamente democrática que refleje la voluntad de un nuevo demos europeo en constituirse como Estado

Europe and Empire Massimo Cacciari, 2016-01-04 The European Union and the single currency have given Europe more stability than it has known in the past thousand years yet Europe seems to be in perpetual crisis about its global role The many European empires are now reduced to a multiplicity of ethnicities traditions and civilizations Europe will never be One but to survive as a union it will have to become a federation of islands both distinct and connected Though drawing on philosophers of Europe's past Cacciari calls not to resist Europe's sunset but to embrace it Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy Though scarcely alive in today's politics the political unity of Europe is still a necessity however impossible it seems to achieve

El mundo es una idea Xavier Batalla, 2016-11-15 Todos los ordenes mundiales han sido creados mediante la guerra Detrás de esta premisa tan aparentemente sencilla como contundente se esconde otra verdad reveladora para entender el mundo tal y como hoy lo conocemos no solo debemos observar los hechos que se producen sino que debemos desentrañar las ideas que los impulsan Para analizar la actualidad y el pasado reciente es fundamental trascender los acontecimientos y desvelar qué motivaciones originan las grandes decisiones de los gobernantes y las naciones Ese es el principio que vertebra este caleidoscópico libro En cada una de las páginas de El mundo es una idea surgen claves absolutamente necesarias para entender la compleja realidad de la política internacional en todos y cada uno de sus frentes Gracias a sus certeros análisis Xavier Batalla logra sintetizar en esta obra las directrices que rigen el mundo en que vivimos
