La Fotografía Digital Con Scott Kelby Photoclub:

La fotografía digital Scott Kelby, 2007-10-29 La fotografía digital es una disciplina practicada cada vez por más gente. Hacer fotografías no tiene nada que ver con hacer buenas fotografías. Lo más importante no es tener una cámara buena y muy cara sino tener una buena técnica. En este libro el más vendido en EEUU encontrar todo lo que necesita saber para exprimir la fotografía digital. Aprender no sólo a disparar la cámara sino a llevar a cabo todos los procesos previos: elección de la luz, el enfoque, la velocidad o la lente entre otros muchos factores como un auténtico profesional. Ver un montón de trucos divertidos y descubrir cómo adaptar las técnicas fotográficas a las distintas situaciones: bodas, paisajes, animales, niños, fotos panorámicas, retratos, deportes, fotos nocturnas.

El Libro de la Fotografía Digital Scott Kelby, 2012-12-18 Scott Kelby, el hombre que revolucionó el cuarto oscuro digital con *Manipula tus fotografías digitales con Photoshop*, el libro pionero más premiado y vendido de todos, nos invita nuevamente a incursionar en la fotografía digital al develarnos los secretos de los fotógrafos profesionales. Más conocidos y al sacar fotografías de alta calidad es más fácil de lo que se piensa. He aquí la brillante premisa de este libro en palabras del propio Scott: Imagínate que estamos tomando fotos juntos y de repente me dices: "Oye, ¿cómo le hago para que la flor quede bien enfocada pero el fondo fuera de foco?" No me pondrás a darte toda una cátedra de fotografía. En esa circunstancia simplemente te diré: "Coloca tu teleobjetivo, zoom, ajústalo a una apertura de f/2.8, enfoca la flor y dispara." De eso se trata este libro: tú y yo tomando fotos y yo contestando a todas tus preguntas dándote consejos y compartiendo contigo todos los secretos que he aprendido tal y como lo haré con un buen amigo: evitándote además el lastre de los tecnicismos. Este no es un libro de teoría repleto de palabras técnicas y confusas y de conceptos complicados. Este libro te indicará qué botón apretar, qué configuración usar y cuándo. Con cerca de 200 de los trucos más preciados del gremio fotográfico, este libro te ayudará a mejorar dramáticamente tus fotografías haciéndolas más naturales, más coloridas y mucho más profesionales. En cada página se desarrolla un concepto que te ayudará a mejorar la calidad de tus fotos. A cada vuelta de página te encontrarás con otra configuración, mecanismo o truco de profesional que convertirá tus instantáneas en fotografías dignas de una galería. Si estás harto de sacar fotos que sólo se ven más o menos bien y nunca como las que aparecen en las revistas de fotografía, entonces este es el libro que necesitas. Scott Kelby, the man who changed the digital darkroom forever with his groundbreaking 1 bestselling award winning book *The Photoshop Book for Digital Photographers* now tackles the most important side of digital photography: how to take professional quality shots using the same tricks today's top digital pros use and it's easier than you'd think. Here's how Scott describes this book's brilliant premise: "If you and I were out on a shoot and you asked me, 'Hey, how do I get this flower to be in focus but I want the background out of focus?' I wouldn't stand there and give you a photography lecture. In real life I'd just say, 'Put on your zoom lens, set your f-stop to f/2.8, focus on the flower and fire away.' That's what this book is all about: you and I out shooting, where I answer questions, give you advice and share the secrets I've learned just like I would with a friend without all the technical explanations and techie photo speak. This isn't a

book of theory full of confusing jargon and detailed concepts This is a book on which button to push which setting to use and when to use it With nearly 200 of the most closely guarded photographic tricks of the trade this book gets you shooting dramatically better looking sharper more colorful more professional looking photos every time Each page covers a single concept that makes your photography better Every time you turn the page you ll learn another pro setting tool or trick to transform your work from snapshots into gallery prints If you re tired of taking shots that look okay and if you re tired of looking in photography magazines and thinking Why don t my shots look like that then this is the book for you La
fotografía digital con Scott Kelby 5 , *How to Create Stunning Digital Photography* Tony Northrup,2012 *Scott Kelby's Digital Photography Boxed Set, Parts 1, 2, 3, and 4* Scott Kelby,2012-04-26 With over 800 of the most closely guarded photographic tricks of the trade this boxed set consisting of all four parts of Scott Kelby s best selling series The Digital Photography Book is the ultimate resource for any one who wants to shoot dramatically better looking sharper more colorful more professional looking photos every time Scott Kelby the man who changed the digital darkroom forever with his groundbreaking best selling The Photoshop Book for Digital Photographers now tackles the most important side of digital photography how to take professional quality shots using the same tricks today s top digital pros use and it s easier than you think These aren t books of theory full of confusing jargon and detailed concepts These are books on which button to push which setting to use and when to use it Each page covers a single concept on how to make your photography better Every time you turn the page you ll learn another pro setting tool or trick to transform your work from snapshots into gallery prints If you re tired of shots that look okay and if you re tired of looking in photography magazines and thinking Why don t my shots look like that then these are the books for you *Scott Kelby's Digital Photography Books, Volumes 1, 2, and 3* Scott Kelby,2009-09-23 Includes The Digital Photography Book The Digital Photography Book Volume 2 The Digital Photography Book Volume 3 Scott Kelby the man who changed the digital darkroom forever with his groundbreaking 1 bestselling award winning book The Photoshop Book for Digital Photographers shows which button to push which setting to use when to use them and hundreds of the most closely guarded photographic tricks of the trade to get budding photographers shooting dramatically better looking sharper more colorful more professional looking photos with their digital camera every time they press the shutter button Scott tackles the most important side of digital photography how to take pro quality shots using the same tricks today s top digital pros use and it s easier than you d think Each chapter is packed with plain English tips on using flash shooting close up photography travel photography shooting people and even how to build a studio from scratch where he demystifies the process so anyone can start taking pro quality portraits today Plus he s got full chapters on his most requested topics including loads of tips for landscape photographers wedding photographers and there s an entire chapter devoted to sharing some of the pro s secrets for making your photos look more professional no matter what you re shooting
The Digital Photography Book, Part 4 Scott Kelby,2012-02-27 Scott Kelby author of The Digital Photography Book the

best selling digital photography book of all time is back with another follow up to his smash best seller with an entirely new book that picks up right where volume 3 left off It s even more of that Ah ha so that s how they do it straight to the point skip the techno jargon stuff people can really use today and that made volume 1 the world s best selling book on digital photography This book truly has a brilliant premise and here s how Scott describes it If you and I were out on a shoot and you asked me Hey Scott I want the light for this portrait to look really soft and flattering How far back should I put this softbox I wouldn t give you a lecture about lighting ratios or flash modifiers In real life I d just turn to you and say Move it in as close to your subject as you possibly can without it actually showing up in the shot Well that s what this book is all about you and I out shooting where I answer questions give you advice and share the secrets I ve learned just like I would with a friend without all the technical explanations and techie photo speak Each page covers a single concept on how to make your photography better Every time you turn the page you ll learn another pro setting tool or trick to transform your work from snapshots into gallery prints If you re tired of taking shots that look okay and if you re tired of looking in photography magazines and thinking Why don t my shots look like that then this is the book for you This isn t a book of theory full of confusing jargon and detailed concepts This is a book on which button to push which setting to use and when to use it With another 200 of the most closely guarded photographic tricks of the trade this book gets you shooting dramatically better looking sharper more colorful more professional looking photos every time
