La Cultura Católica Anibal Ernesto Fosbery O.P., **Otherness in Hispanic Culture** Teresa Fernandez Ulloa, 2014-06-26 This book addresses contemporary discourses on a wide variety of topics related to the ideological and epistemological changes of the 19th 20th and 21st centuries and the ways in which they have shaped the Spanish language and cultural manifestations in both Spain and Hispanic America The majority of the chapters are concerned with otherness in its various dimensions the alien Other foreign immigrant ethnically different disempowered female or minor as well as the Other of different sexual orientation and or ideology Following Octavio Paz otherness is expressed as the attempt to find the lost object of desire the frustrating endeavour of the androgynous Plato wishing to embrace the other half of Zeus who in his wrath tore off from him Otherness compels human beings to search for the complement from which they were severed Thus a male joins a female his other half the only half that not only fills him but which allows him to return to the unity and reconciliation which is restored in its own perfection formerly altered by divine will As a result of this transformation one can annul the distance that keeps us away from that which not being our own turns into a source of anguish The clashing diversity of all things requires the human predisposition to accept that which is different Such a predisposition is an expression of epistemological ethical and political aperture The disposition to co exist with the different is imagined in the de anthropocentricization of the bonds with all living realms And otherness is in some way the reflection of sameness mismidad The other is closely related to the self because the vision of the other implies a reflection about the self it implies consciously or not a relationship with the self These topics are addressed in this book from an interdisciplinary perspective encompassing arts humanities and social sciences

Terrifying Europe. History and Memory of Terrorism in European Identity Pérez Baquero, Rafael, Cayuela Sánchez, Salvador, 2024-06-01 As different historians have outlined memories and identities stemming from the dreadful events unfolded in Europe during the 20th century are deeply connected with the ways

in which traumatic and violent pasts are remembered commemorated and mourned as the years go by Collective and national identities during the second half of the last century have been constructed upon the remembrance and depiction of victims within public sphere As a result the ways in which contemporary violence is framed through the different mediations and re meditations provided by cultural memory are key to understand the reconfiguration of contemporary European identities Undoubtedly the experience of terrorism in European soil is one of comes to the fore when dealing the remembrance of violence Regardless of the political nature and grounding of the different terrorist attacks which have shocked and undermined the feeling of security within Western societies the evolution of European identities is dependent on how such events are depicted and on how their victims are remembered and commemorated Echoing this situation Remembering Terror aims at offering a diverse set of perspectives focusing on different historical cases of remembering and commemorating terrorism in contemporary Europe Therefore each chapter included in this book is thus intended to provide a different approach to how a specific event in Europe related to terrorism has been reframed In this regard far from endorsing a particular perspective Remembering Terror is bound to offer a glimpse on the heterogeneous ways in which memory of terrorism has reshaped collective identities in Europe

Political Terrorism A.J. Jongman, 2017-07-28 While there is no easy way to define terrorism it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear demoralization and political friction in the population under attack At one time a marginal field of study in the social sciences terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of Political Terrorism was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against

Terror-ismo y Terror-ismo Luis Carlos Molina Acevedo, 2016-07-01 En el fen meno del terrorismo es

donde mejor se puede apreciar la irracionalidad en la era contemporánea. Mediante la lógica de la doble negación se fabrican constructos culturales con los cuales se justifica la violencia del terror. Mediante una lógica ambivalente se fabrican Disensos para subsumir los términos negativos de la cultura desde los términos considerados positivos. Estas representaciones simbólicas subjetivas se contraponen a los Consensos basados en una lógica bivalente en donde los términos de las relaciones simbólicas tienen el mismo peso significativo y no buscan subsumir los unos en los otros. Estas estructuras culturales se construyen desde representaciones simbólicas objetivas propias de la racionalidad. El problema de la crisis de la modernidad no radica en una insuficiencia de racionalidad sino en la irracionalidad dejada por fuera de la reflexión. Se requiere avanzar hacia un Consenso racionalidad irracionalidad para develar los Disensos de la irracionalidad racionalidad desde donde se origina la crisis de la modernidad. El terrorismo y el terrorismo son dos formas subjetivas de ver al terrorismo. Ambas formas son igualmente irracionales analizadas desde las estructuras del Disenso con las cuales se quiere ocultar sus manipulaciones simbólicas para aparecer como formas apropiadas de ejercer la violencia del terror. Una forma es considerada la versión oficial y por lo tanto positiva. La otra es considerada marginal y por lo tanto negativa. Pero las dos usan los mismos procedimientos simbólicos engañosos para justificarse.

El devenir de la lingüística y la cultura: un estudio interdisciplinar sobre lengua, literatura y traducción. Aitor Garcés Manzanera, Omar Salem Ould García, Salud Adelaida Flores Borjabad, 2022-06-06. Todo ser vivo necesita interactuar con el medio que lo rodea generando un tipo de información que lo lleva a crear un acto de comunicación. Así se desarrollan una serie de lenguajes que los llevan a comunicarse con la comunidad. Por ejemplo en el caso de los animales se puede observar cómo emiten diferentes sonidos para realizar cualquier tipo de acción o incluso para advertir de cualquier peligro a su alrededor. En el caso de los seres humanos desde nuestros orígenes hemos generado gestos y expresiones que varían de un lugar a otros, así como también hemos elaborado sistemas de comunicación basados en señales para poder comunicarnos. No obstante en el caso de los seres humanos todo esto va más allá en tanto que hemos sido capaces de desarrollar un sistema de comunicación verbal y escrito otorgándole convenciones que varían de un lugar a otro. Siguiendo esta línea nuestra forma de comunicación ha ido más allá de la simbología hasta tal punto de elaborar un sistema de símbolos sonoros y gráficos que se articulan de diferentes formas con el fin de elaborar un sistema complejo de estructuras que nos llevan a comentar nuestro presente, pasado y futuro, lo que se ha denominado lengua. Además de todo esto hay que tener en cuenta el factor geográfico puesto que no se puede hablar en exclusiva de una única lengua. En este contexto la lengua o las lenguas varían en función de los fenómenos socioculturales que la rodean, es decir, existe una relación intrínseca entre lengua, lenguaje y sociedad, teniendo en cuenta sus usos y el contexto en el que se desenvuelven.
