La Muerte Y La Ciudad:

Monuments of Progress Claudia Agostoni, 2003 A social and cultural history of public health in Mexico during the late 1800s and early 1900s The book offers a fresh take on the history of medicine and public health by shifting away from the history of epidemic disease and heroic accounts of medical men and toward looking at public health in a broader social framework It shows how new public health policies were instrumental in the modernisation of Mexico Adds to a small but fast growing body of literature on the history of public health in Latin America and other developing areas of the world
