, Annual Supplement to the Catalogue of the Library of Parliament in Alphabetical and Subject Order Canada. Library of Parliament, 1915 **International Relations in France** Henrik Breitenbauch, 2013-06-19 Why is the French International Relations IR discipline different from the transnational American discipline By analysing argument structures in research articles across time this book shows how the discipline in France is caught between the American character of the discipline and the French state as regulator of legitimate forms of expression Concretely French research arguments are less explicit about what their propositions are and what academic discussions they draw on and add to than their transnational American counterparts Based on a comparative case study of French and American IR research from 1950 to 2011 the book is a major contribution to the meta IR literature on global regional and national traditions of IR The challenge to the French discipline of whether and how to position itself in relation to the evolving American discipline is in many ways exemplary for other non American national IR disciplines and the choices as well as the structural conditions underlying the French case are relevant to all non Western disciplines The comparative analysis moreover reveals that the modern American discipline what is considered as recognisable social science takes shape only during the 1970s The book thus offers new knowledge about the discipline s international development as such Both case and methodology are interesting to larger audiences outside IR in the history and sociology of social science contrastive rhetoric as well as French and cultural studies The Europeanization of French Foreign Policy R. Wong, 2005-12-16 This study examines the record of French and EU interactions with China Japan and Vietnam in the areas of economic exchanges political security relations and human rights to establish if there has been a trend of converging European politics and collective European conceptions of interest and identity It argues that the utility and impact of EU institutions on French foreign policy behaviour is more significant than is commonly imagined or admitted and that foreign policies of EU member states tend over the long term towards convergence

French Banking and Entrepreneurialism in China and Hong Kong Hubert Bonin, 2019-06-07 Many books have addressed the economic and financial history of Hong Kong and the imperialist conflicts in the key Chinese port cities but very few books have explored French initiatives and performance in this area beyond diplomacy geopolitics or cultural issues In this book Hubert Bonin confronts arguments about the great divergence the first globalisation and forms of economic patriotism He gauges the competitive edge of French companies and banks their struggle with British domination HBSC Chartered shipping trade houses hongts and their resistance against competitors from other countries Japan Germany Netherlands Belgium USA or Russia The book delves into studies of management abroad therefore mixing broad geo economic issues with precise business history and deep banking history The connections between French interests in China and Hong Kong and the colony of Indochina are established too A second part of the book is dedicated to the case study of Hong Kong as the British colony acted as a hub for Asian and European interests at the heart of connections with mainland China and some

neighbouring territories Indochina etc This is essential reading for academics interested in banking and business history the history of entrepreneurship as well as those involved in the contemporary history of China and Hong Kong in the assessment of world wide geo economic competition between European powers in Asia Great Britain and France and in the first stages of economic modernity along European models in emerging modern China Indo-Pacific and ASEAN Claire Thi-Liên Tran,Suthiphand Chirathivat,Prabir De,2024-12-03 This book examines Indo Pacific issues from a Southeast Asian perspective and goes beyond discourses such as ASEAN China or ASEAN US China It analyses the new regional balances in the ASEAN and Indo Pacific region at the diplomatic strategic and economic levels while taking into account the ongoing uncertainty of the international order reshaped by the post COVID 19 crisis and characterised by the increasingly adversarial China US relations the sensitive context of South China Sea and Taiwan crisis and the impact of the war between Russia and Ukraine It highlights Indo Pacific not only from a geostrategic angle but an economic one considering ASEAN amidst competing connectivity strategies and integration challenges The book offers an inclusive outlook capturing diversity and convergence of strategies in a key region where the stage of tomorrow s global order will be decided It will be of great interest to scholars and researchers of politics and international relations and Area Studies especially Southeast Asian Studies and Indo Pacific Studies China in the Mediterranean Emilie Tran,Yahia Zoubir,2024-07-19 This scholarly book provides a timely examination of China s growing influence in the Mediterranean region It offers a comparative and theoretical perspective underpinned by an up to date empirical analysis The book uses role theory as the theoretical framework throughout exploring the escalating tensions in the Mediterranean where a complex triangular relationship seems to have emerged largely due to China s expanding presence on both the Southern and Northern shores Beijing s sustained engagement and increasing influence have significantly affected the perceptions of France the region s former colonial power and Spain as well as global competitors such as Russia Turkey Israel and the Gulf states From a security standpoint China s engagement in the Mediterranean has also raised concerns in the United States Within this multifaceted context the chapters in this volume scrutinize how the evolving interactions between China and the Mediterranean states elucidate the progression of Sino Southern Mediterranean relations and Sino Northern Mediterranean relations Moreover the current conflict in Gaza has heightened interest in China s role in the Mediterranean and the broader Middle East This volume is undoubtedly a valuable resource for academics policymakers and students at both undergraduate and graduate levels with an interest in strategic studies politics diplomacy and international relations The chapters in this book were initially published as a special issue of Mediterranean Politics *Pax International* ,1925 **Taiwan and The 'China Impact'** Gunter Schubert,2015-12-14 There can be no doubt that China s economic and political rise is having a stronger effect on Taiwan than on any other country given the Chinese government s claim to sovereignty over Taiwan and Taiwan s quest to maintain its democratic achievements and political identity as a sovereign state Against this background this volume deals

with the bigger picture of evolving relations across the Taiwan Strait departing from the observation that China's impact on Taiwan has become stronger over the last 20 years This book analyses the China impact on Taiwan in terms of its social political and security space from both an empirical and conceptual point of view It is the first comprehensive account of China's multifaceted impact on the politics and society of contemporary Taiwan written by renowned scholars from Taiwan Europe and the U S The book covers a wide range of topics including Taiwan's party alignment elections generational politics cross strait political economy immigration policy and security The contributors political scientists and sociologists highlight both the dangers and the opportunities of the China impact for Taiwan and draw a realistic picture of the island republic's current situation and future options in the shadow of its giant neighbour Based on qualitative and quantitative data this volume intends to fill a gap in the Taiwan studies field by studying the China impact on Taiwan's politics and society systematically and from a comparative perspective By doing so it will be of great interest to students and scholars of Taiwan studies and East Asian politics and society more generally

The Politics of Grandeur Philip G. Cerny, 1980-03-06 De Gaulle was the first major Western leader to pursue a foreign policy designed consistently to break the vicious circle of the Cold War and the straitjacket of the nuclear balance of terror between Russia and the United States At the same time he sought to establish in France a new set of institutions designed to break another vicious circle that of the divisive conflicts between French social groups and political parties which led to weak governments and an ineffective state This book studies the link between these two aims both by examining de Gaulle's political aims and style in a political and cultural context and by looking first at French policy towards the Atlantic alliance and then at the impact of de Gaulle's foreign policy on domestic politics As a result many of the orthodox notions about de Gaulle are questioned
