Ernst Hans Gombrich, 1993 **La storia dell'arte raccontata da E. H. Gombrich**, 1989 *Art, Spirituality and Economics* Luk Bouckaert, Knut J. Ims, Peter Rona, 2018-03-05 This volume celebrates the work of Laszlo Zsolnai a leading researcher and scholar in the field of the ethical and spiritual aspects of economic life who has made significant contributions to the connection between ethics spirituality aesthetics and economic theory The book offers a selection of essays concerned with the ethical spiritual and aesthetic context within which economics as a social studies discipline should be situated in order to avoid the sort of dehumanising consequences that theories based on utility maximisation and rational choice necessarily entail It presents the economic activities of human beings not as some sort of preordained obedience to universal laws that operate independently of other human concerns but rather as a part of the human desire for the Aristotelian good life It looks at the various considerations moral spiritual and aesthetic that take part in the formation of economic decisions in sharp contrast with theories that purport to explain economic phenomena solely on the basis of utility maximisation

Arte e pubblico Ernst H Gombrich, 2018-07-13T00:00:00+02:00 Il grande storico dell'arte Gombrich apre la riflessione alla vita delle opere nel circuito della fruizione Artisti esperti d'arte acquirenti e pubblico creano e condividono quello che diventa il gusto di un'epoca Il denso pensiero di Gombrich viene qui messo in gioco come un esercizio di esemplificazione che tocca opere e artisti noti Il risultato un'opera che rende accessibile a tutti i livelli di lettura le teorie di uno dei più affascinanti e innovativi intellettuali del Novecento Una vivace indagine dai toni eleganti sull'evoluzione delle nostre capacità di giudicare

Picchietti, 2025-02-15 Central to Grazia Deledda's narrative worlds are the relationships between her characters and the vast landscapes in which they move and act The writer translates and represents her characters her characters emotions and her natural and urban landscapes with a vocabulary that is often related to the visual arts However although her descriptions contain the gradations of Modernist painting beginning with Impressionism no book length study and with diverse perspectives has thus far investigated Deledda's relationship with the visual arts and the resulting painterly aesthetic of her multicolored narratives In this sense Grazia

Deledda's Painterly Aesthetic provides an articulated literary panorama of Deledda's novels and short stories through a discourse that is situated between literature and pictorial art. Inspired by these two cardinal points the analyses are undertaken by contributors who have a profound awareness of an epochal change and work in different disciplines. One year from the centenary of her receipt of the Nobel Prize the contributors investigate the connections, consonances and differences between Grazia Deledda's oeuvre and other works inside this panorama to verify a possible unity of purpose. At the same time they seek to ascertain whether these connections can corroborate and exalt the choices that the Sardinian writer made to free herself from the constraints of a hostile environment.

Art coaching, emotions and alchemy Sonia Boni, 2023-02-02. Art for looking within art for the soul. Consciousness sees no separation science and art are companions united by a single truth guiding us towards a paradigm shift towards an encounter with the secret language of art. Have you ever thought that art and art history could be an alchemic tool for the evolution of consciousness? Have you ever wondered what value art could have beyond being purely aesthetic? What if seven small steps were enough to change those assumptions about art that limit its true expression and prevent us from making full use of it to get closer to our souls and listen to and understand what it whispers in our ears? This book is intended to stimulate a change of perspective in order to return art to its true emotional language that is able to touch deep chords and reach inside to heal the soul. The intention is to take you on a fascinating journey between art and science where the disciplines converse and complement each other and to induce you to explore a concept of art therapy that stems from listening to a work of art. Through the exercises I propose you will learn to feel what the work of art arouses in you.

Nel segno dell'essenziale Davide Dal Sasso, 2020-04-07. L'arte dopo il concettualismo. L'arte che ritorna all'ars alla operosità umana, arte che esprime il suo profondo legame con i progetti e le pratiche, arte che rivela talune delle sue regole dando risalto più al fare che non alle apparenze, ai processi anziché alle forme, alla creatività piuttosto che agli aspetti visivi delle opere. Dopo il concettualismo le artiste e gli artisti fanno arte nel segno dell'essenziale, ossia del minimo indispensabile perché si riconosca la sua natura di pratica umana e più che umana.

Teoria e pratica del linguaggio critico Ilaria De Sanctis, 2024-02-16 T00:00:00+01:00. possibile tradurre in linguaggio di parola un'opera d'arte? L'immagine vuole dire. Se tra il visivo e il verbale vi è un rapporto fatto di scarti e di eccedenze quale posizione devono allora assumere la storia e la critica d'arte di fronte all'irriducibilità del dato sensibile? A partire dall'esperienza estetica il libro ripercorre alcune delle più importanti riflessioni sul verbale per poi misurarsi con la volontà di trovare un'equivalenza linguistica per l'immagine. Nel confronto tra visibilità e dicibilità il volume indaga la relazione tra il linguaggio e il visibile artistico ed in questo itinerario che si incontrano Cesare Brandi, Roberto Longhi e Jacques Derrida ma anche Martin
