The Right Wing in France René Rémond, 2016-11-11 The Gaullist regime in France has aroused much interest in the nature of French politics This stimulating analysis of the conservative faction in France revised by the author to include the government of General de Gaulle should be of interest not only to students of that country's history and politics but also to general readers who would understand France's political tradition and where de Gaulle fits into it This work is translated from the second and revised edition of *La Droite en France de la Première Restauration à la Ve République* published in Paris in 1963

Making Sense of Constitutional Monarchism in Post-Napoleonic France and Germany M.

Prutsch,2012-12-03 Focusing on the genesis of constitutional monarchism in the context of the French Restoration and its favourable reception in post Napoleonic Germany this study highlights the potential and limitations of a daring attempt to improve traditional forms of monarchical legitimacy by means of a modern representative constitution *The German Influence in France after 1870* Allan Mitchell,2018-06-15 Mitchell believes that the history of the French Third Republic remains incomplete until one understands the German impact on France after the Franco Prussian War As the French groped unsteadily toward a redefinition of their national identity they were constantly under the influence of the victorious German reich indicating that the creation of a republican mentality cannot be explained in strictly French terms nor can its origins be traced solely from French sources Originally published in 1979 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *Sovereignty, Civic Participation, and Constitutional Law* Brecht Deseure,Raf Geenens,Stefan Sottiaux,2021-04-12 This book brings recent insights about sovereignty and citizen participation in the Belgian Constitution to scholars in the fields of law philosophy history and politics Throughout the Western world there are increasing calls for greater citizen participation Referendums citizen councils and other forms of direct democracy are considered necessary antidotes to a growing hostility towards traditional party politics This book focuses on the Belgian debate where the introduction of participatory politics has stalled because of an ambiguity in the Constitution Scholars and judges generally claim that the Belgian Constitution gives ultimate power to the nation which can only speak through representation in parliament In light of this direct democracy would be an unconstitutional power grab by the current generation of citizens This book critically investigates this received interpretation of the Constitution and by reaching back to the debates among Belgium's 1831 founding fathers concludes that it is untenable The spirit if not the text of the Belgian Constitution allows for more popular participation than present day jurisprudence admits This book is the first to make recent debates in this field accessible to international scholars It provides a rare source of information on Belgium's 1831 Constitution which was in its time seen as modern constitutionalism's greatest triumph and which became a model for countless other constitutions Yet the questions it asks reverberate far beyond Belgium Combining new insights from law philosophy history and politics this book is a showcase for continental constitutional theory It will be a valuable resource for academics and researchers in constitutional law political and legal philosophy and legal history Chapters 3 4 11 and 15 of this book are freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <https://www.taylorfrancis.com/books/sovereignty-civic-participation-constitutional-law/brecht-deseure-raf-geenens-stefan-sottiaux/e1043249781003039525> **Le Second Empire - 2e éd.** Jean-Claude Yon,2012-09-19 Le Second Empire 1851-1870 a longtemps p t i d une mauvaise r putation Pendant des d cennies on n a

Histoire de la révolution française Jules Michelet, 2020-03-04. Écrit au plus près des archives, ce grand récit promettait au lecteur des explications précieuses sur les origines lointaines des faits qui se sont produits dans les dernières années du XVIIIe siècle. Le lecteur y vit les événements presque heure après heure, mais aussi l'engagement et les convictions de Michelet. Toute histoire de la Révolution jusqu'ici était essentiellement monarchique. Celle-ci est la première républicaine, celle qui a brisé les idoles et les dieux. De la première page à la dernière, elle n'a eu qu'un héros : le peuple. Jules Michelet. Cette œuvre est répartie en 7 tomes, savoir : Tome 1 : avril 1789 - 6 octobre 1789 ; Tome 2 : 6 octobre 1789 - juillet 1791 ; Tome 3 : juin 1791 - août 1792 ; Tome 4 : août 1792 - novembre 1792 ; Tome 5 : octobre 1792 - mai 1793 ; Tome 6 : mai 1793 - décembre 1793 ; Tome 7 : décembre 1793 - juillet 1794.
