The Issues of Illegal Immigration and its Solutions in the Minority-Border Regions in Yunnan Province, China Gang Luo,2023-02-11 This book analyzes the governance of illegal immigrants in ethnic areas along China s southwest border Since China is not an immigrant country and lacks an immigrant culture the goals of law enforcement departments are limited to sanfeirenyuan three types of illegal persons illegal immigrants illegal residents and illegal employees The transformation of sanfeirenyuan an issue that has plagued China for many years into an illegal immigration governance issue that is of general concern to the international community has led to fundamental changes in research

methods and research topics The research presented here makes the issue China now faces part of global issues by using the worldview on China's issues to assess current problems it can also show how China's solutions can be applied to global issues The unique feature of this book is that it approaches the issue of illegal immigration as an unconscious crisis Accordingly it holds substantial value in terms of exploring the theoretical basis of and governance methods for maintaining national security in the context of globalization as well as the early warning mechanisms and crisis management in the context of China's national security Since China has a long southwest border the stability and security of border ethnic areas have long played a decisive role in the stability and security of the country as a whole if the frontiers are stable the country enjoys enhanced security Consequently investigating the governance mechanism for illegal immigrants in the ethnic areas of the southwest border is of considerable practical relevance This book offers a valuable asset for researchers in related fields and can be used as a reference book for students of national security It also benefits practitioners in relevant management departments

[The Welfare Economics of Debt](#)

Service Dani Rodrik, 1988 This paper analyzes some of the implications of the dual transfer a debtor nation must undertake to service foreign debt a an internal transfer from the private sector to the public sector and b an external transfer from the domestic economy to foreign creditors It shows that under likely circumstances a real depreciation of the home currency may complicate the internal transfer As long as non traded goods are a net source of revenue for the government the depreciation called for by debt service deteriorates the public sector s terms of trade vis a vis the private sector and magnifies the requisite fiscal retrenchment The paper discusses the role of trade policy tariffs and export subsidies in substituting for devaluation Generating a private sector surplus via interest rate policy is shown to have similar costs on the government budget when the public sector has outstanding domestic debt

**A Second Chance for Europe** Jo Ritzen, 2017-05-18 This book calls upon us to rethink and reboot the European Union The authors dissect the EU s many vulnerabilities how some Member States are backsliding on the rule of law freedom of the press and control of corruption and how globalization s discontents are threatening the liberal international order It examines the need for a common immigration policy the need to rethink the unsustainable debt overhang of some Eurozone countries and the need to use education to foster a European identity Given the sum total of these vulnerabilities the book argues the EU may not survive beyond 2025 in its present form that is unless decisive action is taken In turn the book puts forward a number of workable solutions a European economic model to secure full employment a stronger European Court of Human Rights to counter systemic violations a points based immigration policy clear exit options for the Eurozone and an Open Education Area with a common second language These solutions may reduce the number of EU countries but would increase cohesion and overall survivability

most skilled and motivated target groups while the latter only allows young people to gather generic not job specific work experience Vahlens Kompendium der Wirtschaftstheorie und Wirtschaftspolitik Band 2 ,2012-05-07 Zum Inhalt 18 Einzelbeiträge in zwei Bänden gewährleisten einen zuverlässigen Überblick über den Stand der Volkswirtschaftslehre und über die neuen Trends auf diesem Gebiet Band 2 Mikroökonomik Arbeitsmarktökonomik Umweltökonomie Theorie der Wirtschaftspolitik Wettbewerbspolitik Stabilitätspolitik Strukturpolitik Sozialpolitik Europäische Integration Zu den Autoren Von Prof. Dr. Thomas Apolte Prof. Dr. Dieter Bender Prof. Dr. Hartmut Berg Prof. Dr. Dieter Cassel Prof. Dr. Mathias Erlei Prof. Dr. Heinz Grosseketzler Prof. Dr. Karl Hans Hartwig Prof. Dr. Lothar Hebel Prof. Dr. Wolfgang Kerber Prof. Dr. Volker Nienhaus Prof. Dr. Notburga Ott Prof. Dr. Jürgen Siebke Prof. Dr. Heinz Dieter Smeets Prof. Dr. Hans-Jörg Thieme und Prof. Dr. Uwe Vollmer
