Dangerous Fishes of the Eastern and Southern Arabian Peninsula Laith A. Jawad, 2017-09-21. This book is devoted to the dangerous fishes found offshore the eastern and southern Arabian Peninsula. It covers information about the main groups of dangerous fish species: i) biting and predator fish, ii) venomous stinging fish, iii) electric shock fish, iv) harmful stinging fish, and v) poisonous fish. In the latter group, the book gives details about fishes that cause several types of toxicities to humans. The purpose of this book is to thoroughly introduce the life nature and methods of dangerous fishes in order to form awareness about their danger and to take the proper preventive steps. It will appeal to researchers, scholars, divers, the sea coast visitors, and students of marine biology as it is highly informative and carefully presented. This book is the first of its kind for the Arabian region in particular and the Middle East in general.

Coastal Zone Management Parimal Sharma, 2009. The coastal zone management is the need of the hour for every country. The wide range of resources and economic importance of the coastal zone have become very vital in today's time. This book has been written by keeping all these things in mind. This book starts with an introduction to the coast and coastal life, followed by chapters which highlight the extension of coasts, the concept of coastal zone management, promotion of tourism by the development of coastal areas, coastal system and its management structures, marine tourism and its impact on coastal life, the problem of marine pollution, etc. This book concludes with a chapter on coastal zone and related Indian projects. We have tried to keep many relevant topics in this book and language has been kept very simple and pragmatic throughout the book, and we hope that the present book will find its due place amongst the readers.
