Financial Accounting Susan Hermanson, James Don Edwards, Roger Hermanson, 2018-01-17. Thoroughly updated in 2017, it builds on the strengths of previous editions and continues to provide a thorough understanding of how to use accounting information to analyze business performance and make business decisions. Uses real companies to illustrate many of the accounting concepts and covers a variety of issues associated with these actual businesses to provide a real-world perspective. Combines solid coverage of financial accounting for business students regardless of the selected major and provides non-accounting majors a solid foundation for making effective use of accounting information.

Singapore International Monetary Fund. Monetary and Capital Markets Department, 2013-12-05. This paper discusses the findings of the Detailed Assessment of Implementation on the International Organization of Securities Commissions (IOSCO) Objectives and Principles of Securities Regulation on Singapore. Overall compliance with IOSCO principles is generally high, although the assessors identified some vulnerabilities that need to be resolved. The Monetary Authority of Singapore's MAS enforcement philosophy as regards securities markets and the financial intermediaries active therein is cogent, with outcomes focused and well developed. The Securities and Futures Act (Cap 289) provides an effective framework to enable the sharing of information and cooperation between MAS and foreign regulators on supervisory and enforcement matters.

The 2008 Budget Great Britain. Parliament. House of Commons. Treasury Committee, 2008 This report examines the forecasts and measures contained in the 2008 Budget HC 455 session 2007/08 ISBN 9780102953336 The Treasury's lower forecasts for economic growth in 2008 and 2009 are above the average of independent forecasters suggesting that the Treasury may have given insufficient weight to the risks of continued financial market turbulence and that some of the UK economy's characteristics that have proven beneficial in past crises rapidly rising residential property prices close links with the US and an increasing reliance on the financial services industry for example might prove to be conduits through which the current problems in global financial markets are transmitted to the UK real economy The further weakening of the forecasts for the public finances is noted and it appears premature for the Treasury to state that it is on course to meet the golden rule in the next economic cycle given the lack of an end date for the previous economic cycle Measures on child poverty are welcomed but there is a need for a clear explanation on deployment of resources to ensure that the target to halve child poverty by 2010/11 will be achieved The abolition of the 10 pence rate of income tax will most affect those under 65 years of age in childless households earning under 18 500 the Committee feels this group is an unreasonable target for raising additional tax revenues The Treasury should commission research into whether the withdrawal of the 10 pence income tax band and high marginal deduction rates are creating disincentives that could frustrate the Government's welfare to work objectives The Committee also calls for a national Saving Gateway targeted at low income households and more consideration of tax changes on the middle and lower income groups of non domiciled taxpayers
