La Filosofía Spanish Edition:

Three Spanish Philosophers Jose Ferrater Mora, 2012-02-01 This collection provides an excellent introduction to three of the most important names in twentieth century Spanish philosophy Miguel de Unamuno 1864 1936 Jos Ortega y Gasset 1883 1955 and Jos Ferrater Mora 1912 1991 The thought provoking work of these great contemporary philosophers offers a rich and penetrating insight into human existence Originally written by Ferrater Mora in the middle of the last century his interpretations of Unamuno and Ortega are considered classics and the chapter on his own thought reflects his mature thinking about being and death Each essay is introduced by noted Ferrater Mora scholar J M Terricabras and contains updated biographical and bibliographic information *Philosophy of Technology in Spanish Speaking Countries* Carl

Mitcham, 2012-12-06 This volume grew out of the experience of the First Inter American Congress on Philosophy of Technology October 1988 organized by the Center for the Philosophy and History of Science and Technology of the University of Puerto Rico in Mayagüez The Spanish language proceedings of that conference have been published in Carl Mitcham and Margarita M Peñá Borrero with Elena Lugo and James Ward eds *El nuevo mundo de la filosofía y la tecnología* a University Park PA STS Press 1990 This volume contains thirty two papers twenty two summaries an introduction and biographical notes to provide a full record of that seminal gathering Discussions with Paul T Durbin and others including many who participated in the Second Inter American Congress on Philosophy of Technology University of Puerto Rico in Mayagüez March 199 raised the prospect of an English language proceedings in the Philosophy and Technology series But after due consideration it was agreed that a more general volume was needed to introduce English speaking readers to a growing body of literature on the philosophy of technology in the Spanish speaking world As such the present volume includes Spanish as well as Latin American authors historical and contemporary figures some who did and many who did not participate in the first and second inter American congresses ***Philosophy and Literature in Latin America*** Jorge J. E.

Gracia, Mireya Camurati, 1989-06-01 *Philosophy and Literature in Latin America* presents a unique and original view of the current state of development in Latin America of two disciplines that are at the core of the humanities Divided into two parts each section explores the contributions of distinguished American and Latin American experts and authors The section on literature includes the literary activities of Latin Americans working in the United States an area in which very little research has been demonstrated and for that reason will add an interesting new dimension to the field of Latin American studies

The Development of Social Knowledge José Antonio Castorina, Alicia Barreiro, 2023-08-01 The result of a deep research work sustained for more than two decades this book studies the construction of social knowledge from a constructivist perspective inherited from Piagetian thought It thus advances in a process of revision and discussion while maintaining crucial aspects of this current for the approach to the construction of the subject and the object of knowledge in the search for the elaboration of an explanatory theory for the formation of new knowledge A collaborative proposal between

different disciplines of potential interest for the different actors who study and intervene in this field **Mind, Values, and Metaphysics** Anne Reboul, 2014-08-06 There are three themed parts to this book values ethics and emotions in the first part epistemology perception and consciousness in the second part and philosophy of mind and philosophy of language in the third part Papers in this volume provide links between emotions and values and explore dependency between language meanings and concepts and topics such as the liar's paradox reference and metaphor are examined This book is the second of a two volume set that originates in papers presented to Professor Kevin Mulligan covering the subjects that he contributed to during his career This volume opens with a paper by Moya who proposes that there is an asymmetrical relation between the possibility of choice and moral responsibility The first part of this volume ends with a description of foolishness as insensitivity to the values of knowledge by Engel Marconi's article makes three negative claims about relative truth and Sundholm notes shortcomings of the English language for epistemology amongst other papers This section ends with a discussion of the term subjective character by Nida R melin who finds it misleading The third part of this volume contains papers exploring topics such as the mind body problem whether theory of mind is based on simulation or theory and K nne shows that the most common analyses of the so called Liar paradox are wanting At the end of this section Rizzi introduces syntactic cartography and illustrates its use in scope discourse semantics This second volume contains twenty nine chapters written by both high profile and upcoming researchers from across Europe North America and North Africa The first volume of this set has two main themes metaphysics especially truth making and the notion of explanation and the second theme is the history of philosophy with an emphasis on Austrian philosophy **Karol Wojtyla's Personalist Philosophy** Miguel Acosta, Adrian Reimers, 2016-05-27 This work provides a clear guide to Karol Wojtyla's principal philosophical work Person and Act rigorously analyzing the meaning that the author intended in his exposition An important feature of the work is that the authors rely on the original Polish text *Osoba i czyn* as well as the best translations into Italian and Spanish rather than on a flawed and sometimes misleading English edition of the work *The Role of History in Latin American Philosophy* Arleen Salles, Elizabeth Millán, 2012-02-01 This book brings the history of Latin American philosophy to an English speaking audience through the prominent voices of Mauricio Beuchot Horacio Cerutti Guldberg Mar a Luisa Femen as Jorge J E Gracia Oscar R Mart Le n Oliv Carlos Pereda and Eduardo Rabossi They argue that Spanish is not a philosophically irrelevant language and that there are original positions to be found in the work of Latin American philosophers Part I of the book looks at why the history of philosophy has not developed in Latin America A range of theoretical issues are explored each focusing on specific problems that have hindered the development of a solid history Part II details the complex task of writing a history of philosophy for a region still haunted by the specter of colonialism **A History of the Church in Latin America** Enrique D. Dussel, 1981 This comprehensive history of the church in Latin America with its emphasis on theology will help historians and theologians to better understand the formation and continuity of the Latin American tradition Enrique

Dussel's Ethics of Liberation Frederick B. Mills, 2018-08-20 This book introduces the methodology and basic concepts of Dussel's ethics of liberation Enrique Dussel is one of the principal founders of the philosophy of liberation in Latin America Frederick B Mills discusses how for Dussel we can realize our co responsibility for human life by responding in accord with ethical principles to the appeals of victims of the prevailing capital system Mills shows how these principles when subsumed in the political and economic fields aim at overcoming the ongoing assault on human life and nature and provide a moral compass for forging a path to liberation He makes the case that the study of Dussel is critical to the understanding of liberatory thought in Latin America today This book aims to introduce the ethics of liberation to a broader audience in the Global North where Dussel's ideas are urgently relevant to progressive political and economic theory and praxis **The Philosophical Legacy of Jorge J. E. Gracia** Robert A. Delfino, William Irwin, Jonathan J. Sanford, 2022-01-31 Fleeing Cuba in 1961 Jorge J E Gracia arrived in the USA at the age of nineteen without family and unable to speak English Ten years later he was assistant professor of philosophy at the State University of New York at Buffalo Over the next 50 years Gracia published dozens of books and hundreds of articles making major contributions to numerous areas of philosophy Latin American philosophy race and ethnicity Medieval philosophy philosophical historiography metaphysics and ontology and theory of interpretation This book is a critical response to Gracia's work and a tribute to his legacy It includes a comprehensive bibliography of Gracia's philosophical works **Bibliography of Islamic Philosophy** Hans Daiber, 1998-12-31 **Cultural Identity and Social Liberation in Latin American Thought** Ofelia Schutte, 1993-03-02 This book defines the relationship between liberation and cultural identity in the Latin American social reality from a historically rooted critical philosophy Schutte explores the connections between the diverse political and intellectual movements for social liberation in Latin America since 1920 She analyzes the variety of attempts to give meaning to the complex and conflictive nature of Latin America's social reality critiquing the work of Jose Carlos Mariategui Samuel Ramos and Leopoldo Zea's early work Gustavo Gutierrez and Paulo Freire among others Schutte's approach is philosophical with a distinctly interdisciplinary context Her discussion of feminism brings the question of women's equality to the forefront of discussions on Latin American social thought Concluding with the contemporary ethical and political implications Schutte argues that liberation oriented theories are sustained yet heterogeneous attempts to deal with Latin America's difficult economic social and political problems **Lull & Bruno** Francis A. Yates, 2013-10-28 First published in 1999 This is Volume VIII of ten of the selected works of Frances A Yates The studies reprinted here demonstrate not only the range of Frances A Yates's learning but her determination to go to the root of a problem In order to understand the thought of Giordano Bruno Dame Frances found it necessary to investigate the role of Lullism in the Renaissance and this led her back three centuries to the origins of the Art of Ramon Lull Modern Philosophy Guido De Ruggiero, 2019-05-29 Originally published in 1921 this volume represents De Ruggiero's first appearance in English being the first time his philosophical works were translated
