La Librairie De Philippe Le Bon Exposition:

The Brussels Horloge de Sapience: Iconography and Text of Brussels, Bibliothèque Royale, MS. IV 111 Peter Rolfe Monks, 2023-10-16 The book discusses principally the iconography and text of a mid 15th century copy of the mystical treatise *Horloge de Sapience* in the most sumptuously illuminated ms known of the text Each of the 36 illuminations is discussed in turn with reference to their pictorial traditions to the French textual matter and to a unique contemporary commentary called the *Dclaration des hystoires* The *Dclaration* is one of the earliest essays in the history of art criticism to survive The study is rendered useful for teachers and scholars by an English translation of the text of the *Dclaration* which enables the reader to see the illustrations through the eyes of a 15th century critic **La librairie de Philippe le Bon** Bibliothèque royale de Belgique, 1967 **Les traductions françaises du *De regimine principum* de Gilles de Rome** Noëlle-Laetitia Perret, 2011-05-23 This book deals with the different translations into Old French of Giles of Rome's *De regimine principum* dedicated to Philippe le Bel around 1279 and their readership First hand manuscript research has permitted us to understand not only the general context of their production but also the social conditions of their transmission and circulation This work concentrates on different aspects of the reception of Giles of Rome's pedagogical ideas by his translators who are by no means passive in this process This book provides not only a concrete idea of what Giles of Rome's educational ideas became when mediated for the consumption of a lay public but also how the translators in their translations supported the transmission of re appropriated knowledge **La librairie de Philippe le Bon** Georges Dogaer (historien de l'art.), Marguerite Debae, 1967 *Vita Sanctae Coletae 1381-1447* Cazaux, Decavele, Derolez, Corstanje, 2023-09-20 *Catalogue of the Harvard University Fine Arts Library, the Fogg Art Museum* Harvard University. Fine Arts Library, 1971 *The Medieval Medea* Ruth Morse, 1996 Wide ranging study of the myth of Medea concentrating on but not exclusively confined to its medieval incarnation *French Romance of the Later Middle Ages* Rosalind Brown-Grant, 2008-11-13 Whilst French romances of the twelfth and thirteenth centuries have long enjoyed a privileged place in the literary history of France romances from the later middle ages have been largely neglected by modern scholars despite their central role in the chivalric culture of the day In particular although this genre has been seen as providing a forum within which ideas about masculine and feminine roles were debated and prescribed little work has been done on the gender ideology of texts from the fourteenth and fifteenth centuries This study seeks to fill this gap in the scholarship by analysing how the views of gender found in earlier romances were reassessed and reshaped in the texts produced in the moralising intellectual environment of the later medieval period In order to explore these topics this book discusses fifteen historico realist prose romances written in the century from 1390 many of which were commissioned at the court of Burgundy It addresses key issues in recent studies of gender in medieval culture including the construction of chivalric masculinity the representation of adolescent desire and the social and sexual roles of husbands and wives In

addition to offering close readings of these texts it shows how the romances of the period were informed by ideas about gender which circulated in contemporary works such as manuals of chivalry moral treatises and marriage sermons It thus aims not only to provide the first in depth study of this little known area of French literary history but also to question the critical consensus on the role of gender in medieval romance that has arisen from an exclusive focus on earlier works in the genre

Medieval Bruges Andrew Brown, Jan Dumolyn, 2018-05-03 Bruges was undoubtedly one of the most important cities in medieval Europe Bringing together specialists from both archaeology and history this total history presents an integrated view of the city's history from its very beginnings tracing its astonishing expansion through to its subsequent decline in the sixteenth century The authors analysis of its commercial growth industrial production socio political changes and cultural creativity is grounded in an understanding of the city's structure its landscape and its built environment More than just a biography of a city this book places Bruges within a wider network of urban and rural development and its history in a comparative framework thereby offering new insights into the nature of a metropolis

Livre de Chevalerie Richard W. Kaeuper, Elspeth Kennedy, 1996-11 Charny was a knight who lived the chivalric life for nearly two decades in a manner thought ideal by his contemporaries dying appropriately in battle at Poitiers in 1356 He was also the first documented owner of the Shroud of Turin This volume establishes the cultural context in which Charny lived in the first section and sets forth in the second the French text of Charny's fascinating work alongside an English translation with full critical apparatus The Book of Chivalry is the most pragmatic of all surviving chivalric manuals Written at the height of the Hundred Years War it includes the essential commonplaces of knighthood in the mid fourteenth century and gives a close up view of what one knight in particular absorbed of the medieval world of ideas around him what he rejected or ignored and what he added from his experience in camp court and campaign Geoffroi de Charny was one of the quintessential figures of his age with honors and praise bestowed upon him from both sides of the English Channel He prepared the Book of Chivalry as a guide for members of the Company of the Star a new but short lived order of knights created by Jean II of France in 1352 to rival the English Order of the Garter This work proves a rich source for investigating questions about the political military religious and social history of the later Middle Ages The prowess and piety of knights their capacity to express themselves their common assumptions their views on masculine virtue women and love once more come vividly to life

Holy Land Kathryn Blair Moore, 2017-02-27 In the absence of the bodies of Christ and Mary architecture took on a special representational role during the Christian Middle Ages marking out sites associated with the bodily presence of the dominant figures of the religion Throughout this period buildings were reinterpreted in relation to the mediating role of textual and pictorial representations that shaped the pilgrimage experience across expansive geographies In this study Kathryn Blair Moore challenges fundamental ideas within architectural history regarding the origins and significance of European recreations of buildings in Jerusalem Bethlehem and Nazareth From these conceptual foundations she traces and re interprets the significance of the architecture of the Holy Land within changing religious and political contexts from the First Crusade and the emergence of the Franciscan Custody of the Holy Land to the anti Islamic crusade movements of the Renaissance as well as the Reformation **The Winter Missal of Arnold of Rummen** Carolyn Coker Joslin

Watson, 2024-11-18 The Hundred Years War the Plague the van Artevelde uprising conflict between a count and an aspiring count Corpus Christi and the Eucharist these are the context for the enigmatic manuscript studied in this book Above all this missal from Ghent is outstanding for its rich and inventive penwork flourishing given life by the prayer pulses of the text and enriched by cycles of development The lowly two line initial emerges as the primary locus of creative interaction between painting and flourishing Illumination produced by a priest and a layman is notable for its theological richness and is enlivened by distinctive gorgons **"Women, Manuscripts and Identity in Northern Europe, 1350?550 "** Joni M.

Hand, 2017-07-05 Author Joni M Hand sheds light on the reasons women of the Valois courts from the mid fourteenth to the

mid sixteenth century commissioned devotional manuscripts Visually interpreting the non text elements portraits coats of arms and marginalia as well as the texts Hand explores how the manuscripts were used to express the women s religious political and or genealogical concerns This study is arranged thematically according to the method in which the owner is represented Recognizing the considerable influence these women had on the appearance of their books Hand interrogates how the manuscripts became a means of self expression beyond the realm of devotional practice She reveals how noblewomen used their private devotional manuscripts as vehicles for self definition to reflect familial political and social concerns and to preserve the devotional and cultural traditions of their families Drawing on documentation of women s book collections that has been buried within the inventories of their fathers husbands or sons Hand explores how these women contributed to the cultural and spiritual character of the courts and played an integral role in the formation and evolution of the royal libraries in Northern Europe

Petrus Christus Maryan W. Ainsworth, Maximiliaan P. J. Martens, Metropolitan Museum of Art (New York, N.Y.), 1994 This study is an important new account of the life and work of the Flemish master Petrus Christus It is the first volume to focus specifically on the physical characteristics of his works as criteria for judging attribution dating and the extent to which he was indebted to Jan Van Eyck and other artists for the development of his technique and style

The Adventures of Gillion de Trazegnies Elizabeth Morrison, Zrinka Stahuljak, 2015-12-25 One of the finest works from the golden era of Flemish manuscript illumination the Getty s copy of the Romance of Gillion de Trazegnies tells of the adventures of a medieval nobleman Part travelogue part romance and part epic the text traces the exciting exploits of Gillion as he journeys to Jerusalem on pilgrimage is imprisoned in Egypt and rises to the command of the Sultan s armies mistakenly becomes a bigamist first with a Christian and then a Muslim wife and dies in battle as a glorious hero The tale encompasses the most thrilling elements of the Western romance genre love villainy loyalty and war set against the backdrop of the East This lavishly illustrated volume reveals for the first time the complexity of this illuminated romance A complete reproduction of the book s illustrations and a partial translation of the text appear along with essays that explore the manuscript s vibrant cultural historical and artistic contexts The innovative illuminations by the renowned artist Lieven van Lathem juxtapose the reality of medieval Europe with an idealized vision of the East This unusual pairing found in the text and illustrations is the source of a rich discussion of the fifteenth century political situation in the West and the Crusades in the East

Sacred Fictions of Medieval France Maureen Barry McCann Boulton, 2015 A study of the immensely popular lives of Christ and the Virgin in medieval France

In the Shadow of Burgundy Gerard Nijsten, 2004-02-26 In recent years the study of medieval courts has become a flourishing field The courts of kings and popes or of the Burgundian dukes have usually attracted most attention This book offers by contrast a wide ranging study of a little known medium sized court that of Guelders in the Low Countries Guelders offers an excellent vantage point for the study of European late medieval court culture It was surrounded by the vast territories of the dukes of Burgundy and it felt the growing power of the Valois

dukes yet the duchy managed to remain independent until 1473 Rich archival sources including a long and virtually unbroken series of ducal accounts reveal much about the rise of territorial or proto national awareness and about the role of the court in this process The book also conveys the striking cultural and political richness of the court poised between French and German spheres of influence
