**Conflicts and New Departures in World Society** Volker

Bornschier,Peter Lengyel,1994-01-01 This third volume in the World Society Studies series focuses on a central theme how market mechanisms can correct the world welfare deficit and also resolve the environmental crisis through processes of sustainable development The two editors trace how such objectives have been addressed since the 1960s and describe the parameters of the debate Conflicts and New Departures in World Society contains original research on confluences and fissures in emerging world society in both international and domestic arenas The sixteen contributors offer an unusually wide range of perspectives Topics include peace and war core periphery situations and social and labor conflicts Marek Thee traces the quest for a demilitarized and nuclear free world Johan Kaufmann analyzes the role of the United Nations in the post cold war era Jill Crystal concentrates on the human rights environment in the Arab World H C F Mansilla comments on the destruction of the tropical forests in Bolivia Other contributors include Bruce Russett Christian Suter John Foran Beverly Silver and Georg Kohler Conflicts and New Departures in World Society gives intellectual substance to the still nebulous notion of a world society It does so not by advocacy but by indicating parallel social economic and political conditions that compel new interactions between advanced and developing lands This books will be of interest to sociologists

environmentalists and political theorists and scientists *The New Politics of Inequality in Latin America* Douglas A.

Chalmers,1997-01-30 Against a broader backdrop of globalization and worldwide moves toward political democracy The New Politics of Inequality in Latin America examines the unfolding relationships among social change equity and the democratic representation of the poor in Latin America Recent Latin American governments have turned away from redistributive policies at the same time popular political and social organizations have been generally weakened inequality has increased and the gap between rich and poor has grown Hanging in the balance is the consolidation and the quality of new or would be democracies this volume suggests that governments must find not just short term programmes to alleviate poverty but long term means to ensure the effective integration of the poor into political life The New Politics of Inequality in Latin America bridges the intellectual chasm between on the one hand studies of grassroots politics and on the other explorations of elite politics and formal institution building It will be of interest to students and scholars of contemporary Latin American politics and society and more generally in the vicissitudes of democracy and citizenship in the late twentieth century global system

**La izquierda contraataca** James Petras,2000-02-07 Am rica Latina despliega la historia de 500 a os de explotaci n despiadada por parte de las distintas potencias occidentales que han incluido al continente en su rea de influencia hegem nica El neoliberalismo no es sino la ltima estrategia econ mica pol tica cultural e ideol gica de subordinaci n de los pueblos y de los recursos latinoamericanos a las necesidades y a los proyectos de la potencia occidental dominante James Petras examina minuciosamente los antecedentes inmediatos del ciclo neoliberal se alando su conexi n con la destrucci n militar de

toda la experiencia política social económica y cultural que la izquierda latinoamericana articuló durante las décadas de 1960 y 1970. El sostenimiento de la hegemonía estadounidense exigía subordinar de nuevo los recursos latinoamericanos a la revitalización económica de los Estados Unidos. Desde mediados de la década de 1980 la profunda crisis de las sociedades y de la izquierda tradicional latinoamericanas ha dado lugar a la efervescente emergencia de movimientos sociales que hoy están intentando reconstruir una política política radical ante el hundimiento de los modelos de la vieja izquierda y de sus experiencias nacionalistas de desarrollo socioeconómico. En este contexto se enmarca su crítica del libro *La utopía desarmada* de Jorge Castaeda, indicando las debilidades y los sesgos interpretativos de esta nueva versión de un pragmatismo imposible. Petras efectúa también una síntesis crítica del impacto de las ONG en la realidad política latinoamericana como ariete desmovilizador de las luchas sociales y políticas enraizadas en la necesidad de transformación radical de la estructura social y autogestionadas por los propios sujetos implicados en las mismas. Analiza también la irracional política contra Cuba llevada a cabo por la Administración Clinton en un escenario internacional profundamente modificado y ante una realidad cubana que ha cambiado algunos de sus principios de funcionamiento.

### **Modernism and Its Margins** Anthony Geist, Jose B.

Monleón, 2018-10-24 This volume represents a rereading of modernism and the modernist canon from a double distance geographical and temporal. It is a revision not only from the periphery Spain and Latin America but from this new fin de siècle as well a revisiting of modernity and its cultural artifacts from that same postmodernity. *Modernism and Its Margins* is an attempt at introducing different perspectives and examples in the theoretical debate to redefine dominant assumptions of what modernism or margins mean in our historical juncture.
