Department of Botany,1968 Matchbox Labels Joan Rendell,1968 **A Book about the Film Monty Python and the Holy Grail** Darl Larsen,2015-03-06 Monty Python s Flying Circus aired from 1969 until 1974 but the conclusion of the series did not mark the end of the troupe s creative output Even before the final original episodes were recorded and broadcast the six members began work on their first feature length enterprise of new material Rather than string together a series of silly skits they conceived a full length story line with references to the real and imagined worlds of the mythical King Arthur the lives of medieval peasants and the gloomy climate of 1970s Britain Released in 1975 Monty Python and the Holy Grail was a modest success but has since been hailed as a modern classic In A Book about the Film Monty Python and the Holy Grail All the References from African Swallows to Zoot Darl Larsen identifies and examines the cultural historical and topical allusions in the movie In this entertaining resource virtually every reference that

appears in a scene whether stated by a character depicted in the mise en scene or mentioned in the print companion is identified and explained Beyond the Arthurian legend entries cover literary metaphors symbols names peoples and places as well as the myriad social cultural and historical elements that populate the film This book employs the film as a window to both reveal and examine Arthurian life and literature the historical Middle Ages and a Great Britain of labor unrest power shortages and the common man Introducing the reader to dozens of medievalist histories and authors and connecting the film concretely to the modern British Empire A Book about the Film Monty Python and the Holy Grail will appeal to fans of the troupe as well as medieval scholars and academics who can laugh at themselves and their work Unbecoming British Kariann Akemi Yokota, 2014 From household objects to maps and ideas of race Kariann Yokota examines early US history through the lens of postcolonial theory While its leaders went to great lengths to establish their civility what really distinguished the new nation were its unlimited natural resources slavery and the displacement of native societies

Natures in Translation Alan Bewell, 2017-01-02 Understanding the dynamics of British colonialism and the enormous ecological transformations that took place through the mobilization and globalized management of natures For many critics Romanticism is synonymous with nature writing for representations of the natural world appear during this period with a freshness concreteness depth and intensity that have rarely been equaled Why did nature matter so much to writers of the late eighteenth and early nineteenth centuries And how did it play such an important role in their understanding of themselves and the world In *Natures in Translation* Alan Bewell argues that there is no Nature in the singular only natures that have undergone transformation through time and across space He examines how writers as disparate as Erasmus and Charles Darwin Joseph Banks Gilbert White William Bartram William Wordsworth John Clare and Mary Shelley understood a world in which natures were traveling and resettling the globe like never before Bewell presents British natural history as a translational activity aimed at globalizing local natures by making them mobile exchangeable comparable and representable Bewell explores how colonial writers in the period leading up to the formulation of evolutionary theory responded to a world in which new natures were coming into being while others disappeared For some of these writers colonial natural history held the promise of ushering in a cosmopolitan nature in which every species through trade and exchange might become a true citizen of the world Others struggled with the question of how to live after the natures they depended upon were gone Ultimately *Natures in Translation* demonstrates that far from being separate from the dominant concerns of British imperial culture nature was integrally bound up with the business of empire **Drawing on Nature** Paul Fox, 1992 The Second
