LaSpina, 2009-02-26 California in a Time of Excellence follows the Golden State's efforts to reform its public school system  
from 1983 to the present Beginning with progressive curriculum reform initiatives that were launched even before the  
National Commission on Excellence in Education NCEE issued A Nation at Risk in 1983 James Andrew LaSpina traces these  
reform efforts through recurring culture wars major clashes of personality and a conflict between the state's tradition of  
progressive educational policy and a culture of conservatism that colored much of the so called Left Coast's history since the  
sixties While the battles over curriculum reform in California reflect those at the national level the political world  
surrounding this conflict reveals the enormous significance of the conflict and its implications for our national future

detailed analyses on both visual and historical representations of Asian Americans in textbooks and teacher manuals used in  
our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single  
story about Asian Americans As Hartlep and Scott write Asian Americans have once again been constructed as the good  
minority that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement  
and their fight for equality Over and over again the media has been telling a single story about Asian Americans to the public

**Curriculum** Don Romesburg, 2025-04-15 Today many states have proposed so called Don't Say Gay bills that prohibit public  
school teachers from mentioning LGBTQ topics in the classroom But a few states like California have taken decisive steps in  
the other direction They mandate inclusive education that treats LGBTQ history as essential to the curriculum At once a  
history of an evolving movement and an activist handbook Contested Curriculum navigates the rocky path to LGBTQ  
inclusive K-12 history education in the United States and recounts the fight for a curriculum that recognizes the value of  
queer and trans lives What began in fits and starts in activism and educational materials across the late twentieth century led

to the passage of California's landmark FAIR Education Act in 2011 ensuring that LGBTQ history has a place in the K-12 classroom. Historian Don Romesburg, the lead scholar who worked with advocacy organizations to pass the act, recounts the decades-long struggle to integrate LGBTQ content into history education policy, textbooks, and classrooms. Looking at California and states that followed its lead, he assesses the challenges and opportunities presented by this new way of teaching history. Romesburg's powerful case for LGBTQ inclusive education is all the more urgent in this era of anti-gay book bans, regressive legislation, and attempts to diminish the vital role that inclusive and honest history education should play in a democratic nation.

The Citizen Bee is a national competition for high school students sponsored by the Close Up Foundation. The main guide is a survey of U.S. history, culture, government, economics, and geography addressed to students and designed to prepare them for that competition. The guide is divided into 13 chapters: 1 The Revolutionary Spirit, 2 A Nation Emerges, 3 Triumph of the Nation, 4 An Era of Reform, 5 Emergence as a World Power, 6 The Sixties and After, 7 The Constitution, 8 The Legislative Branch, 9 The Executive Branch, 10 The Judicial Branch, 11 The Electoral Process, 12 Principles and Practice concerning economics, and 13 America's Land and People. Each chapter opens with a short essay followed by 75 to 100 questions on the chapter topic, some of which are based on maps, charts, and graphs. Appendix 1 contains the U.S. Constitution, Appendix 2 points out aspects of U.S. political thought and government that students should be familiar with. A glossary and a 29-item bibliography are also included. Students entering the competition are responsible for knowing all the information presented in the book; they must also read and understand the information in the appendices, locate the 50 states and their capitals on a map of the United States, and locate all nations mentioned in the book on a map of the world. While intended for those entering the competition, the guide could be used by any student studying the United States. The Coordinator's and Teacher's Guide accompanying the student book provides information for coordinating the competition at the school level and for helping students prepare. The rules of the competition are provided, and the format is explained. Suggestions are offered regarding activities and learning strategies to help prepare students, and a teaching guide and answer key to all the questions asked in the student's book. JD
