It bridges the traditional concerns of technical communication and the broader emerging requirements of professional communication. The text envisions writers and speakers who in their daily work use a wide variety of communication skills: generating and organizing ideas quickly and well; writing effective memos, letters, reports, proposals, and business plans; contributing to collaborative writing and presentation teams; devising graphics to aid communication; participating in and leading productive meetings; producing articles for publication; and employing the listening skills and interviewing strategies so crucial to career success.
