Trauma, Gender and Ethics in the Works of E.L.

Doctorow María Ferrández San Miguel, 2020-01-24 This project approaches four of E L Doctorow s novels Welcome to Hard Times 1960 The Book of Daniel 1971 Ragtime 1975 and City of God 2000 from the perspectives of feminist criticism and trauma theory The study springs from the assumption that Doctorow s literary project is eminently ethical and has an underlying social and political scope This crops up through the novels overriding concern with injustice and their engagement with the representation of human suffering in a variety of forms The book puts forward the claim that E L Doctorow s literary project through its representation of psychological trauma and its attitude towards gender may be understood as a call to action against both each individual s indifference and the wider social and political structures and ideologies that justify and or facilitate the injustices and oppression to which those who are situated at the margins of contemporary US society are subjected
