Department of Printed Books,1890 *The British National Bibliography* Arthur James Wells,2004 **Myth, Truth, and Narrative in Herodotus** Emily Baragwanath,Mathieu de Bakker,2012-09-06 Herodotus the Father of History is infamously known for having employed elements more akin to mythological tales than to unvarnished truth in translating his historical research into narrative form While these narratives provide valuable source material he could not have surmised the hostile reception his work would receive in later generations This mythical aspect of the Histories led many successors most notoriously Plutarch to blame Herodotus for spinning far fetched lies and to set him apart as an untrustworthy historian Echoes of the same criticism resounded in twentieth century scholarship which found it difficult to reconcile Herodotus ambition to write historical stories

as they really happened with the choices he made in shaping their form This volume brings together 13 original articles written by specialists in the fields of ancient Greek literature and history Each article seeks to review re establish and rehabilitate the origins forms and functions of the Histories mythological elements These contributions throw new light on Herodotus talents as a narrator underline his versatility in shaping his work and reveal how he was inspired by and constantly engaged with his intellectual milieu The Herodotus who emerges is a Herculean figure dealing with a vast quantity of material struggling with it as with the Hydra s many growing heads and ultimately rising with consummate skill to the organisational and presentational challenges it posed The volume ultimately concludes that far from being unrelated to the historical aspects of Herodotus text the mythic elements prove vital to his presentation of history
