the last century looking at the motives the responses of the community and local law enforcement the media and the outcomes She argues that the rich and famous may kill for the same reasons as others but they receive vastly different treatment and are often able to get away with murder Homicide by the rich and famous is not new in this country nor is fascination with the crimes committed by our most revered citizens But being among the upper echelon of society does afford such suspects with a greater ability to escape punishment They have greater access to better representation they have the means to flee the country they have influential friends in high places willing to put themselves on the line and they are generally treated better by law enforcement and the criminal justice system This book profiles the many ways in which homicides committed by the rich and famous are similar to other murders in their motives but differ from those committed by everyday citizens in their outcomes Scott provides readers with a showcase of crimes that will infuriate and fascinate readers
