Insel Erster Band Fantasiestücke In Callots Manier Die Elixiere Des Teufels:

Assembly and its Other in German Romantic Literature and Thought Robert E. Mottram, Christopher R. Clason, 2022-10-15 This collection of essays turns on a shift in Romantic studies from viewing wholeness as an absolute value to critiquing it as a limiting construction Wholeness and its concomitant sense of harmony rather than a natural given is a construct that was assembled and disassembled theorized and criticized by diverse authors and artists in a wide variety of disciplines and socio historical contexts and instrumentalized for diverse purposes The plurality of these constructions that Goethe's Urpflanze for example is not synonymous with Friedrich Schlegel's universal progressive poetry is but one manifestation of how assembly strives but fails to be absolute The other of assembly referenced in the title suggests two divergent but inseparable tendencies firstly how a construction can take on the appearance of a natural given and secondly how assemblages of wholeness harbor within themselves their own principle of disarticulation These two tendencies underlie the inexhaustible character of Romantic gatherings As a construction passes itself off as nature the natural fails to account for itself as a whole The scope of this volume encompasses the establishment mapping and interrogation of assembly and its other in German Romanticism through interdisciplinary studies on literature aesthetics philosophy drama music synaesthesia mathematics science and exploration List of contributors Beate Allert Frederick Burwick Alexis B Smith Margaret Strair Christina Weiler Joshua Wilner Werke: Fantasiestücke in Callots Manier.
