Inside Xinjiang Anna Hayes, Michael Clarke, 2015-12-14 The Xinjiang Uyghur Autonomous Region is China's largest province shares borders with Kazakhstan Kyrgyzstan Tajikistan Afghanistan Pakistan Russia and Mongolia and possesses a variety of natural resources including oil The tensions between ethnic Muslim Uyghurs and the growing number of Han Chinese in Xinjiang have recently increased occasionally breaking out into violence At the same time as being a potential trouble spot for China the province is of increasing strategic significance as China's gateway to Central Asia whose natural resources are of increasing importance to China This book focuses in particular on what life is like in Xinjiang for the diverse population that lives there It offers important insights into the social economic and political terrains of Xinjiang concentrating especially on how current trends in Xinjiang are likely to develop in the future In doing so it provides a broader understanding of the region and its peoples

The British National Bibliography Arthur James Wells, 2009 *Xinjiang* Michael Dillon, 2003-10-23 Xinjiang the nominally autonomous region in China's far northwest is of increasing international strategic and economic importance With a population which is mainly non Chinese and Muslim there are powerful forces for autonomy and independence in Xinjiang This book provides a comprehensive overview of Xinjiang It introduces Xinjiang's history economy and society and above all outlines the political and religious opposition by the Uyghur and other Turkic peoples of Xinjiang to Chinese Communist rule *Xinjiang in the Twenty-First Century* Michael Dillon, 2018-10-03 There has been a significant increase in the twenty first century in the frequency and intensity of violent incidents in the Xinjiang Uyghur Autonomous Region the far northwest province of China where the Uyghurs the Turkic speaking Muslim people who historically constituted the majority population feel themselves displaced and discriminated against by the growing in migration of Han Chinese The book explores the continuing unrest in Xinjiang It focuses in particular on the major violence of July 2009 in the city of Urumqi on repression and the practice of Islam in southern Xinjiang and on the policy of the Chinese Communist Party which has used the rhetoric of the War on Terror to justify its repression in terms which it hopes will gain sympathy from the international community The book relates these particular points to the development of China Uyghur relations more broadly in the longer historical perspective and concludes by discussing how the situation is likely to unfold in future

Contemporary China - An Introduction Michael Dillon, 2008-11-19 This book presents a concise introduction to contemporary China It is intended as a first book for those coming new to the subject providing the essential information that most people need to know without going into excessive detail Its coverage includes the economy society politics and international relations China's history especially the twentieth century and Taiwan and Hong Kong as well as the People's Republic of China The book provides an up to date and clear guide to the often bewildering changes which have taken place in China in the late twentieth and early twenty first centuries It draws on the enormous body of empirical and theoretical research that is being carried out by economists political scientists and sociologists on contemporary China but is

itself written in non technical and accessible language It does not assume any previous knowledge of China and explanations of Chinese terms are provided throughout the book It includes a map a chronology a glossary of Chinese terms biographical notes on key figures and a guide to further reading *Xinjiang and China's Rise in Central Asia - A History* Michael E. Clarke,2011-03-08 This book provides an account of how Beijing s evolving integrationist policies in Xinjiang have influenced its foreign policy in Central Asia since the establishment of the People s Republic in 1949 and how the policy of integration is related to China s concern for security and to its pursuit of increased power and influence in Central Asia **Xinjiang - China's Northwest Frontier** K. Warikoo,2016-03-02 Xinjiang is the pivot of Asia where the frontiers of China Tibet India Afghanistan Pakistan and Central Asia approach each other The growing Uyghur demand for a separate homeland and continuing violence in Xinjiang have brought this region into the focus of national and international attention With Xinjiang becoming the hub of trans Asian trade and traffic and also due to its rich energy resources Uyghur Muslims of Xinjiang are poised to assert their ethno political position thereby posing serious challenge to China s authority in the region This book offers a new perspective on the region with a focus on social economic and political developments in Xinjiang in modern and contemporary times Drawing on detailed analyses by experts on Xinjiang from India Central Asia Russia Taiwan and China this book presents a coherent concise and rich analysis of ethnic relations Uyghur resistance China s policy in Xinjiang and its economic relations with its Central Asian neighbours It is of interest to those studying in Chinese and Central Asian politics and society International Relations and Security Studies *Xinjiang and the Expansion of Chinese Communist Power* Michael Dillon,2014-08-01 Xinjiang China s far northwestern province where the majority of the population are Muslim Uyghurs was for most of its history contested territory On the Silk Road a region of overlapping cultures the province was virtually independent until the late nineteenth century nominally part of the Qing Empire with considerable interest taken in it by the British and the Russians as part of their Great Game rivalry in Asia Ruled by warlords in the early twentieth century it was occupied in 1949 50 by the People s Liberation Army since when attempts have been made to integrate the province more fully into China This book outlines the history of Xinjiang It focuses on the key city of Kashgar the symbolic heart of Uighur society drawing on a large body of records in which ordinary people provided information on the period around the communist takeover These records provide an exceptionally rich source showing how ordinary Uyghurs lived their everyday lives before 1949 and how those lives were affected by the arrival of the Chinese Communist Party and its army Subjects covered by the book include Eastern Turkestan independence regional politics local government the military taxation education and the press **Securing China's Northwest Frontier** David Tobin,2020-10 David Tobin analyses how Chinese nation building shapes identity and security dynamics between Han and Uyghurs in Xinjiang *Xinjiang Year Zero* Darren Byler,Ivan Franceschini,Nicholas Loubere,2022-01-25 Since 2017 the Chinese authorities have detained hundreds of thousands of Uyghurs Kazakhs and other Muslim minorities in reeducation camps in China s northwestern Xinjiang

autonomous region While the official reason for this mass detention was to prevent terrorism the campaign has since become a wholesale attempt to remould the ways of life of these peoples an experiment in social engineering aimed at erasing their cultures and traditions in order to transform them into civilised citizens as construed by the Chinese state Through a collection of essays penned by scholars who have conducted extensive research in the region this volume sets itself three goals first to document the reality of the emerging surveillance state and coercive assimilation unfolding in Xinjiang in recent years and continuing today second to describe the workings and analyse the causes of these policies highlighting how these developments insert themselves not only in domestic Chinese trends but also in broader global dynamics and third to propose action to heed the progressive Left's call since Marx to change the world and not just analyse it Xinjiang Year Zero provides an analysis of the processes of dispossession being experienced by Uyghurs and other indigenous peoples of China's Uyghur region that is sorely needed today Most politicians and their followers today whether on the left or the right view what is happening to the peoples of this region through a twentieth century lens steeped in dichotomies that are obsolete in describing the nature of states today those of capitalism vs socialism and democracy vs totalitarianism The contributors to this volume explore what is happening in Xinjiang in the context of the twenty first century's racialised and populist fuelled state power global capitalist exploitation and ubiquitous surveillance technology At the same time they invite the reader to reflect on how the processes of dispossession in the Uyghur region during the twenty first century are repeating the colonial practices of the nineteenth and twentieth centuries that have shaped our current global system of inequality and oppression The result offers an analysis of what is happening in Xinjiang that emphasises its interconnectedness to what is happening around us everywhere in the world If you believe that the repression in this region is a fabrication to manufacture consent for a cold war between the West and China you need to read this book Afterwards you will understand that if you want to stop a return to the twentieth century geopolitical conflicts embodied in the idea of a cold war you must establish solidarity with the Indigenous peoples of China's northwest and call for the end to the global processes fuelling their dispossession both inside China and outside Sean R Roberts Director of International Development Studies The George Washington University's Elliott School of International Affairs and author of The War on the Uyghurs Xinjiang Year Zero provides a highly readable and utterly necessary account of what is happening in Xinjiang and why By showing how the mass detentions of Uyghurs and other Xinjiang Muslims are linked to both global capitalism and histories of settler colonialism the edited book offers new ways of understanding the situation and thus working toward change A must read not only for those interested in contemporary China but also for anyone who cares about digital surveillance and dispossession around the globe Emily T Yeh University of Colorado Boulder author of Taming Tibet Landscape Transformation and the Gift of Chinese Development The crisis in Xinjiang has engendered its own crisis of interpretation and action at a time of growing geopolitical rivalry how to condemn the atrocities without supporting hawkish voices particularly among US politicians who seek to Cold War ise the US

relationship with Communist China How to critique China for colonialism racism assimilationism extra legal internment and coerced labour when many Western nations are built on a history of those same things Xinjiang Year Zero not only provides non specialists a thorough readable up to date account of events in Xinjiang This much needed book also offers a broader framing of the crisis drawing comparisons to settler colonialism elsewhere and revealing direct connections to global capitalism and to the rise of technological surveillance everywhere James A Millward Georgetown University author of Eurasian Crossroads A History of Xinjiang People, Place, Race, and Nation in Xinjiang, China David O'Brien, Melissa Shani Brown, 2022-11-14 In one of the only works drawing on interviews with both Uyghurs and Han in Xinjiang China and postcolonial perspectives on ethnicity nation and race this book explores how forms of banal racism underpin ideas of self and other assimilation and modernisation in this restive region Significant international attention has condemned the CCP's use of forced internment in re education camps as well as its campaign of cultural assimilation In this wider context this book focuses upon the ways in which ethnic difference is writ through the banalities of everyday life who one trusts what one eats where one shops even what time one's clocks are set to Xinjiang being perhaps one of the only places where different ethnic groups live by different time zones Alongside chapters focusing upon the coercive re education campaign and the devastating Rymchi Riots in 2009 this book also unpacks how discourses of Chinese nationalism romanticise empire and promote racialised ways of thinking about Chineseness how cultural assimilation Sinicisation is being justified through the rhetoric of modernisation how Islamic sites and Uyghur culture are being secularised and commodified for tourist consumption We also explore Uyghur and Han perspectives including of each other giving insight into the diversity of opinions within both groups Based on many years of living and working in China and fieldwork and interviews specifically in Xinjiang this book will be valuable to a variety of readers interested in the region and Uyghur and Han identity ethnic national identities in contemporary China and racisms in non western contexts **Xinjiang** S. Frederick Starr, 2004 Eastern Turkestan now known as Xinjiang or the New Territory makes up a sixth of China's land mass Absorbed by the Qing in the 1880s and reconquered by Mao in 1949 this Turkic Muslim region of China's remote northwest borders on formerly Soviet Central Asia Afghanistan Kashmir Mongolia and Tibet Will Xinjiang participate in China's twenty first century ascendancy or will nascent Islamic radicalism in Xinjiang expand the orbit of instability in a dangerous part of the world This comprehensive survey of contemporary Xinjiang is the result of a major collaborative research project begun in 1998 The authors have combined their fieldwork experience linguistic skills and disciplinary expertise to assemble the first multifaceted introduction to Xinjiang The volume surveys the region's geography its history of military and political subjugation to China economic social and commercial conditions demography public health and ecology and patterns of adaption resistance opposition and evolving identities **Xinjiang** S. Frederick Starr, 2015 *China, Xinjiang and Central Asia* Colin Mackerras, Michael Clarke, 2009 Central Asia and Xinjiang the far north western province of China are of increasing international importance The United

States having established military bases in Central Asia after September 2001 has now become a force in what was previously predominantly a Russian sphere of influence whilst China Russia and Iran all continue to exert strong influence These external international influences have had a significant impact on local politics with the overthrow of a long standing regime in Kyrgyzstan continued unrest and opposition to the current regime in Uzbekistan and the intensification of Chinese control in Xinjiang This book explores the effect of global and local dynamics across the region global influences include the War on Terror and international competition for energy resources local dynamics include Islamic revival Central Asian nationalism drugs trafficking economic development and integration The authors argue that these multiple challenges in fact unite Xinjiang and Central Asia in a common struggle for identities and economic development This book provides a comprehensive overview of the region s historical significance the contemporary international forces which affect the region and of current political economic and cultural developments

Language, Education and Uyghur Identity in Urban Xinjiang Joanne Smith Finley,2015

Xinjiang and the Chinese State Debasish Chaudhuri,2018 This book focuses on the nature of ethno national conflicts and impacts of ideological orientation of the Communist Party of China CPC towards the national question in the context of Han nationalism and political economic and security policies towards Xinjiang Violence in Xinjiang since the mid 1990s is projected as one of the major national security challenges for China along with issues pertaining to Tibet and Taiwan The author argues that the post Mao reformist model may have been a beneficial economic and political innovation but failed in dealing with regional conflicts and unrests arising out of the demands for independence freedom greater autonomy and assertion of democratic and civic rights The book discusses Chinese nationalism and the construction of Uyghur national identity consequences of economic modernization in the region ethnic conflicts and coercive measures the security and social stability situation in Xinjiang intensification of violence in Xinjiang under the new leadership vision of the Chinese dream key policies and programmes post riots fallouts and social contradictions manifest in discourses surrounding development separatist violence religious fundamentalism and international terrorism With its in depth accessible and comprehensive analyses this book will be a valuable addition to scholars and researchers of Chinese studies politics and international relations security and strategic studies sociology social anthropology and ethnic studies Provided by publisher
