Schoch, Robert Aguinas McNally, 2005-06-02 The Egyptologist acclaimed for redating the Great Sphinx at Giza sets his sights on one of the true mysteries of antiquity the Great Pyramid of Giza What is the Great Pyramid of Giza Ask that basic question of a traditional Egyptologist and you get the basic traditional answer a fancy tombstone for a self important pharaoh of the Old Kingdom This Egyptologists argue is the sole finding based on the data and the only deduction supported by science By implication anyone who dissents from this point of view is unscientific and woolly minded a believer in magic and ghosts Indeed some of the unconventional ideas about the Great Pyramid do have a spectacularly fabulous ring to them Yet from beneath the obvious terms of this controversy a deeper more significant question arises how is it that the Great Pyramid exercises such a gripping hold on the human psyche adding cryptic grace to the back of the one dollar bill and framing myriad claims of New Age pyramid power In Pyramid Quest Robert M Schoch and Robert Aquinas McNally use the rigorous intellectual analysis of scientific inquiry to investigate what we know about the Great Pyramid and develop a stunning hypothesis This ancient monument is the strongest proof yet that civilization began thousands of years earlier than is generally thought extending far back into a little known time In tracing that story we come to understand not only the Great Pyramid but also our own origins as civilized beings Hermetic Tablet Winter 2016 (paperback) Nick Farrell, 2016-12-15 The Hermetic Tablet is a bi annual Journal of Western Ritual Magic where people from all traditions share their experiences Some of the contributors are well known names in the occult field while others are just those who want to share knowledge and experiences with the public This issue includes articles written by the following writers Jake Stratton Kent Aaron Leitch Nick Farrell Chris Newton Jayne Gibson Tony Fuller Ina C sters Van Bergen Morgan Drake Eckstein and

Sutcliffe, Ingvild Saelid Gilhus, 2014-09-11 New Age and holistic beliefs and practices sometimes called the new spirituality are widely distributed across modern global society. The fluid and popular nature of new age makes these movements a very challenging field to understand using traditional models of religious analysis Rather than treating new age as an exotic specimen on the margins of proper religion New Age Spirituality examines these movements as a form of everyday or lived religion The book brings together an international range of scholars to explore the key issues insight healing divination meditation gnosis extraordinary experiences and interactions with gods spirits and superhuman powers Combining discussion of contemporary beliefs and practices with cutting edge theoretical analysis the book repositions new age spirituality at the forefront of the contemporary study of religion Rhetorics of Darkness Joshua Gresham Gunn, 2002 Bibliographic Guide to Psychology New York Public Library.
