**NeuroAuthority** Brian Ainsley Horn,2017-01-11 What is NeuroAuthority anyway At a high level it s the combination of neuroscience and authority marketing Neuromarketing is a new field of marketing research that studies consumers sensorimotor cognitive and affective response to marketing stimuli The technology is based on a model whereby the major thinking part of human activity over 90% including emotion takes place in the subconscious area that is below the levels of controlled awareness Authority marketing helps entrepreneurs leverage their knowledge to gain authority status in their industry This authority status then allows them to dramatically amplify their message and convert their new audience into higher paying customers In other words it s the process for positioning yourself as an authority or even a celebrity in your marketplace NeuroAuthority is the science of creating authority positioning in the subconscious area that is below the levels of controlled awareness It s using the proven tools of neuroscience to determine why we deem one person as an expert over another and then applying the research so you can use it to get more clients Traditional methods used by marketers won t trigger decisions at a subconscious level They just use whatever the shiny button is at the moment and hope that it will work Instead they should use a scientific approach to capture insights that predict why prospects will choose to follow respect and eventually buy from one person over another In his latest book Best Selling Author and Entrepreneur Brian Ainsley Horn reveals the concept of NeuroAuthority and uses case studies to back up his findings He also provides actionable applications of it for entrepreneurs small business owners and professionals **Click Here to Order**

The Empire of Mind Michael Strangelove, 2005-12-15 Where many critics see the Internet as an instrument of corporate hegemony Michael Strangelove sees something else an alternative space inhabited by communities dedicated to anarchic freedom culture jamming alternative journalism and resistance to authoritarian forms of consumer capitalism and globalization In The Empire of Mind Dr Strangelove the scholar Canadian Business referred to as the acknowledged dean of Internet entrepreneurs and Wired called the Canadian guru of Internet advertising presents the compelling argument that the Internet and new digital communication technology actually undermine the power of capital producing an alternative symbolic economy Strangelove contends that the Internet breaks

with the capitalist logic of commodification and that while television produces a passive consumer audience Internet audiences are more active creative and subversive Writers activists and artists on the Internet undermine commercial media and its management of consumer behaviour a behaviour that is challenged by the Web's tendency toward the disintegration of intellectual property rights Case studies describe the invention of new meaning given to cultural and consumer icons like Barbie and McDonald's and explore how novel modes of online news production alter the representation of the world as it is produced by the mainstream corporate press In the course of exploring new media The Empire of Mind also makes apparent that digital piracy will not be eliminated The Internet community effectively converts private property into public thereby presenting serious obstacles for the management of consumer behaviour and significantly eroding brand value Much to the dismay of the corporate sector online communities are disinterested in the ethics of private property In fact the entire philosophical framework on which capitalism is based is threatened by these alternative means of cultural production

United States. Congress. House. Committee on Small Business. Subcommittee on Regulatory Reform and Oversight, J. Howard Beales, 2003 *The Inevitable Decline and Fall of Empire* Errol Nelson, 2000-09-16 Janus The double faced Roman God of gates and doors beginnings and endings is an appropriate representation for a book about Empire The Inevitable Decline and Fall of Empire is an analysis of the system its origins in biology its evolution to Empire and its inevitable destination in a civilization of humanity Over the past 8000 years Empire has nurtured and evolved hierarchical legal business and religious systems that originate in our sentient selfish instincts and are maintained through privilege power and authority usurped by a few and it is sustained through two myths group sovereignty and spiritual dependency Humanity is at the threshold of a transition to a more inclusive era of civilization based more on our instincts for cooperation and coexistence The transition will be contentious and destructive to cultures and the corporate government business legal and religious systems they have established and perpetuated The irony is that the system will go through the transition anyway

even over the vehement resistance and objections of those that presently benefit and profit from the perquisites of Empire And to speed up the process the author has proposed a remedy a new Magna Carta and issues the following disclaimer

**Annual Institute on Computer Law** ,2004 *Great Empires, Small Nations* Josep M. Colomer,2007-09-12 Colomer s book is a stimulating read certainly for anyone willing to entertain nonconventional observations that hold up well in what is happening in the world His most important argument is that global public services such as security a trading system an international monetary regime and communication networks provided by large democratic entities such as the United States and the European Union provide opportunities for small countries and regions to prosper The successful smaller units like Ireland or Catalonia trade more in proportion to their economies than large ones are generally more democratic and have more multilingual populations I expect this book to be widely read and greatly admired Sidney Weintraub William E Simon Chair in Political Economy Centre for Strategic and International Studies Washington DC USA

**Imperial Pilgrims** Shawn A. Aghajan,2022-03-29 This book is an Augustinian interrogation of

contemporary Christian accounts of empire just war and terrorism Though Augustine's voice has guided much of the Christian discourse in these conjoined arenas it has not shielded his work from being misappropriated to serve ends that are inimical to his own The US war on terror is the most recent and egregious example of violence that many theologians have unjustly baptized as Augustinian By reading Augustine pastorally rather than merely polemically this work offers a counter narrative and an alternative praxis for the American Christian trying to reconcile her baptism with her citizenship

*Empires of Entertainment* Jennifer Holt, 2011-06-01 *Empires of Entertainment* integrates legal regulatory industrial and political histories to chronicle the dramatic transformation within the media between 1980 and 1996 As film broadcast and cable grew from fundamentally separate industries to interconnected synergistic components of global media conglomerates the concepts of vertical and horizontal integration were redesigned The parameters and boundaries of market concentration consolidation and government scrutiny began to shift as America's politics changed under the Reagan administration Through the use of case studies that highlight key moments in this transformation Jennifer Holt explores the politics of deregulation the reinterpretation of antitrust law and lasting modifications in the media landscape Holt skillfully expands the conventional models and boundaries of media history A fundamental part of her argument is that these media industries have been intertwined for decades and as such cannot be considered separately Instead film cable and broadcast must be understood in relation to one another as critical components of a common history *Empires of Entertainment* is a unique account of deregulation and its impact on political economy industrial strategies and media culture at the end of the twentieth century
