Bodner, Lyman H. Rickard, 2010-12-28 Chemistry Structure and Dynamics 5th Edition emphasises deep understanding rather than comprehensive coverage along with a focus on the development of inquiry and reasoning skills While most mainstream General Chemistry texts offer a breadth of content coverage the Spencer author team in contrast focuses on depth and student preparation for future studies The fifth edition is revised in keeping with our commitment to the chemical education community and specifically the POGIL Process Oriented Guided Inquiry Learning Project This text reflects two core principles first that the concepts that are covered are fundamental building blocks for understanding chemistry and second that the concepts should be perceived by the students as being directly applicable to their interests and careers The authors further provide this core coverage using 1 of 3 models data driven chemical theories and student understanding which allows for a more concrete foundation on which students build conceptual understanding *General, Organic, and Biochemistry Media Update* Ira Blei, George Odian, 2008-12-19 Blei and Odian s text gives students the tools they need to develop a working understanding of chemical principles rather than just asking them to memorize facts Now available in a new media enhanced version complete with its own online course space learning environment ChemPortal Blei Odian is better suited than ever to meet the needs of the students taking this course The Media Update version of Blei Odian includes references to dynamic interactive tutorials which provide a step by step walkthrough of concepts and problem solving skills as well as answer specific feedback and practice problems We recognize that all introductory courses are not alike For that reason we offer this text in three versions so you can choose the option that s right for you General Organic and Biochemistry cloth 0 7167 4375 2 paper 1 4292 0994 1 the comprehensive 26 chapter text An Introduction to General Chemistry 0 7167 7073 3 10 chapters that cover the core concepts in general chemistry Organic and Biochemistry 0 7167 7072 5 16 chapters that cover organic and biochemistry plus two introductory chapters that review general chemistry **Financial Management**
