John McWhorter

Losing The Race Self Sabotage In Black America:

Losing the Race John H. McWhorter, 2000 Explains why victimhood is exaggerated and enshrined in African American families and discusses why these attitudes are destructive to future generations

Winning the Race John McWhorter, 2005-12-29 In his first major book on the state of black America since the New York Times bestseller *Losing the Race* John McWhorter argues that a renewed commitment to achievement and integration is the only cure for the crisis in the African American community *Winning the Race* examines the roots of the serious problems facing black Americans today poverty drugs and high incarceration rates and contends that none of the commonly accepted reasons can explain the decline of black communities since the end of segregation in the 1960s Instead McWhorter posits that a sense of victimhood and alienation that came to the fore during the civil rights era has persisted to the present day in black culture even though most blacks today have never experienced the racism of the segregation era McWhorter traces the effects of this disempowering conception of black identity from the validation of living permanently on welfare to gansta rap's glorification of irresponsibility and violence as a means of protest He discusses particularly specious claims of racism attacks the destructive posturing of black leaders and the hip hop academics and laments that a successful black person must be faced with charges of acting white While acknowledging that racism still exists in America today McWhorter argues that both blacks and whites must move past blaming racism for every challenge blacks face and outlines the steps necessary for improving the future of black America

Authentically Black John McWhorter, 2003-01-27 The critically acclaimed book from the bestselling author of *Losing the Race* and *The Power of Babel* John McWhorter is one of the most original and provocative thinkers on the issue of race in America today In *Authentically Black* McWhorter argues that although African Americans stress hard work and initiative in private they have assumed the mantle of victimhood in the eyes of the public and have thereby created a distorted meaning of what it is to be authentically black McWhorter takes on this mentality and its debilitating implications in topics ranging from rap music to the reparations movement to the portrayal of African Americans on television to racial profiling injecting new ideas and a fresh approach into the nationwide debate on race *Authentically Black* is a powerful and important book that will inform and influence the opinions of Americans across all racial and political spectra

Racial Oppression in the Global Metropolis Paul Louis Street, 2007 Anti black racism is a stark presence in Chicago a fact illustrated by significant racial inequality in and around contemporary global city Drawing his work as a civil rights advocate and investigator in Chicago Street explains this neo liberal apartheid and its resulting disparity in terms of persistently and deeply racist societal and institutional practices and policies *Racial Oppression in the Black Metropolis* uses the highly relevant historical and sociological laboratory that is Chicago in order to explain the racist societal and institutional practices and policies which still typify the United States Street challenges dominant neoconservative explanations of the black urban crisis that emphasize personal irresponsibility and cultural failure Looking to the other side of the ideological isle he

criticizes liberal and social democratic approaches that elevate class over race and challenges many observers sharp distinction between present and so called past racism In questioning the supposedly inevitable reign of urban neoliberalism Street also investigates the real racial politics of the United States and finds that parties and ideologies matter little on matters of race This innovative work in urban history and cultural criticism will inform contemporary social science and policy debates for years to come

Should Race Matter? David Boonin,2011-11-14 In this book philosopher David Boonin attempts to answer the moral questions raised by five important and widely contested racial practices slave reparations affirmative action hate speech restrictions hate crime laws and racial profiling Arguing from premises that virtually everyone on both sides of the debates over these issues already accepts Boonin arrives at an unusual and unorthodox set of conclusions one that is neither liberal nor conservative color conscious nor color blind Defended with the rigor that has characterized his previous work but written in a more widely accessible style this provocative and important new book is sure to spark controversy and should be of interest to philosophers legal theorists and anyone interested in trying to resolve the debate over these important and divisive issues

Rethinking Racial Uplift Nigel I. Malcolm,2022-12-28 2023 CHOICE Outstanding Academic Title In 1903 W E B Du Bois wrote about the Talented Tenth in an influential essay of the same name The concept exalted college educated Blacks who Du Bois believed could provide the race with the guidance it needed to surmount slavery segregation and oppression in America Although Du Bois eventually reassessed this idea the rhetoric of the Talented Tenth resonated still holding sway over a hundred years later In Rethinking Racial Uplift Rhetorics of Black Unity and Disunity in the Obama Era author Nigel I Malcolm asserts that in the post civil rights era racial uplift has been redefined not as Black public intellectuals lifting the masses but as individuals securing advantage for themselves and their children Malcolm examines six best selling books published during Obama s presidency including Randall Kennedy s Sellout Bill Cosby s and Alvin Poussaint s Come On People and Ta Nehisi Coates s Between the World and Me and critically analyzes their rhetorics on Black unity disunity and the so called postracial era Based on these writings and the work of political and social scientists Malcolm shows that a large often ignored percentage of Blacks no longer see their fate as connected with that of other African Americans While many Black intellectuals and activists seek to provide a justification for Black solidarity not all agree In Rethinking Racial Uplift Malcolm takes contemporary Black public intellectual discourse seriously and shows that disunity among Blacks a previously ignored topic is worth exploring

Consumer Credit, Debt and Bankruptcy Johanna Niemi,Iain Ramsay,William C. Whitford,2009-07-15 After a long period of prosperity and steady economic growth the world s leading economies are now in crisis and although there will be debate about its origins the scale and seriousness of the crisis is in no doubt There is also no doubt that excessive amounts of consumer credit allied to a weak understanding of how globalised credit markets might react to a crisis have played a significant part This book which is primarily about credit debt and the trouble they have led to is written by authors who have specialised in researching into over indebtedness that is situations in which an individual s debt burden has become overwhelming For these authors the plight of individuals is a primary concern but the wider issue is how credit is used and how it changes societies The essays in this volume addressing topics which are fundamental to our understanding of the current crisis range widely across the whole sector of consumer finance including mortgages credit binges the regulation of consumer lending insolvency repayment plans debt counselling and much more besides The conclusions drawn from the book are equally wide ranging but above all the lesson learned from these essays is that the financialisation of contemporary life ensures that issues of the appropriate role of credit remain of critical importance in society

The Social Psychology of Collective Victimhood Johanna Ray Vollhardt,2020-04-23 Throughout the world many continue to experience collective violence and its long lasting consequences This book examines the social psychological processes involved in experiences of collective victimization and oppression as well as the consequences of these experiences for individuals and for relations within and between groups In twenty chapters authors explore questions such as How are experiences of collective victimization passed down and understood How do people cope with and make sense of these experiences Who is included and excluded from the category of victims and what are the psychological consequences of such denial versus acknowledgment of collective victimization And finally what are the ethics of researching collective victimization especially when these experiences are recent or politically contested The authors examine these questions and others across a range of different contexts of collective violence in different parts of the world including ethnic and religious conflicts the aftermath of genocides post Apartheid consequences of settler colonialism racism the caste system and national

histories of victimization **Black Women in Interracial Relationships** Kellina Craig-Henderson,2011-12-31 According to the most recent U S census twice as many black men are involved in interracial relationships as black women Do black women consciously resist such involvement What motivates the relatively few women who are in these types of relationships And how do they navigate the unfamiliar terrain in intimacy One of the most popular explanations for black women s involvement in interracial intimacy is the unavailability of eligible black men This explanation focuses on the dismal statistics popularly discussed in reports that forecast lonely futures for African American females Craig Henderson explores another more provocative explanation She argues that some black women may disassociate from larger social stereotypes by consciously and strategically making choices that distance them from what is considered characteristic of the typical African American woman Scant serious attention has focused upon intimate interracial relationships perhaps because of a general reluctance to deal with two extremely provocative issues race and sex As rates of interracial relationships continue to increase discussions about interracial intimacy are relevant and timely Craig Henderson considers the continuing taboo of interracial relationships involving African Americans the way this taboo is changing and the way that contemporary race relations perpetuate longstanding stereotypes about race and sex The book includes in depth unstructured interviews with a wide range of black women currently involved in interracial intimate relationships Each individual discusses their relationships with family members beliefs about the influence of race in America unique problems associated with interracial intimacy as well as sexual attraction racial identity and children Of particular interest to specialists in race gender family and sexual issues this work is also accessible and appealing to general readers **From Family Collapse to America's**

Decline Mitch Pearlstein,2011-09-16 Very high rates of family fragmentation in the United States are subtracting from what very large numbers of students are learning in school and forever holding them back in many other ways This in turn is damaging the country economically by making us less primed for innovation while also making millions of Americans less competitive in an increasingly demanding worldwide marketplace All of which is leading and can only lead to deepening class divisions in a nation which has never viewed itself or operated in such splintered ways What can be done to reverse these severely destructive trends starting with reducing the enormous number of children forced to grow up with only one parent living under the same roof What educational reforms are most likely to help under such demanding circumstances And as dangerous as the situation is why do leaders in education and other fields persist for both understandable and less worthy reasons in dancing around profoundly important questions of family breakdown to the point of contortion and ultimately failure **Race, Wrongs, and Remedies** Amy L. Wax,2009-07-16 Black Americans continue to lag behind on many measures of social and economic well being Conventional wisdom holds that these inequalities can only be eliminated by eradicating racism and providing well funded social programs In Race Wrongs and Remedies Amy L Wax applies concepts from the law of remedies to show that the conventional wisdom is mistaken She argues that effectively addressing today s

persistent racial disparities requires dispelling the confusion surrounding blacks own role in achieving equality The evidence overwhelmingly suggests that discrimination against blacks has dramatically abated The most important factors now impeding black progress are behavioral low educational attainment poor socialization and work habits drug use criminality paternal abandonment and non marital childbearing Although these maladaptive patterns are largely the outgrowth of past discrimination and oppression they now largely resist correction by government programs or outside interventions Wax asserts that the black community must solve these problems from within Self help changed habits and a new cultural outlook are in fact the only effective tactics for eliminating the present vestiges of our nation s racist past Published in cooperation with the Hoover Institution *Race, Liberalism, and Economics* David Colander,Robert E. Shultz,David Wellman,2023-01-03 In an updated new edition of this classic work a team of highly respected sociologists political scientists economists criminologists and legal scholars scrutinize the resilience of racial inequality in twenty first century America *Whitewashing Race* argues that contemporary racism manifests as discrimination in nearly every realm of American life and is further perpetuated by failures to address the compounding effects of generations of disinvestment Police violence mass incarceration of Black people employment and housing discrimination economic deprivation and gross inequities in health care combine to deeply embed racial inequality in American society and economy Updated to include the most recent evidence including contemporary research on the racially disparate effects of the Covid 19 pandemic this edition of *Whitewashing Race* analyzes the consequential and ongoing legacy of disaccumulation for Black communities and lives While some progress has been made the authors argue that real racial justice can be achieved only if we actively attack and undo pervasive structural racism and its legacies *Race, Equity, and Education* Pedro Noguera,Jill Pierce,Roey Ahram,2015-11-14 This powerful and timely analysis takes stock of race and education sixty years after the historic Brown vs Board of Education decision This volume examines education as one of the most visible markers for racial disparities in the US as well as one of its most visible frontiers for racial justice Featuring original research educators insights and perspectives from communities of color it documents the complex impact of social educational policy on social progress Chapters on charter schools curriculum content performance measurement and disproportionalities in special education referrals shed light on entrenched inequities that must be confronted The book also makes it clear that leveling the playing field calls for not only better schools but also addressing pervasive social problems such as poverty and housing segregation Included in the coverage School Policy is Housing Policy Deconcentrating Disadvantage to Address the Achievement Gap Charter Schooling Race Politics and an Appeal to History The Data Quality Movement for the Asian American and Pacific Islander community an unresolved civil rights issue Critical Ethnic Studies in High School Classrooms Academic Achievement

Harris, Rosalyn Terborg-Penn, 2006 A multifaceted approach to understanding the central developments in African American history since 1939 It combines a historical overview of key personalities and movements with essays on specific facets of the African American experience a chronology of events and a guide to further study From publisher description **Almost All Aliens** Paul Spickard, 2009-05-07 Almost All Aliens offers a unique reinterpretation of immigration in the history of the United States Leaving behind the traditional melting pot model of immigrant assimilation Paul Spickard puts forward a fresh and provocative reconceptualization that embraces the multicultural reality of immigration that has always existed in the United States His astute study illustrates the complex relationship between ethnic identity and race slavery and colonial expansion Examining not only the lives of those who crossed the Atlantic but also those who crossed the Pacific the Caribbean and the North American Borderlands Almost All Aliens provides a distinct inclusive analysis of immigration and identity in the United States from 1600 until the present For additional information and classroom resources please visit the Almost All Aliens companion website at www.routledge.com/textbooks/almostallaliens **The Changing Terrain of Race and Ethnicity** Maria Krysan, Amanda E. Lewis, 2004-11-11 The legal institutions of overt racism in the United States have been eliminated but social surveys and investigations of social institutions confirm the continuing significance of race and the enduring presence of negative racial attitudes This shift from codified and explicit racism to more subtle forms comes at a time when the very boundaries of race and ethnicity are being reshaped by immigration and a rising recognition that old systems of racial classification inadequately capture a diverse America In The Changing Terrain of Race and Ethnicity editors Maria Krysan and Amanda Lewis bring together leading scholars of racial dynamics to study the evolution of America's racial problem and its consequences for race relations in the future The Changing Terrain of Race and Ethnicity opens by attempting to answer a puzzling question how is it that so many whites think racism is no longer a problem but so many nonwhites disagree Sociologist Lawrence Bobo contends that whites exhibit what he calls laissez faire racism which ignores

historical and structural contributions to racial inequality and does nothing to remedy the injustices of the status quo Tyrone Forman makes a similar case in his chapter contending that an emphasis on color blindness allows whites to be comforted by the idea that all races are on a level playing field while not recognizing the advantages they themselves have reaped from years of inequality The book then moves to a discussion of the new ways that Americans view race Eduardo Bonilla Silva and Karen Glover argue that the United States is moving from a black white divide to a tripartite system where certain light skinned non threatening minority groups are considered honorary whites The book s final section reexamines the theoretical underpinnings of scholarship on race and ethnicity Joe Feagin argues that research on racism focuses too heavily on how racial boundaries are formed and needs to concentrate more on how those boundaries are used to maintain privileges for certain groups at the expense of others Manning Marable contends that racism should be addressed at an institutional level to see the prevalence of structural racism deeply entrenched patterns of inequality that are coded by race and justified by stereotypes The Changing Terrain of Race and Ethnicity provides an in depth view of racism in modern America which may be less conspicuous but not necessarily less destructive than its predecessor Jim Crow The book s rich analysis and theoretical insight shed light on how despite many efforts to end America s historic racial problem it has evolved and persisted into the 21st century
