Lost Wild America Robert M. McClung,1969 A detailed study of American wild life shows the devastation caused by civilization and traces the growth of the conservation movement *Reading Programs for Young Adults* Martha Seif Simpson,2015-11-16 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage participation 10 theme related activities curriculum tie in activities sample questions for use in trivia games or scavenger hunts ideas for activity sheets a bibliography of related works and a list of theme related films The units are highly flexible allowing any public or school library to adapt them to their particular needs **Wildlife Research Report** ,1972

Mendel's Ark Amy Lynn Fletcher,2014-09-19 Does extinction have to be forever As the global extinction crisis accelerates conservationists and policy makers increasingly use advanced biotechnologies such as reproductive cloning polymerase chain reaction PCR and bioinformatics in the urgent effort to save species Mendel s Ark considers the ethical cultural and social implications of using these tools for wildlife conservation Drawing upon sources ranging from science to science fiction it focuses on the stories we tell about extinction and the meanings we ascribe to nature and technology The use of biotechnology in conservation is redrawing the boundaries between animals and machines nature and artifacts and life and death The new rhetoric and practice of de extinction will thus have significant repercussions for wilderness and for society The degree to which we engage collectively with both the prosaic and the fantastic aspects of biotechnological conservation will shape the boundaries and ethics of our desire to restore lost worlds *Technical Note* ,1976 **The Fish and Wildlife Job on the National Forests** Theodore Catton,1998 **Science and Mathematics Books for Elementary and Secondary Schools** ,1970 Science Books ,1969 **Life in a River** Valerie Rapp,2002-01-09 Using the Columbian River Basin as an example explores the ecosystems of rivers of all sizes in mountains and valleys and discusses the impact of human interaction **Princeton Alumni Weekly** ,1976 **Catalog of Copyright Entries. natural influences affect the quality of the inorganic and biotic components of the biosphere as well as the human environment The text discusses the sources of air pollution the different toxic elements naturally occurring contamination or anthropogenic sources and acidifying substances or acid rain The author also cites several studies that deal with the reclamation of acidified bodies of water Another topic the author addresses is declining forest areas he then cites several case studies of this occurrence such as those by Fowells 1965 Hepting 1971 and Auclair 1987 The text also investigates the ecological effects of oil pollution caused during the refining process and transportation The author then examines the general response patterns to ecological stress The text is intended for advanced students of environmental ecology and environmental science as well as for ecologists environmentalists and urban planners and officials *Bibliography of Fossil Vertebrates, 1969-1972* ,1973 **Life in a Lake** Melissa Stewart,2003-01-01 Describes how Lake Superior was formed and the interdependence of the plants and animals that live in and around it **Wisconsin Library Bulletin** ,1969
