Figueroa, 2023-07-03 Latino males are effectively vanishing from the American higher education pipeline Even as the number of Latinas/os attending college has actually increased steadily over the last few decades the proportional representation of Latino males continues to slide relative to their Latina female counterparts The question of why Latino males are losing ground in accessing higher education relative to their peers is an important and complex one and it lies at the heart of this book There are several broad themes highlighted catalogued along with the four dimensions of policy theory research and practice The contributors to this book present new research on factors that inhibit

or promote Latino success in both four year institutions and community colleges in order to inform both policy and practice They explore the social cultural factors peer dynamics and labor force demands that may be perpetuating the growing gender gap and consider what lessons can be learned from research on the success of Latinas This book also closely examines key practices that enable first generation Latino male undergraduates to succeed which may seem counterintuitive to institutional expectations and preconceived notions of student behavior Using narrative data the book also explores the role of family in persistence outlines how Latino men conceptualize fulfilling expectations negotiate the emasculation of the educational process and how they confront racialization in the pursuit of a higher education uncovers attitudes to help seeking that are detrimental to their success and analyzes how those who succeed and progress in college apply their social capital whether aspirational navigational social linguistic familial or resistant While uncovering the lack of awareness at all levels of our colleges and universities about the depth and severity of the challenges facing Latino males this book provides the foundation for rethinking policy challenges leaders to institutionalize male focused programs and services and presents data to inform needed changes in practice for outreach and retention

Geisha of a Different Kind C. Winter Han, 2015-05-08 In gay bars and nightclubs across America and in gay oriented magazines and media the buff macho white gay man is exalted as the ideal the most attractive the most wanted and the most emulated type of man For gay Asian American men often viewed by their peers as submissive or too pretty being sidelined in the gay community is only the latest in a long line of racially motivated offenses they face in the United States Repeatedly marginalized by both the white centric queer community that values a hyper masculine sexuality and a homophobic Asian American community that often privileges masculine heterosexuality gay Asian American men largely have been silenced and alienated in present day culture and society In Geisha of a Different Kind C Winter Han travels from West Coast Asian drag shows to the internationally sought after Thai kathoey or ladyboy to construct a theory of queerness that is inclusive of the race and gender particularities of the gay Asian male experience in the United States Through ethnographic observation of queer Asian American communities and Asian American drag shows interviews with

gay Asian American men and a reading of current media and popular culture depictions of Asian Americans Han argues that gay Asian American men used to gender privilege within their own communities must grapple with the idea that as Asians they have historically been feminized as a result of Western domination and colonization and as a result they are minorities within the gay community which is itself marginalized within the overall American society Han also shows that many Asian American gay men can turn their unusual position in the gay and Asian American communities into a positive identity In their own conception of self their Asian heritage and sexuality makes these men unique special and in the case of Asian American drag queens much more able to convey a convincing erotic femininity Challenging stereotypes about beauty nativity and desirability *Geisha of a Different Kind* makes a major intervention in the study of race and sexuality in America
