Flags in the Window Norman K. Denzin, 2007 Written over a four year period and originally conceived as Notes from a Homeland War Diary these concise provocative essays record on going reactions reports from the war zone to what Joan Didion calls the new normal under the Bush Administration They rethink questions of power political authority patriotism democracy science civil society and the academy Flags in the Window should be read by everyone who has an interest in the alternative view of the Iraq War

No Right Turn David T. Courtwright, 2010-10 Few question the right turn America took after 1966 when liberal political power began to wane But if they did No Right Turn suggests they might discover that all was not really right with the conservative golden age A provocative overview of a half century of American politics the book takes a hard look at the counterrevolutionary dreams of liberalism's enemies to overturn people's reliance on expanding government reverse the moral and sexual revolutions and win the Culture War and finds them largely unfulfilled David Courtwright deftly profiles celebrated and controversial figures from Clare Boothe Luce Barry Goldwater and the Kennedy brothers to Jerry Falwell David Stockman and Lee Atwater He shows us Richard Nixon's keen talent for turning popular anxieties about morality and federal meddling to Republican advantage and his inability to translate this advantage into reactionary policies Corporate interests boomer lifestyles and the media weighed heavily against Nixon and his successors who placated their base with high profile attacks on crime drugs and welfare dependency Meanwhile religious conservatives floundered on abortion and school prayer obscenity gay rights and legalized vices like gambling and fiscal conservatives

watched in dismay as the bills mounted We see how President Reagan's mélange of big government strong defense lower taxes higher deficits mass imprisonment and patriotic symbolism proved an illusory form of conservatism Ultimately conservatives themselves rebelled against George W Bush's profligate brand of Reaganism Courtwright's account is both surprising and compelling a bracing argument against some of our most cherished clichés about recent American history

Lake Wobegon Days Garrison Keillor,1990-04-01 Lake Wobegon Days is about the way our beliefs desires and fears tail off into abstractions and get renewed from time to time this book unfolding Mr Keillor's full design is a genuine work of American history The New York Times A comic anatomy of what is small and ordinary and therefore potentially profound and universal in American life Keillor's strength as a writer is to make the ordinary extraordinary Chicago Tribune Keillor's laughs come dear not cheap emerging from shared virtue and good character from reassuring us of our neighborliness and strength His true subject is how daily life is shot with grace Keillor writes a prose that can be turned to laughter to tears to compassion or satire to a hundred effects He is a brilliant parodist San Francisco Chronicle *Marking Time* Rev. Barbara K. Lundblad,2010-09-01 The preacher is too often caught between biblical and contemporary time Residing first in one then in the other the preacher must somehow find a way to bring the two times separate as they might seem together The temptation of course is to capitulate to one side or the other of this tension The preacher can reside solely in the biblical time offering the congregation what amounts to weekly lectures on history and archeology spiced up with the occasional moralistic conclusion Or setting up shop permanently in contemporary time she or he can offer commentaries on society and culture that occasionally tip their hats in the direction of Scripture A third way contends Barbara Lundblad lies in marking time a way of allowing biblical time to speak to the contemporary world and vice versa When the preacher marks time he or she admits that there can be no one to one correspondence between the world of the text and the world of the congregation Nevertheless the preacher demonstrates that when the biblical text is let loose upon our day to day existence it challenges and judges redeems and sanctifies it infusing it with new meaning Likewise contemporary situations needs and experiences open up new possibilities within Scripture allowing the congregation to see truth in the text they had never before discovered there allowing them to discern the leading of the Spirit through the text and into the present moment In this volume which grows out of Lundblad's 2000 Beecher Lectures delivered at Yale Divinity School the author presents both an argument for the ongoing intersection of the biblical and contemporary worlds and examples of how that intersection might take place

The Case for Universal Health Care David Colton,2019-10-01 With the exception of the United States all developed nations provide their citizens with quality affordable health care And despite its having expanded access through such programs as Medicare Medicaid SCHIP and the Affordable Care Act nearly 20 million Americans still do not have health insurance The cost of providing care in the United States will soon be unsustainable It surely makes sense to consider an option that ensures health care is accessible to all its citizens and is fully funded regardless of vicissitudes in the national

Politics of Fear Manuel G. Gonzales, Richard Delgado, 2015-12-03 Lucidly written widely informed and uncompromisingly honest a valuable expose Michael Parenti Documents the stunning success of a network of wealthy donors and corporations in creating and sustaining a set of think tanks legal action groups and media strategies Gary Orfield Harvard University What explains the electoral success of Republicans particularly of the ascendant neoconservatives who now dominate the Party Based on a thorough and up to date examination of the New Right over twenty five years The Politics of Fear proposes some provocative answers including globalization new technologies and a far reaching network of right wing think tanks and foundations As the authors show all have opened the doors to a new politics of fear successfully waged by the neoconservatives By manipulating insecurity the New Right has created an extraordinarily successful populist conservative movement Utilizing extensive documentation the authors argue convincingly that the fear of immigrants and racial minorities has served as the most effective tactic in the GOP arsenal while their approach also implicates gays feminists and terrorists The book explains why Americans have willingly supported a party that promises them security just as it delivers greater economic and political insecurity The authors argue that despite their striking political successes neoconservatives have delivered to voters a set of policies harmful to working Americans in the way of regressive tax measures military exploits tort reform deregulation and environmental destruction **Fast Families, Virtual Children** Ben Agger, Beth Anne

Shelton, 2016-01-20 The Internet cell phones and other technologies have changed the ways in which people conduct their family lives raise children and navigate the blurry boundary between work and home Private life is colonized by employers teachers corporations family time is taken up by work homework and shopping What it means to be parents and children has changed dramatically This book shows how the nurturance of family has increasingly become a willful radical idea in an era of pervasive technology The authors analyze important trends including the acceleration and attenuation of childhood and offer a children s bill of rights and accompanying parental responsibilities **Dissent from War** Robert L. Ivie, 2007 The

rhetorical presumption of war's necessity makes violence regrettable but seemingly sane and functions to shame anyone who opposes military action. Ivie proposes that the presence of dissent is actually a healthy sign of democratic citizenship and a responsible and productive act which has been dangerously miscast as a threat to national security. Ivie, a former US Navy petty officer, puts a microscope to the language of war supporters throughout history and follows the lives and memories of soldiers and anti-war activists who have dealt with degrees of confusion and guilt about their opposition to war. Arguing that informed dissent plays out largely in the realm of rhetoric, he equips readers with strategies for resisting the dehumanizing language used in war propaganda. Through his careful study of language strategies, he makes it possible to foster a community where dissenting voices are valued and vital.

The Senator Next Door Amy Klobuchar, 2015-08-25 One of the U.S. Senate's most candid and funniest women tells the story of her life and her unshakeable faith in our democracy. Minnesota Senator Amy Klobuchar has tackled every obstacle she's encountered: her parents' divorce, her father's alcoholism and recovery, her political campaigns, and Washington's gridlock, with honesty, humor, and pluck. Now in *The Senator Next Door*, she chronicles her remarkable heartland journey from her immigrant grandparents to her middle-class suburban upbringing to her rise in American politics. After being kicked out of the hospital while her infant daughter was still in intensive care, Klobuchar became the lead advocate for one of the first laws in the country guaranteeing new moms and their babies a 48-hour hospital stay. Later, she ran Minnesota's biggest prosecutor's office, and in 2006 was the first woman elected to the U.S. Senate from her state. Along the way, she fashioned her own political philosophy grounded in her belief that partisan flame-throwing takes no courage at all; what really matters is forging alliances with unlikely partners to solve the nation's problems. Optimistic, plainspoken, and often very funny, *The Senator Next Door* is a story about how the girl next door decided to enter the fray and make a difference. At a moment when America's government often seems incapable of getting anything done, Amy Klobuchar proves that politics is still the art of the possible.

Branding Texas Leigh Clemons, 2013-05-15 Ask anyone to name an archetypal Texan, and you're likely to get a larger-than-life character from film or television: say John Wayne's Davy Crockett or J.R. Ewing of TV's *Dallas*, or a politician with that certain swagger: think LBJ or George W. Bush. That all of these figures are white and male and bursting with self-confidence is

no accident asserts Leigh Clemons In this thoughtful study of what makes a Texan she reveals how Texan identity grew out of the history and even more the myth of the heroic deeds performed by Anglo men during the Texas Revolution and the years of the Republic and how this identity is constructed and maintained by theatre and other representational practices Clemons looks at a wide range of venues in which Texanness is performed including historic sites such as the Alamo the battlefield at Goliad and the San Jacinto Monument museums such as the Bob Bullock Texas State History Museum seasonal outdoor dramas such as Texas at Palo Duro Canyon films such as John Wayne's The Alamo and the IMAX's Alamo The Price of Freedom plays and TV shows such as the Tuna trilogy Dallas and King of the Hill and the Cavalcade of Texas performance at the 1936 Texas Centennial She persuasively demonstrates that these performances have created a Texan identity that has become a brand a commodity that can be sold to the public and even manipulated for political purposes

Texting Toward Utopia Ben Agger, 2015-11-17 This book examines the contemporary era where parents complain that children today don't do their homework because they are distracted by the Internet texting and video games Texting Toward Utopia presents the writings of today's children and develops the argument that this is actually a time of mass literacy in which young people write furiously albeit often below the adult radar Agger argues that where texting replaces textbooks the writing may be emoticon laden slangy or terse but it is still profound as children and their parents engage in resistance and write for a better world This book is a guide to understanding the meeting point between a new generation of children and new communication technologies

Key Concepts in Critical Cultural Studies Linda Steiner, Clifford Christians, 2010-10-01 This volume brings together sixteen essays on key and intersecting topics in critical cultural studies from major scholars in the field Taking into account the vicissitudes of political social and cultural issues the contributors engage deeply with the evolving understanding of critical concepts such as history community culture identity politics ethics globalization and technology The essays address the extent to which these concepts have been useful to scholars policy makers and citizens as well as the ways they must be rethought and reconsidered if they are to continue to be viable Each essay considers what is known and understood about these concepts The essays give particular attention to how relevant ideas themes and terms were developed elaborated and deployed in the work of James W Carey the founding father of cultural studies in the United States The contributors map how

these important concepts including Carey's own work with them have evolved over time and how these concepts intersect. The result is a coherent volume that redefines the still emerging field of critical cultural studies. Contributors are Stuart Allan, Jack Zeljko, Bratich Clifford, Christians Norman, Denzin Mark, Fackler Robert, Fortner Lawrence, Grossberg Joli, Jensen Steve, Jones John, Nerone Lana, Rakow Quentin, J. Schultze Linda, Steiner Angharad, N. Valdivia Catherine, Warren Frederick, Wasser and Barbie Zelizer. **The Celtic Way of Evangelism, Tenth Anniversary Edition** Dr. George G. Hunter III, 2011-11-01

Celtic Christianity, the form of Christian faith that flourished among the people of Ireland during the Middle Ages, has gained a great deal of attention lately. George G. Hunter III points out that while the attention paid to the Celtic Christians is well deserved, much of it fails to recognize the true genius of this ancient form of Christianity. What many contemporary Christians do not realize is that Celtic Christianity was one of the most successfully evangelistic branches of the church in history. The Celtic church converted Ireland from paganism to Christianity in a remarkably short period and then proceeded to send missionaries throughout Europe. North America is today in the same situation as the environment in which the early Celtic preachers found their mission fields unfamiliar with the Christian message yet spiritually seeking and open to a vibrant new faith. If we are to spread the gospel in this culture of secular seekers, we would do well to learn from the Celts. Their ability to work with the beliefs of those they evangelized to adapt worship and church life to the indigenous patterns they encountered remains unparalleled in Christian history. If we are to succeed in reaching the West again, then we must begin by learning from these powerful witnesses to the saving love of Jesus Christ. This classic book on the power of indigenous evangelism has been thoroughly revised and updated, proving once again how much these ancient Christians have to teach anyone who seeks to spread the word of the gospel. *Makers and Takers* Peter Schweizer, 2008-06-03

In *Makers and Takers*, you will discover why seventy-one percent of conservatives say you have an obligation to care for a seriously injured spouse or parent versus less than half (46 percent) of liberals. Conservatives have a better work ethic and are much less likely to call in sick than their liberal counterparts. Liberals are 2 times more likely to be resentful of others' success and 50 percent more likely to be jealous of other people's good luck. Liberals are 2 times more likely to say it is okay to cheat the government out of welfare money you don't deserve. Conservatives are more likely than liberals to hug their children and significantly more likely to display positive nurturing emotions. Liberals are less trusting of family members and much less likely to stay in touch with their parents. Do you get satisfaction from putting someone else's happiness ahead of your own? Fifty-five percent of conservatives said yes versus only 20 percent of liberals. Rush Limbaugh, Ronald Reagan, Bill O'Reilly, and Dick Cheney have given large sums of money to people in need, while Ted Kennedy, Nancy Pelosi, Michael Moore, and Al Gore have not. Those who are very liberal are 3 times more likely than conservatives to throw things when they get angry. The American left prides itself on being superior to conservatives: more generous, less materialistic, more tolerant, more intellectual, and more selfless. For years, scholars have constructed and the media has pushed elaborate theories designed to demonstrate that conservatives suffer

from a host of personality defects and character flaws According to these supposedly unbiased studies conservatives are mean spirited greedy selfish malcontents with authoritarian tendencies Far from the belief of a few cranks prominent liberals from John Kenneth Galbraith to Hillary Clinton have succumbed to these prejudices But what do the facts show Peter Schweizer has dug deep through tax documents scholarly data primary opinion research surveys and private records and has discovered that these claims are a myth Indeed he shows that many of these claims actually apply more to liberals than conservatives Much as he did in his bestseller Do as I Say Not as I Do he brings to light never before revealed facts that will upset conventional wisdom Conservatives such as Ronald Reagan and Robert Bork have long argued that liberal policies promote social decay Schweizer using the latest data and research exposes how in general Liberals are more self centered than conservatives Conservatives are more generous and charitable than liberals Liberals are more envious and less hardworking than conservatives Conservatives value truth more than liberals and are less prone to cheating and lying Liberals are more angry than conservatives Conservatives are actually more knowledgeable than liberals Liberals are more dissatisfied and unhappy than conservatives Schweizer argues that the failure lies in modern liberal ideas which foster a self centered if it feels good do it attitude that leads liberals to outsource their responsibilities to the government and focus instead on themselves and their own desires
