de ABC **El Anticlericalismo español contemporáneo** Manuel Suárez Cortina, 1998 La historia española ha conocido desde los orígenes de la contemporaneidad la manifestación de un anticlericalismo persistente expresada en la oposición de amplios sectores sociales y políticos a la Iglesia y sus marcos culturales e institucionales y del proceso de secularización que ha caracterizado a las sociedades contemporáneas El anticlericalismo alcanzó por igual a las elites intelectuales que a las masas populares Los autores de este libro nos ofrecen un conjunto de trabajos que cubren desde las primeras manifestaciones del anticlericalismo ilustrado y de la transición al Nuevo Régimen La Parra la revolución liberal y el Sexenio Democrático Moliner la Restauración Suárez Cortina la República y la Guerra Civil De la Cueva al Franquismo y la Democracia hasta nuestros días Botti Ballesteros El resultado es una mirada comprensiva y crítica hacia un fenómeno fundamental en la vida política cultural y social de la España contemporánea Como puede observar el lector el anticlericalismo alcanza desde ámbitos tan variados como la creación literaria el sistema educativo la secularización del Estado y de la sociedad hasta expresiones de profunda religiosidad críticas con la resistencia de la Iglesia a su renovación como puso de manifiesto la corriente modernista de fin de siglo Historia obrera y movimientos sociales en la España contemporánea. La mirada de un hispanista francés, Michel Ralle David Marcilhacy (coord.), Ignacio Peiró Martín (coord.), 2024-05-30 Este libro es el fruto del encuentro entre dos equipos de investigación de la Universidad de Zaragoza y Sorbonne Université de París A través del caso del historiador Michel Ralle y sus investigaciones sobre la historia obrera y los movimientos sociales rastrea cómo el hispanismo francés en las décadas 1970-1990 desarrolló una importante producción de conocimientos sobre la historia social de la España contemporánea y tuvo una notable influencia en la transformación de la metanarrativa nacional y la inserción en las redes europeas de la nascente historiografía democrática española Como testimonio de la práctica historiográfica de una época el volumen también reproduce dos ensayos fundamentales del profesor Ralle sobre la fiesta del 1 de mayo y el desarrollo de la acción huelguística durante la Restauración *Precisiones sobre arquitectura religiosa contemporánea* Esteban Fernández-Cobian, 2021-06-01 El lector tiene en sus manos una pequeña colección de textos académicos que intentan combinar el rigor científico con el interés de un artículo de divulgación Todos ellos han sido publicados recientemente en journals o en actas de congresos especializados o al menos están en proceso de edición Su hilo conductor es la arquitectura religiosa contemporánea La palabra Precisiones que encabeza el título tiene un evidente sabor corbusieriano pero también latinoamericano Si los textos de la primera mitad del libro giran en torno a diversos aspectos de la obra de Jeanneret la dimensión cosmológica de la arquitectura su fascinación por el ocultismo Ronchamp y su influencia posterior los últimos reflejan el giro vital que en los últimos tiempos ha llevado al autor a visitar diversos paisajes de Latinoamérica y a interesarse por sus arquitecturas y sus arquitectos Existe un esfuerzo por precisar los episodios que más han influido en la construcción de una idea de templo durante el siglo XX manteniendo el foco del discurso centrado en el ámbito católico Se pretende así superar los análisis que reducen el interés de la arquitectura religiosa a la obtención de ingeniosas soluciones formales

destinadas a conseguir un difuso ambiente espiritual La realidad suele ser más rica y más compleja y con frecuencia el aspecto final de una iglesia tiene mucho más que ver con las condiciones programáticas y socioculturales que rodean a una comunidad que con decisiones estrictamente plásticas El libro se abre y se cierra con dos entrevistas en las que de una manera relajada aunque no por ello menos precisa el autor va respondiendo a los problemas que cualquier lector interesado en la arquitectura religiosa contemporánea se podría plantear a la vez que se dejan en el aire nuevos interrogantes que acaso conduzcan a posteriores investigaciones

Política y violencia en la España contemporánea II Eduardo González Calleja, 2024-04-23

Lejos de constituir una particularidad del comportamiento político de los españoles la violencia es a la luz de una historiografía global y comparativa ingrediente definitorio de las transformaciones experimentadas por las sociedades europeas desde finales del siglo XVIII Fenómeno a la vez estructurante y de oportunidad la naturaleza y expresiones de la violencia colectiva responden a procesos de largo aliento vinculados a mudanzas de orden social económico científico cultural y político pero también a cambios de coyuntura en los espacios donde se plantean conflictos de poder desde el ámbito local al internacional El presente tomo aborda acontecimientos clave del siglo pasado como la Semana Trágica de 1909 la huelga general de 1917 el pistolero surgido o el pronunciamiento de Primo de Rivera así como la Guerra Civil y el maquis el 23 F o el rebrote del terrorismo en el último cuarto de la centuria Y adentrándose en el siglo XXI revisa el declive y la disolución de ETA la irrupción del terrorismo yihadista y las implicaciones violentas del Procés catalán Conforme a la explicación dada por Eric J Hobsbawm del siglo XX como era de las catástrofes esta magna obra del profesor González Calleja arroja luz sobre las violencias subversivas y represivas que en sucesivas oleadas han modelado la historia reciente de España
