WHAT ELITE ATHLETES EAT Deborah M. Westphal, RPh, BCNSP (Registered Pharmacist, Board Certified Nutrition Support Pharmacist), Glenn Westphal, PhD,2015-02-14 Talking to Elite Athletes and to Americans we noticed Americans do not have knowledge of what their own NBA stars Olympic teams and Pro Football teams eat to be elite athletes Most of us would delight to eat what these stars eat If only we knew What Elite Athletes Eat is Scepter Nutrition The program is completely different from the average American diet We should all be so lucky to eat the same delicious food Don t worry that these athletes are more active than us the average American burns as many calories on thinking studying or stress as the elite athlete burns in training Athletes are not into hunger deprivation programs or feeling weak They demand performance from their nutrition programs Jenny Thompson 12 Olympic Medals 8 Gold James Donaldson NBA Star and Pablo Morales 2 Olympic Gold Medals are some of the athletes that first bought into nutrition rich in fats with controlled servings of protein and carbs By doing this they not only rose to the top of their sport they extended their athletic careers far beyond others in their sports Elite athletes have further refined these principles resulting in the Scepter Nutrition Plan WHAT ELITE ATHLETES EAT also known as Scepter Nutrition flies in the face of what most of us have heard from our sports coaches doctors AMA American Medical Association public schools MY PLATE School Lunch Program the US Surgeon General the USDA United States Department of Agriculture ADA American Diabetes Association and the popular published fad diets WHAT ELITE ATHLETES EAT in their Scepter Nutrition Plan is the exact opposite of these programs Some things are immutable they do not mutate they do not change and they are truth The human body was created to be optimally sustained by a certain fuel mix nutrient mix This fuel mix will not change and has not changed for centuries No amount of fad diets advertising government MY PLATE programs or USDA Food Pyramid recommendations is going to change the way our bodies are designed to operate Two of those immutable truths are first that the human body is designed to use select fat protein and carbohydrate in a ratio of 60% 17% 23% in calories and secondly the body is also designed to operate best within tightly controlled carb and protein servings based on your body size which can be easily determined visually based on the size of your hands to achieve peak performance Experience with elite athletes over the past 20 years has demonstrated that

they perform best when they apply these principles This has also been demonstrated in select nutrition research trials over the same 20 years where we precisely control everything given to patients When an athlete wants to be best at a sport they go find the best mentors and coaches they can They find someone who can beat them and compete and train with them They don't find someone they can already beat and ask them to train them Athletes are turning to other elite athletes to train them in nutrition as well as their sport Athletes are ahead of us and we can learn from them and enjoy their same delicious food Elite Athletes are breaking world records more and more frequently Much of the credit goes to nutrition breakthroughs that have been documented to dramatically improve performance of the finest athletes trained by the world's best coaches at their documented peak performance levels to move beyond what even they and their coaches thought possible The Power of Temperance Conrad Riker, Are you tired of living in a world that promotes excess and indulgence at every turn Are you concerned about the impact of this culture of excess on your health relationships and personal well being Do you yearn for a simpler more balanced life but don't know where to start If so The Power of Temperance is the book for you Written by Conrad Riker The Power of Temperance delves deep into the history and evolution of temperance movements and offers a compelling case for why temperance is not just a historical concept but a necessary virtue in our modern age The book explores the psychology of addiction the economics of excess and the science of moderation providing practical insights that can help you resist the allure of excess and lead a healthier more fulfilled life This book also examines the role of government in regulating excess the impact of technology on temperance and the social dynamics that often lead to excess It draws on a range of religious perspectives to offer a moral and spiritual dimension to the concept of temperance and it explores the business case for temperance by looking at examples of successful businesses that promote moderation Finally The Power of Temperance addresses the critical issue of mental health providing evidence that temperance can act as a protective factor against mental illness It explores the potential longevity benefits of temperance and discusses future trends and developments related to temperance in an increasingly digital world So if you're ready to resist excess rediscover balance and reclaim control over your life The Power of Temperance is the guide you need Purchase your copy today and start your journey towards a more temperate healthier and happier life **Energy to Burn** Julie Upton, Jenna Bell-Wilson, 2009-03-23 Get the Energy Boost to Power Your Performance Every day Whether you're a serious athlete a weekend warrior or an active person constantly on the go proper nutrition can help you optimize your performance and reach your goals This accessible guide equips you with the most current science based sports nutrition information and tools available to help you maximize your energy and your results First the book lays out the foundation of healthy eating by explaining the role of carbohydrates protein and fats in a performance diet It helps you energize with pre competition meals guidance on what to eat and drink during exercise and post competition nutrition for optimal recovery You'll also find a complete 14 day diet plan to help you start fulfilling your energy requirements right away Energy to Burn also gives you An Energy Quotient quiz to see how you're
