For the traveller who needs fully detailed maps this series sets new standards in modern road cartography **Placing London** John Eade,2001-06-01 London continues to fascinate a vast audience across the world and an extensive diverse literature now exists describing and analyzing this metropolis The central question what is London has produced many answers but none of them the author argues uncovers the complex ways in which knowledge is constructed in the diverse attempts to represent places and people On the contrary a gulf has opened up between analysis of contemporary London as a global postcolonial city on the one hand and historical accounts of the imperial capital on the other The author shows how the gap can be bridged by combining an analysis of the representation over time by various experts of London and certain localities with an investigation of the ways in which residents have represented their communities through struggles over symbolic and material resources London Insight Pocket Insight Guides,Roland Collins,Beverley Harper,1992-05
