Streten,2024-06-17 Recent financial crisis and the global financial impacts of the COVID 19 pandemic have brought renewed interest to the regulation and practice of corporate insolvency and restructuring Modernisation of the insolvency profession and the regulation of its practitioners is a contemporary concern and recent years have seen significant reforms of insolvency law The success of such reforms can be enhanced through a clear understanding of difficulties faced by the insolvency profession in achieving successful restructuring and insolvency outcomes and through the determination of effective solutions to those difficulties However there is limited empirical data to inform the day to day practice of insolvency nor the difficulties experienced by insolvency practitioners in pursuing insolvency and restructuring solutions This book addresses this absence of data and understanding examining the role and practice of corporate insolvency practitioners and exploring the challenges that they encounter Offering an empirical study together with a comparative analysis of the experiences of practitioners around the world this book facilitates a greater understanding of corporate insolvency practice confronting a misunderstanding of and under confidence in corporate insolvency practitioners making it key reading for academics practitioners and regulators working in the area of corporate insolvency      **Insolvency** Peter Eales,1996-05-31 This book covers all aspects of insolvency including both corporate and private bankruptcy together with alternative routes to the insolvency process

**Court-Supervised Restructuring of Large Distressed Companies in Asia** Wai Yee Wan,2022-07-28 This book provides an in depth analysis of 4 economically significant Asian jurisdictions Mainland China India Hong Kong and Singapore These jurisdictions have recently either reformed or are considering reforming their corporate restructuring laws to promote regimes conducive to restructuring financially distressed but otherwise economically viable companies Mainland China India Hong Kong and Singapore continue to adhere to a framework that requires the court s final approval but draw references from Chapter 11 of the Bankruptcy Code 1978 in the United States and or the schemes of arrangement in the United Kingdom However the institutional and market structures are very different in Asia in particular Asia has a far higher concentration in shareholdings among listed firms including holdings by families and the state and a different composition of creditors The book explains how notwithstanding the legal transplantation corporate restructuring laws in these Asian jurisdictions have adapted and evolved due to the frictions in shareholder creditor and creditor creditor relationships and the role of the state in resolving non performing loans and financial distress of state owned enterprises which are listed or which issue public debt The study argues that any reforms must go beyond professionalising the insolvency professionals and the judiciary but must be designed to address fundamental issues of corporate governance bank regulation and enforcing non bankruptcy rules It offers invaluable insights for academics and policy makers alike      *The Director's Handbook* Institute of Directors,2010-05-03 The Director s Handbook
